

Blendtec TB-621-25

Blendtec Total Classic Original Blender with WildSide+ Jar User Manual

Model: TB-621-25

INTRODUCTION

This manual provides essential information for the safe and efficient operation, maintenance, and care of your Blendtec Total Classic Original Blender with WildSide+ Jar. Please read all instructions thoroughly before using the appliance.

IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Read all instructions before operating the blender.
- Do not immerse the motor base in water or other liquids.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or is dropped or damaged in any manner.
- The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock, or injury.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Keep hands and utensils out of container while blending to prevent the possibility of severe injury and/or damage to the blender. A scraper may be used but only when the blender is not running.
- Blades are sharp. Handle with care.
- Do not use the appliance for other than intended use.
- Close supervision is necessary when any appliance is used by or near children.

SETUP AND ASSEMBLY

1. **Unpack Components:** Carefully remove all parts from the packaging. Ensure all components are present: blender base, WildSide+ jar with lid.
2. **Position the Base:** Place the blender base on a clean, dry, and stable surface. Ensure adequate ventilation around the unit.
3. **Attach the Jar:** Place the WildSide+ jar onto the blender base. The jar should sit securely on the drive socket.
4. **Initial Cleaning:** Before first use, wash the WildSide+ jar and lid with warm, soapy water. Rinse thoroughly and dry. The blender base can be wiped with a damp cloth.

OPERATING YOUR BLENDER

Control Panel Overview

The Blendtec Total Classic Original Blender features a user-friendly control panel with pre-programmed cycles, manual speed control, and a pulse function.

Image: Detailed view of the blender's control panel, highlighting the manual speed controls (+/- buttons) and the six preprogrammed blending cycle icons.

Adding Ingredients

Ensure the jar is securely on the base. Add ingredients to the WildSide+ jar. The lid features an opening that allows you to add ingredients during blending without removing the entire lid.

Using Pre-programmed Cycles

The blender includes 6 pre-programmed cycles designed for common blending tasks. To use:

1. Add ingredients to the jar and secure the lid.
2. Place the jar on the motor base.
3. Select the desired pre-programmed cycle by pressing its corresponding icon on the control panel. The blender will automatically adjust speed and duration, then shut off when complete.

Manual Speed Control

For customized blending, use the 10-speed control:

1. Add ingredients to the jar and secure the lid.
2. Place the jar on the motor base.
3. Press the '+' or '-' buttons to increase or decrease the blending speed. The display will show the current speed setting.
4. Press the 'Pulse' button for short bursts of high-speed blending. Release to stop.
5. To stop blending, press the 'Stop' button or allow a pre-programmed cycle to complete.

CLEANING AND MAINTENANCE

Self-Cleaning Cycle

For quick and easy cleaning of the WildSide+ jar:

1. Add 1 cup of warm water and a drop of dish soap to the empty jar.
2. Secure the lid and place the jar on the motor base.
3. Select the "Clean" or "Pulse" cycle for 5-10 seconds, or until clean.
4. Rinse the jar thoroughly with clean water.

Manual Cleaning

- **Jar and Lid:** The WildSide+ jar and lid are dishwasher safe (top rack recommended) or can be hand-washed with warm, soapy water. The blunt wingtip blade design is intended for safety during cleaning.
- **Motor Base:** Unplug the blender before cleaning. Wipe the motor base with a damp cloth. Do not immerse the base in water.

