Verbatim 53023 1TB Store 'n' Go USB 3.0 External Hard Drive User Manual

Model: 53023

1. INTRODUCTION

This manual provides instructions for the Verbatim 53023 1TB Store 'n' Go USB 3.0 External Hard Drive. This portable hard drive offers high-performance storage with a USB 3.0 interface, enabling fast data transfer. It is designed for storing and transporting digital files and is compatible with both USB 3.0 and USB 2.0 ports.

Figure 1.1: The Verbatim Store 'n' Go 1TB USB 3.0 External Hard Drive in black, shown from an angled perspective.

2. PACKAGE CONTENTS

Verify that your package contains the following items:

- Verbatim Store 'n' Go USB 3.0 External Hard Drive (1TB)
- USB 3.0 Cable
- Quick Start Guide
- Pre-loaded Software: Nero BackItUp and Burn Essentials, Green Button Energy Saving Software

Figure 2.1: Retail packaging for the Verbatim Store 'n' Go 1TB USB 3.0 External Hard Drive, highlighting key features and included software.

3. SETUP

3.1 System Requirements

- USB 3.0 / 2.0 port
- Windows 2000 / XP / Vista / 7 / 8
- Mac OS X 10.1 or higher
- Linux kernel 2.6 and higher

3.2 Connecting the Hard Drive

1. Locate an available USB port on your computer. For optimal performance, use a USB 3.0 port. The drive is also backward compatible with USB 2.0 ports.
2. Connect the small end of the provided USB 3.0 cable to the port on the Verbatim Store 'n' Go hard drive.
3. Connect the larger end of the USB 3.0 cable to the USB port on your computer.
4. The drive is bus-powered and does not require an external power adapter. It will power on automatically once connected.

Figure 3.1: The Verbatim Store 'n' Go hard drive connected to a laptop via its USB cable, ready for use.

3.3 Initial Formatting

The Verbatim Store 'n' Go portable hard drive comes pre-formatted in FAT32, allowing for immediate use on both Windows and Mac OS systems. For users requiring support for larger file sizes (over 4GB) or enhanced security features, reformatting the drive to NTFS (for Windows) or HFS+ (for Mac) may be necessary. Refer to your operating system's documentation for instructions on how to reformat a drive.

4. OPERATING INSTRUCTIONS

4.1 Data Transfer

Once connected, the hard drive will appear as a removable storage device on your computer. You can

transfer files by dragging and dropping them to and from the drive, or by using your operating system's copy and paste functions. USB 3.0 offers significantly faster transfer speeds compared to USB 2.0.

4.2 Safely Removing the Drive

To prevent data corruption or damage to the drive, always safely remove the device before disconnecting it from your computer.

- **Windows:** Click the "Safely Remove Hardware and Eject Media" icon in the system tray, then select the Verbatim drive. Wait for the "Safe to Remove Hardware" notification before disconnecting.
- **Mac OS:** Drag the drive icon from your desktop to the Trash, or right-click (Control-click) the drive icon and select "Eject". Wait for the icon to disappear from the desktop before disconnecting.

5. INCLUDED SOFTWARE

Your Verbatim Store 'n' Go hard drive includes pre-loaded software to enhance its functionality.

5.1 Nero BackItUp and Burn Essentials

This software suite provides three key applications:

- **Backup:** Create backups of your files, folders, and entire drives. You can perform manual backups or schedule automatic backups for regular data protection.
- **Burn:** Use Nero Express to burn your files to CDs or DVDs.
- **Recovery:** Nero RescueAgent assists in recovering files that may have become damaged.

Compatibility: Nero BackItUp and Burn Essentials is compatible with Windows XP, Vista, and Windows 7. It is not compatible with Mac OS.

5.2 Green Button Energy Saving Software

The Green Button software helps conserve energy by suspending the hard drive's spinning when it is not in use. This feature increases efficiency and extends the drive's lifespan.

Sleep Setting Options:

- Set the suspend mode to activate after 10 minutes of inactivity, or in increments of 10 minutes up to 120 minutes.
- Double-click the Green Button icon on your desktop to immediately suspend the drive.
- Option to set the drive to "Never Suspend the disk" if continuous operation is required.

