Separett 1118-01

Separett Bio-Drain Cleaner Tablets 5-pack Instruction Manual

Model: 1118-01

1. PRODUCT OVERVIEW

The Separett Bio-Drain Cleaner Tablets are designed to prevent blockages in urine drain tubes, particularly in urine-diverting toilets. Each pack contains five tablets. These tablets contain enzymes that actively work to break down urine salt deposits, which are a common cause of blockages. Regular use helps maintain the efficiency and longevity of your toilet's urine drainage system.

The primary benefits of using Bio-Drain Cleaner Tablets include preventing crystallization, ensuring suitability for all urine-separating toilets, and extending the lifespan of the urine drain.

2. SAFETY INFORMATION

It is crucial to handle the Bio-Drain Cleaner Tablets with care and follow all safety guidelines to prevent accidental exposure.

- **Keep out of reach of children:** Store the tablets in a secure location inaccessible to children.
- **If swallowed:** In case of ingestion, immediately drink a large quantity of water or milk. Seek medical attention if symptoms persist.
- **In case of eye contact:** Rinse eyes thoroughly with water for 10-15 minutes. If irritation continues, consult a medical professional.
- **In case of skin contact:** Wash the affected skin area with soap and water.

3. USAGE INSTRUCTIONS

The Bio-Drain Cleaner Tablets are simple to use and integrate into your toilet maintenance routine.

1. **Placement:** Carefully place one Bio-Drain Cleaner tablet directly into the urine basin of your urine-diverting toilet.
2. **Application:** These tablets are suitable for use with all types of urine-separating toilets and dedicated urine toilets.

The longevity of each tablet's effectiveness depends on the frequency of toilet use. For optimal performance and continuous prevention of blockages, replace the tablet as needed, typically when its scent diminishes or if signs of reduced drainage are observed.

4. MAINTENANCE AND CARE

The Bio-Drain Cleaner Tablets are a key component of maintaining a healthy and functional urine-diverting toilet system. By regularly using these tablets, you actively prevent the buildup of urine salts that can lead to costly and inconvenient blockages.

- **Regular Replacement:** Ensure a fresh tablet is always present in the urine basin to provide continuous enzymatic action.
- **Storage:** Store unused tablets in their original packaging in a cool, dry place, away from direct sunlight and moisture, to preserve their efficacy.

5. TROUBLESHOOTING

While Bio-Drain Cleaner Tablets are highly effective in preventing blockages, occasional issues may arise.

- **Persistent Odor:** If a strong urine odor persists despite regular tablet use, ensure the tablet is correctly placed and consider if the frequency of replacement needs to be increased based on usage.
- **Slow Drainage:** If drainage becomes noticeably slow, it may indicate a partial blockage. Ensure a fresh tablet is in place. If the issue continues, a physical inspection of the drain tube may be necessary. For severe or persistent blockages, professional plumbing assistance might be required.

6. PRODUCT SPECIFICATIONS

Feature	Detail
Product Name	Bio-Drain Cleaner Tablets
Quantity	5 tablets per pack

Feature	Detail
Brand	Separett
Model Number	1118-01
Product Dimensions	4.93 x 2.19 x 2.03 inches (packaging)
Item Weight	3.99 ounces (113 Grams)
Scent	Unscented (Note: Product description mentions "strong scent", but specifications say "Unscented". Prioritizing specification.)
Manufacturer	Separett
First Available Date	July 7, 2020

7. WARRANTY AND SUPPORT

For information regarding returns or replacements, please refer to the retailer's policy. Typically, a 30-day return/replacement policy is offered for this product.

For further product support, inquiries, or to explore other Separett products, please visit the official Separett store or contact their customer service directly.
