

TRIXIE 39340

TRIXIE Aluminium Dog Transport Box Model 39340 Instruction Manual

1. PRODUCT OVERVIEW

The TRIXIE Aluminium Dog Transport Box Model 39340 is designed for the safe and comfortable transportation of your dog. Constructed with a robust aluminium frame and compact panels, this transport box offers stability, safety, and a quiet environment for your pet during travel. It includes a non-slip mat and a Velcro strip on the base for added security and comfort.

This transport box is suitable for use in vehicles and can also serve as a temporary home crate, providing a secure space for your dog.

2. SAFETY INFORMATION

- Always ensure the transport box is securely placed and restrained in your vehicle to prevent movement during transit.
- Before first use, allow your dog to become accustomed to the transport box. Place familiar items like blankets or toys inside to create a positive association.
- Never leave your dog unattended in the transport box for extended periods, especially in extreme temperatures.
- Regularly inspect the box for any damage or wear that could compromise its safety or your pet's comfort.
- If traveling by air, consult your airline's specific requirements for pet carriers, as these may vary.

3. PACKAGE CONTENTS

Upon unpacking, verify that all components are present and undamaged. The package should contain:

- 1 x TRIXIE Aluminium Dog Transport Box (Model 39340)
- 1 x Non-slip mat
- Assembly hardware (screws, connectors)

- Instruction leaflet

4. ASSEMBLY INSTRUCTIONS

Assembly of the TRIXIE Aluminium Dog Transport Box typically requires approximately 30 minutes and may be easier with two people. Follow the detailed instructions provided in the included leaflet. General steps include:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Identify the side panels, front door, back panel, top, bottom, and connecting pieces.
2. **Assemble Frame:** Connect the aluminium frame sections using the provided connectors and screws. Ensure all connections are secure.
3. **Attach Panels:** Secure the compact side, front, back, top, and bottom panels to the assembled frame.
4. **Install Door:** Attach the front door, ensuring it opens and closes smoothly and the latch mechanism functions correctly.
5. **Place Mat:** Insert the non-slip mat into the base of the transport box.

5. OPERATING INSTRUCTIONS

5.1. Introducing Your Dog to the Box

To ensure a positive experience, introduce your dog to the transport box gradually. Place treats or toys inside, and allow your dog to explore it at their own pace. Reward them for entering and spending time inside. This

helps them associate the box with safety and comfort.

5.2. Securing Your Dog

Once your dog is comfortable, guide them into the box. Close the door securely using the latch mechanism. Ensure your dog has enough space to stand, turn around, and lie down comfortably.

5.3. Placement in Vehicle

Place the transport box in the trunk or cargo area of your vehicle. Utilize the Velcro strip on the base to help prevent sliding. For optimal safety, consider using additional straps or restraints to secure the box firmly, preventing movement during sudden stops or turns.

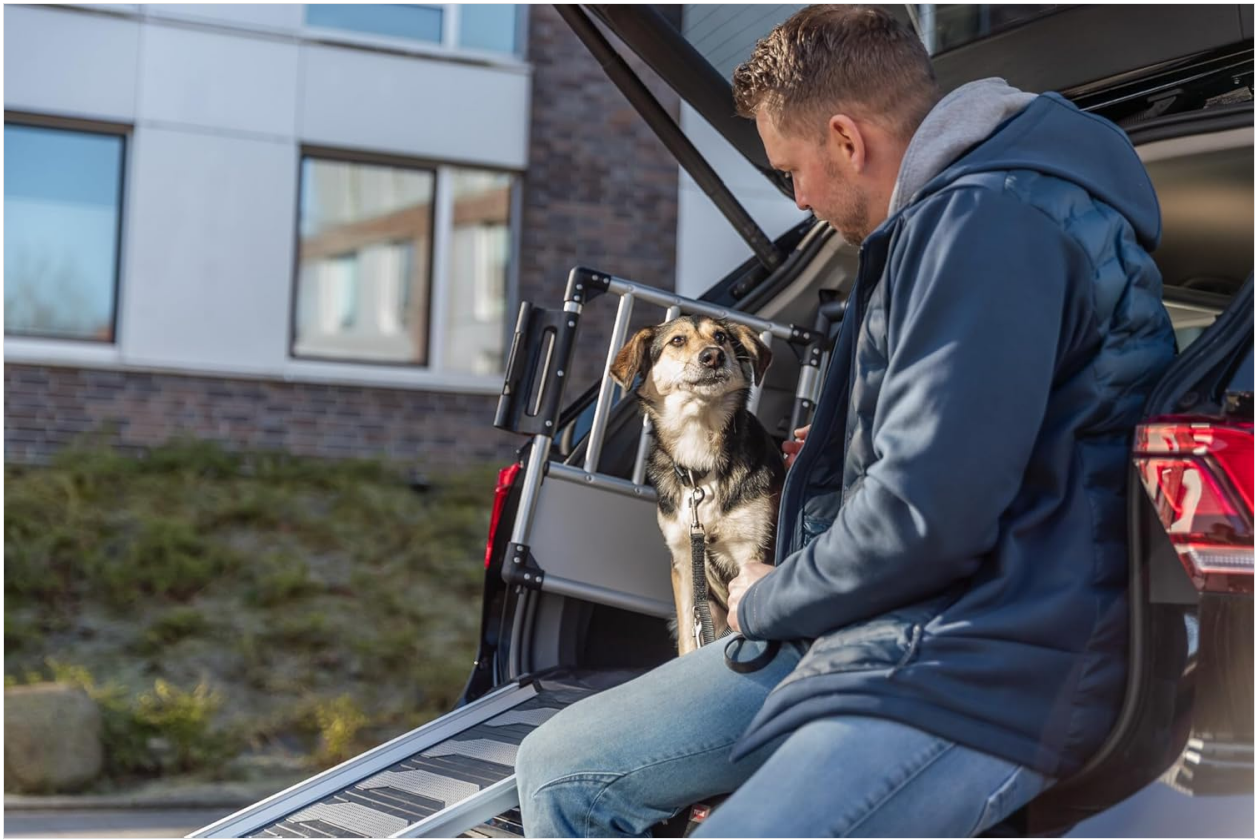

Image 5.2: A dog being guided into the transport box, which is already placed in a car trunk.

6. MAINTENANCE AND CARE

- **Cleaning:** Clean the aluminium surfaces with a damp cloth and mild detergent. Avoid abrasive cleaners that could damage the finish. The non-slip mat can be removed and washed separately.
- **Inspection:** Regularly check all screws, latches, and frame connections to ensure they are tight and secure. Tighten any loose fasteners as needed.
- **Storage:** When not in use, store the transport box in a dry, clean place to prevent corrosion or damage.

7. TROUBLESHOOTING

7.1. Dog Reluctance to Enter

If your dog is hesitant to enter the box, continue with positive reinforcement. Place favorite treats, toys, or a comfortable blanket inside. Leave the door open initially and allow them to enter and exit freely. Never force your dog into the box, as this can create negative associations.

7.2. Box Movement in Vehicle

Ensure the Velcro strip on the base is making good contact with the vehicle's carpet. For additional stability, use cargo straps or a cargo barrier to prevent the box from shifting during travel.

8. SPECIFICATIONS

Feature	Detail
Model Number	39340

Feature	Detail
Brand	TRIXIE
Material	Aluminium
Color	Silver
Dimensions (L x W x H)	22.4" x 18.9" x 25.2" (56 cm x 46 cm x 60 cm)
