3. PREPARATION AND APPLICATION

3.1. Hair Preparation

Ensure your hair is clean and either damp or dry before application. For a stronger hold, apply to dry hair. For a more flexible hold and easier styling, apply to slightly damp hair.

3.2. Application Instructions

1. **Step 1: Dispense Product.** Scoop a small amount of Suavecito Pomade (approximately a dime-sized amount) using your fingertip. Adjust the quantity based on your hair length, thickness, and desired style.
2. **Step 2: Emulsify.** Rub the pomade between your palms until it is evenly distributed and becomes soft and pliable. This ensures smooth application and prevents clumping.
3. **Step 3: Distribute Evenly.** Apply the pomade evenly throughout your hair, starting from the roots and working your way to the tips. Ensure full coverage for consistent hold and shine.
4. **Step 4: Style as Desired.** Use a comb or your fingers to style your hair into the desired shape. The pomade allows for restyling throughout the day without flaking or hardening.

4. MAINTENANCE AND STORAGE

4.1. Cleaning and Removal

Due to its water-based formulation, Suavecito Pomade washes out easily with just water. No special shampoos or excessive scrubbing are required. Simply rinse your hair thoroughly with water until the product is completely removed.

4.2. Storage

Store the pomade in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the lid is tightly closed after each use to maintain product consistency and prevent drying.

5. TROUBLESHOOTING

Issue	Possible Cause / Solution
Hair not holding style	Ensure hair is dry for maximum hold. Apply a slightly larger amount of product. For very stubborn hair, consider using Suavecito Firme Hold Pomade.
Product feels clumpy or uneven	Ensure the pomade is fully emulsified by rubbing it thoroughly between your palms before applying. Apply to slightly damp hair for smoother distribution.
Hair feels too stiff or crunchy	You may be using too much product. Start with a smaller amount and add more if needed. This product is designed not to be crunchy, so ensure proper emulsification.
Residue after washing	Rinse hair more thoroughly with water. If using a large amount of product, a light shampoo may be beneficial, though typically not required.
