

Dirt Devil F-22 HEPA Filter Assembly (Model: 1LV1110000)

Dirt Devil F-22 HEPA Filter Assembly Instruction Manual

Model: F-22 HEPA Filter Assembly (1LV1110000)

1. INTRODUCTION

This manual provides essential information for the proper installation, operation, and maintenance of your Dirt Devil F-22 HEPA Filter Assembly. This filter is designed to capture fine dust particles and allergens, contributing to cleaner air during vacuuming. Please read these instructions carefully before use to ensure optimal performance and longevity of your vacuum cleaner.

2. PRODUCT OVERVIEW

The Dirt Devil F-22 HEPA Filter Assembly is a critical component for maintaining the filtration efficiency of compatible Dirt Devil vacuum cleaners. It is a disposable filter designed for effective particle retention.

Figure 1: Dirt Devil F-22 HEPA Filter Assembly. This image displays the complete filter unit, ready for installation into a compatible vacuum cleaner.

3. COMPATIBILITY

This F-22 HEPA Filter Assembly is compatible with various Dirt Devil vacuum cleaner models. It is specifically designed to fit models that utilize the 1LV1110000 and 2LO1102000 filter types. Always verify your vacuum cleaner's model number and current filter type before purchasing a replacement.

4. INSTALLATION INSTRUCTIONS

Follow these steps to properly install the F-22 HEPA Filter Assembly:

1. **Safety First:** Ensure the vacuum cleaner is unplugged from the electrical outlet before attempting any installation or maintenance.
2. **Locate Filter Compartment:** Refer to your vacuum cleaner's user manual to identify the exact location of the filter compartment. This is typically found near the dust cup or motor housing.
3. **Remove Old Filter:** Open the filter compartment. Carefully remove the old, dirty filter. Dispose of the old filter according to local regulations.
4. **Insert New Filter:** Place the new Dirt Devil F-22 HEPA Filter Assembly into the compartment. Ensure it is seated correctly and securely, aligning any tabs or grooves.
5. **Close Compartment:** Close the filter compartment cover firmly until it latches. Ensure it is fully sealed to prevent dust leakage and maintain proper suction.
6. **Test:** Plug in the vacuum cleaner and perform a brief test to ensure proper operation and suction.

5. OPERATING THE FILTER

Once installed, the F-22 HEPA Filter Assembly operates automatically as part of your vacuum cleaner's filtration system. It works to trap microscopic particles, including pollen, pet dander, and dust mites, as air passes through it during vacuuming. No additional user action is required for its operation beyond proper installation.

6. MAINTENANCE AND REPLACEMENT

The Dirt Devil F-22 HEPA Filter Assembly is a *disposable* filter and is not designed for washing or reuse. For optimal performance and to maintain air quality, it is recommended to:

- **Inspect Regularly:** Visually inspect the filter every 1 to 3 months, depending on usage frequency and household dust levels.
- **Replace When Needed:** Replace the filter when it appears visibly dirty, discolored, or if you notice a decrease in vacuum suction or an increase in dust escaping the exhaust. Typically, replacement is recommended every 6 to 12 months for average household use.

Failure to replace the filter regularly can lead to reduced vacuum performance, increased motor strain, and diminished air filtration.

7. TROUBLESHOOTING

If you experience issues related to your vacuum cleaner's filtration, consider the following:

- **Reduced Suction:** A clogged or dirty filter is a common cause of reduced suction. Inspect the F-22 HEPA filter and replace it if necessary. Also, check for blockages in the hose or brush roll.
- **Unusual Odors:** A dirty filter can sometimes cause unpleasant odors during vacuuming. Replacing the filter often resolves this issue.
- **Dust Escaping:** If dust is escaping from the vacuum's exhaust, ensure the filter is correctly installed and the compartment is sealed. If the filter is old, it may no longer be effective and requires replacement.

If problems persist after replacing the filter and checking for other common issues, consult your vacuum cleaner's specific troubleshooting guide or contact Dirt Devil customer support.

8. SPECIFICATIONS

Feature	Detail
Product Name	F-22 HEPA Filter Assembly
Brand	Dirt Devil
Model Number	FBA_1LV1110000
ASIN	B005M4JTDS
Material	Filter Media (specific composition not provided)
Reusability	Disposable
Number of Pieces	1
Compatible Devices	Dirt Devil Vacuum Cleaners (models 1LV1110000, 2LO1102000)
Package Dimensions	5.51 x 3.9 x 3.9 inches
Item Weight	3.84 ounces

9. WARRANTY AND SUPPORT

This Dirt Devil F-22 HEPA Filter Assembly is a replacement part. Specific warranty information for replacement parts may vary. Please refer to the warranty policy provided with your original Dirt Devil vacuum cleaner or visit the official Dirt Devil website for details regarding replacement parts.

For further assistance or inquiries, please contact Dirt Devil customer support through their official channels.
