De'Longhi HMP1500-6A

De'Longhi Mica Panel Space Heater User Manual

Model: HMP1500-6A

1. Introduction

Thank you for choosing the De'Longhi Mica Panel Space Heater. This manual provides important information for the proper setup, operation, and maintenance of your new heater. Please read it thoroughly before use and keep it for future reference.

This 1500-watt Mica Panel Heater is designed to quickly deliver gentle heat without circulating dust, pollen, or dander, making it ideal for medium and large rooms. It offers easy-to-use controls, an adjustable thermostat, and two heat settings for customized comfort.

2. Safety Information

Your safety is paramount. This heater is equipped with several built-in safety features to ensure safe operation:

- **Thermal Shutoff:** Automatically turns off the unit to prevent overheating.
- **Internal Tip-Over Switch:** Automatically turns the unit off if it is accidentally knocked over.
- **Standby Setting:** Activates the heater when temperatures drop below 41°F (5°C) to help prevent frozen pipes.

Always ensure the heater is placed on a stable, level surface. Keep combustible materials such as furniture, pillows, bedding, papers, clothes, and curtains at least 3 feet (0.9 m) from the front of the heater and away from the sides and rear.

3. Package Contents

Upon opening the package, please verify that all components are present and undamaged:

- De'Longhi Mica Panel Space Heater Unit
- Pre-attached Wheels (for freestanding use)
- Wall-Mount Kit (for wall installation)
- Built-in Handle (for easy portability)

4. Setup

Your De'Longhi Mica Panel Space Heater offers flexible placement options: freestanding or wall-mounted.

4.1 Freestanding Setup

The heater comes with pre-attached wheels for easy mobility. Simply place the heater on a flat, stable surface in the desired location. Ensure there is adequate clearance around the unit for proper heat distribution and safety.

4.2 Wall-Mount Setup

For a space-saving solution, the heater can be mounted on a wall using the included kit. Refer to the detailed instructions provided with the wall-mount kit for proper installation. Ensure the wall surface is suitable and can support the heater's weight (approximately 10.1 pounds).

5. Operating Instructions

The De'Longhi Mica Panel Space Heater features simple controls for ease of use.

5.1 Initial Use (Break-in Procedure)

During the first few hours of operation, the heater may emit a slight odor. This is normal and will dissipate quickly. Ensure the room is well-ventilated during initial use.

5.2 Power and Heat Settings

Locate the two control knobs on the side of the heater. The top knob controls the power and general heat setting, while the bottom knob adjusts the thermostat.

1. **Power On/Off:** Turn the top knob from 'OFF' to 'MIN' (750W) or 'MAX' (1500W) to turn the heater on. A red indicator light will illuminate, signifying the heater is active.
2. **Adjusting Thermostat:** Use the bottom knob to set your desired room temperature. Turn the knob clockwise to increase the temperature setting and counter-clockwise to decrease it. The heater will cycle on and off to maintain the set temperature.

The heater converts 100% of the electricity used into heat, ensuring efficient operation with no wasted energy.

6. Maintenance

Regular maintenance ensures optimal performance and longevity of your heater.

- **Cleaning:** Always unplug the heater and allow it to cool completely before cleaning. Use a soft, damp cloth to wipe the exterior surfaces. Do not use abrasive cleaners or solvents.
- **Storage:** If storing the heater for an extended period, clean it thoroughly and store it in a cool, dry place. It is recommended to keep it in its original packaging to protect it from dust and damage.
- **No Internal Maintenance:** The heater does not require any internal lubrication or maintenance. Do not attempt to open or repair the unit yourself.

---

7. Troubleshooting

If you experience issues with your heater, consult the following common problems and solutions:

- **Heater does not turn on:**
  - Ensure the power cord is securely plugged into a working electrical outlet.
  - Check if the power knob is set to 'MIN' or 'MAX'.
  - Verify that the thermostat knob is set to a temperature higher than the current room temperature.
  - Check your household circuit breaker or fuse box.
  - If the heater was tipped over, ensure it is upright and reset.
- **Heater emits an unusual odor:**
  - A slight odor is normal during initial use. Ensure adequate ventilation.
  - If the odor persists or is strong, unplug the unit and contact customer support.
- **Heater is not heating effectively:**
  - Ensure the heat setting is appropriate for the room size.
  - Check for drafts or open windows/doors that might be affecting room temperature.
  - Ensure the heater is not obstructed.

For issues not listed here, please contact De'Longhi customer support.
