

## RASTAR 42800WH

# RASTAR 1/14 Scale Porsche 911 GT3 RS Radio Remote Control Car Instruction Manual

Model: 42800WH

## 1. INTRODUCTION

Thank you for purchasing the RASTAR 1/14 Scale Porsche 911 GT3 RS Radio Remote Control Car. This product is designed to provide an engaging remote control driving experience with detailed features and responsive controls. Please read this manual thoroughly before operating the vehicle to ensure proper setup, safe use, and optimal performance.

### Key Features:

- Full Function Radio Control (Forward, Reverse, Stop, Left, Right)
- Adjustable Front Wheel Alignment
- Independent Spring Suspension System
- Detailed Interior and Exterior Design
- Authentic Rims & Tires
- Glossy Exterior Paint Finish
- Working Headlights and Rear Lights

## 2. SAFETY PRECAUTIONS

To prevent injury or damage, observe the following safety guidelines:

- **Age Recommendation:** This product is recommended for ages 3 months and up, but adult supervision is advised for younger users due to small parts and operational complexity.
- **Battery Safety:** Use only the specified batteries. Do not mix old and new batteries, or different types of batteries. Ensure correct polarity (+/-) when installing. Remove batteries from the car and remote when not in use for extended periods. Do not attempt to recharge non-rechargeable batteries.
- **Operating Environment:** Operate the vehicle in open, clear areas. Avoid operating near people, pets, furniture, or other obstacles. Do not operate in wet conditions, sand, or extreme temperatures.
- **Avoid Interference:** Do not operate multiple RC vehicles on the same frequency simultaneously, as this may cause interference.
- **Physical Contact:** Do not touch the moving wheels or other parts of the car while it is in operation.

### 3. PACKAGE CONTENTS

---

Verify that all items are present in the package:

- 1 x RASTAR 1/14 Scale Porsche 911 GT3 RS RC Car
- 1 x Remote Control
- 6 x AA Batteries (for car and remote)

### 4. SETUP

---

#### 4.1 Battery Installation

**For the RC Car:**

1. Locate the battery compartment on the underside of the car.
2. Use a screwdriver to open the battery compartment cover.
3. Insert the required AA batteries, ensuring correct polarity (+/-).
4. Replace the battery compartment cover and secure it with the screw.

**For the Remote Control:**

1. Locate the battery compartment on the back of the remote control.
2. Open the battery compartment cover.
3. Insert the required AA batteries, ensuring correct polarity (+/-).
4. Replace the battery compartment cover.

## 4.2 Front Wheel Alignment

If the car does not drive straight, you can adjust the front wheel alignment:

- Locate the alignment lever or knob on the underside of the car, near the front wheels.
- While the car is powered on, make small adjustments to this control until the car tracks straight when moving forward.

## 5. OPERATING INSTRUCTIONS

---

Ensure both the car and the remote control are powered on. The remote control operates on a single channel.

### Remote Control Functions:

- **Forward:** Push the forward lever/button on the remote.
- **Reverse:** Push the reverse lever/button on the remote.
- **Left:** Turn the steering wheel/lever left while moving forward or reverse.
- **Right:** Turn the steering wheel/lever right while moving forward or reverse.
- **Stop:** Release the forward/reverse lever/button.

### Performance Notes:

- The car has an approximate remote distance of 30 feet. Operating beyond this range may result in loss of control.
- Expected speed range is 8-15 mph, depending on surface and battery condition.
- For optimal performance, ensure batteries are fresh and the operating area is free of obstructions.

## 6. MAINTENANCE

---

Proper maintenance will extend the life of your RC car:

- **Cleaning:** Wipe the car and remote with a soft, dry cloth after each use. Do not use water or chemical cleaners, as this can damage electronic components.

- **Storage:** When not in use for extended periods, remove all batteries from both the car and the remote control. Store the vehicle in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically check for loose screws, damaged wires, or worn parts. Do not operate if any damage is observed.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Car does not move or responds erratically.	Low batteries in car or remote; Car or remote not powered on; Out of range; Signal interference.	Replace batteries; Ensure power switches are ON; Operate within 30 ft range; Move to an area with less interference.
Car does not drive straight.	Front wheel alignment issue.	Adjust the front wheel alignment lever/knob on the underside of the car.
Poor range or weak signal.	Low batteries; Obstacles between remote and car; Environmental interference.	Replace batteries; Operate in an open area; Avoid operating near large metal objects or other electronic devices.

## 8. SPECIFICATIONS

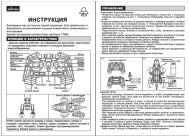

- **Model:** 42800WH
- **Scale:** 1:14
- **Dimensions (L x W x H):** 13.78 x 4.02 x 5.98 inches (approximately 35 x 10.2 x 15.2 cm)
- **Item Weight:** 2.55 pounds (approximately 1.16 kg)
- **Power Source (Car & Remote):** 6 x AA batteries (included)
- **Remote Distance:** Approximately 30 feet (9 meters)
- **Speed:** 8-15 mph (13-24 km/h)
- **Manufacturer:** Midea Tech
- **Recommended Age:** 3 months and up

## 9. WARRANTY AND SUPPORT

This product does not come with an explicit manufacturer's warranty statement in the provided information. For any warranty claims, technical support, or service inquiries, please contact the retailer or the manufacturer, RASTAR, directly through their official channels. Please retain your proof of purchase for any support requests. Separate protection plans may be available for purchase from third-party providers, but these are not included with the product itself.