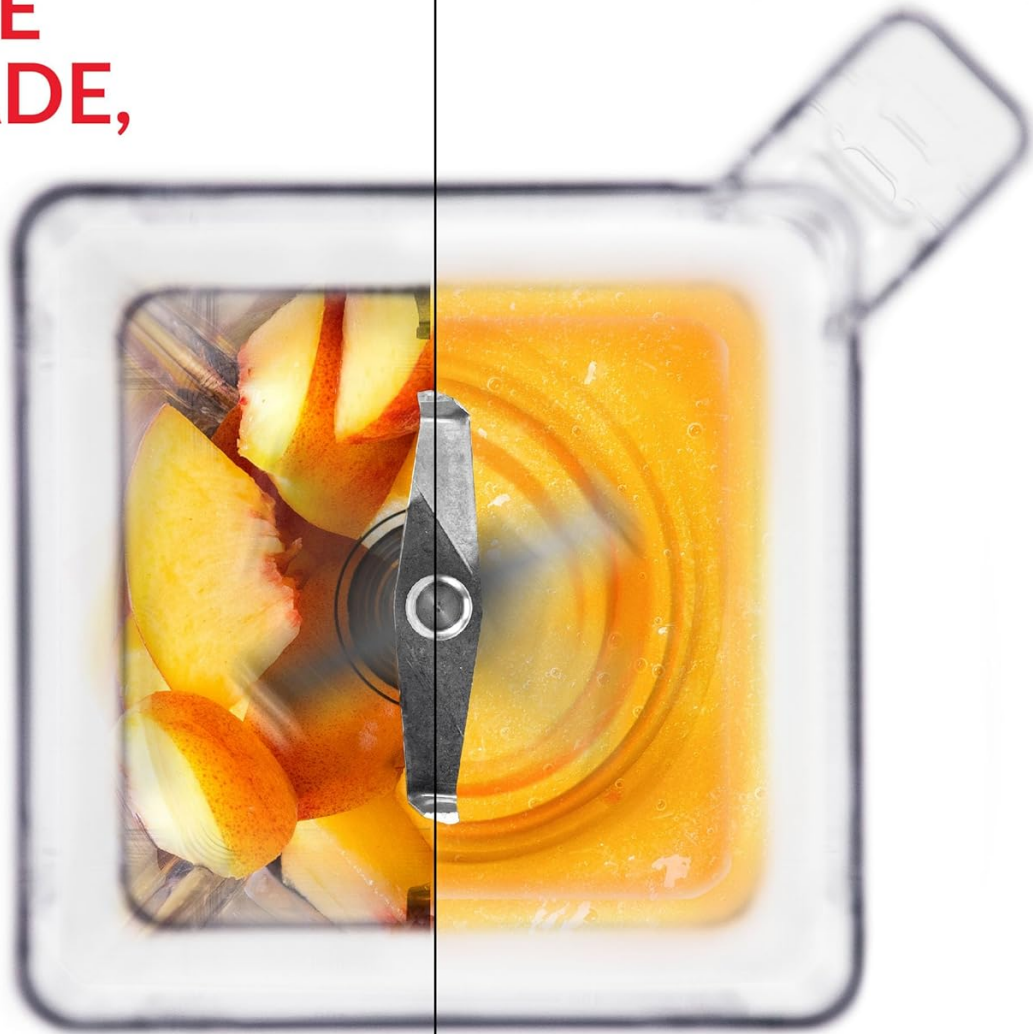

Jars work on
all Commercial
Blendtec
blenders.

BPA-free four-sided jar is a 75 ounce volume jar with 32 ounce blending capacity (wet or dry) ideal for blending beverages for 3-4 people.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Blender does not turn on.	Not plugged in; power outlet issue; jar not seated correctly.	Ensure the power cord is securely plugged into a working outlet. Verify the jar is properly seated on the motor base.
Motor stops during blending.	Overload protection activated; ingredients too thick.	Unplug the blender, remove some ingredients, add more liquid, or cut ingredients into smaller pieces. Wait 15-20 minutes for the motor to cool before restarting.
Ingredients not blending smoothly.	Insufficient liquid; ingredients too large; incorrect speed setting.	Add more liquid. Cut ingredients into smaller pieces. Increase blending speed or use a pre-programmed cycle designed for thicker blends.

Problem	Possible Cause	Solution
Burning smell from motor.	Overload; new motor break-in period.	If new, a slight burning smell is normal during initial uses. If persistent or accompanied by smoke, unplug immediately and contact customer support. Reduce load if overloading.

PRODUCT SPECIFICATIONS

Brand: Blendtec

Model: TB-621-25

Color: Black

Special Feature: Multiple Speeds

Capacity: 2.5 Liters (WildSide+ Jar)

Product Dimensions: 7"D x 8"W x 15"H

Included Components: WildSide+ Jar

Power Source: Corded Electric

Number of Speeds: 10
