5. Maintenance and Cleaning

To maintain the longevity and hygiene of your playard, follow these cleaning recommendations:

- Spot clean the fabric components using mild soap and warm water.
- Do not use bleach or harsh abrasives.
- Allow all parts to air dry completely before reassembly or storage.
- Regularly check for loose fasteners, worn material, or broken stitching. Replace damaged parts as needed.

6. Troubleshooting

If you encounter any issues during assembly or use, refer to the following common solutions:

- **Rails not locking:** If the side rails do not lock, ensure the center of the playard is pulled upward and not fully pressed down. Lift the center, then pull up on the side rails until they click into place.
- **Playard not folding:** Ensure all accessories (bassinet, changing table, etc.) and the mattress are removed. The center handle must be pulled upward to unlock the side rails before attempting to fold.
- **Electronic Music Center not working:** Check the batteries and ensure they are correctly installed. Replace with fresh batteries if necessary.