6. MAINTENANCE

- **Physical Care:** Keep the drive in a clean, dry environment. Avoid exposing it to extreme temperatures, direct sunlight, or excessive moisture.
- **Handle with Care:** While portable, avoid dropping or subjecting the drive to strong impacts, as this can damage internal components.
- **Regular Backups:** Periodically back up important data from your external drive to another storage medium to prevent data loss in case of drive failure.
- **Software Updates:** Ensure your operating system and any drive-related software are kept up to date.

Figure 6.1: The compact Verbatim Store 'n' Go hard drive held in a hand, illustrating its portability and ease of handling.

7. TROUBLESHOOTING

- **Drive Not Detected:**

- Ensure the USB cable is securely connected to both the drive and the computer.
- Try connecting the drive to a different USB port on your computer.
- Test the drive with a different USB cable if available.
- Restart your computer.
- Check your computer's Disk Management (Windows) or Disk Utility (Mac) to see if the drive is recognized but unformatted or has a drive letter conflict.

- **Slow Data Transfer:**

- Ensure you are connected to a USB 3.0 port for optimal speed. USB 2.0 ports will operate at slower speeds.
- Verify that your computer's USB 3.0 drivers are up to date.

- **Data Corruption:**

- Always use the "Safely Remove Hardware" function before disconnecting the drive.
- If data corruption occurs, use the Nero RescueAgent software (Windows only) or consider professional data recovery services.

8. SPECIFICATIONS

Capacity	1TB (1000 GB)
Interface	USB 3.0 (backward compatible with USB 2.0)

Data Transfer Rate	Up to 4800 Mbits/second (USB Bus Speed)
Rotational Speed	5400 RPM
Cache	8MB or greater
Dimensions (L x W x H)	121mm x 80mm x 15mm (4.76 x 3.15 x 0.59 inches)
Weight	184g (3.52 ounces)
Power	Bus powered via USB 3.0 cable
Operating System Compatibility	Windows 2000 / XP / Vista / 7 / 8, Mac OS X 10.1+, Linux kernel 2.6+

Photographs Really Matter

When you ask people what possessions they would rescue from their burning house, one of the most frequent answers is the photograph album or the computer or storage device with their digital images saved on them. When in panic mode it's interesting that we would probably grab photos rather than valuable jewellery.

Photographs preserve the important moments, events and people in our lives. The ceremonies of birth and birthdays, marriages and anniversaries, holidays and new houses are all recorded because they matter. Photographs are our personal story, a timeline of our lives filled with faces and places that we love.

How you capture, save and take care of these photos is therefore pretty important. Shouldn't you be using technology you can trust?

Fotos sind lebende Erinnerungen

Auf die Frage, was Leute bei einem Wohnungs- oder Hausbrand retten würden, ist eine der häufigsten Antworten: das Fotoalbum - oder der Computer beziehungsweise das Speichergerät mitsamt der digitalen Erinnerungen. Es ist bemerkenswert, dass man im Panikmodus wohl eher schnell nach Fotos als nach wertvollem Schmuck greift.

Fotos halten die in unserem Leben wichtigen Menschen, Momente und Ereignisse fest: Geburten und Geburtstage, Hochzeiten und Jahrestage, Urlaube, Ausflüge oder Einweihungsparty werden fotografiert, weil sie eine ganz besondere Bedeutung haben. Bilder repräsentieren unsere persönliche Geschichte, sind Chronik unseres Lebens - geschmückt mit für uns wichtigen Gesichtern und Orten.

Deshalb ist es so relevant, wie diese Fotos aufgenommen, gespeichert und geschützt werden. Sollte da nicht besser Technologie zum Einsatz kommen, auf die man sich verlassen kann?

Les photos, ça compte énormément !

Lorsque vous demandez aux gens quels biens ils sauveraient en premier de leur maison en flammes, l'une des réponses les plus fréquentes est la suivante : leurs albums photos ou bien l'ordinateur ou le périphérique de stockage qui contient leurs images numériques. En cas de panique, il est curieux de donner la priorité à des photos plutôt qu'à des bijoux précieux.

Les photographies immortalisent les moments, événements et personnes importants de nos vies. Les mariages, les baptêmes et les anniversaires, les vacances et les nouvelles maisons sont toutes enregistrées parce qu'elles sont importantes. Les photographies capturent et conservent notre histoire personnelle, la chronologie de nos vies, remplies de visages et de lieux que nous aimons.

La façon dont vous capturez, enregistrez et prenez soin de ces photos est donc très importante. Il vous faut donc utiliser une technologie de confiance, n'est-ce pas ?
