Beautyrest Cotton Blend Heated Mattress Pad User Manual

Model: BR55-0202

Secure Comfort Technology - Luxury Quilted Electric Mattress Pad with Deep Pocket - 5-Setting Heat Controllers

INTRODUCTION

Thank you for choosing the Beautyrest Cotton Blend Heated Mattress Pad. This product is designed to provide exceptional warmth and comfort, enhancing your sleep experience. Featuring advanced Secure Comfort technology, it ensures safety and efficiency. This manual provides essential information for the proper setup, operation, and care of your new heated mattress pad.

KEY FEATURES

- **Secure Comfort Technology:** Designed to virtually eliminate Electromagnetic Field (EMF) emissions, ensuring a safer sleeping environment.
- **5 Heat Settings:** Allows you to select your preferred warmth level for personalized comfort.
- **10-Hour Auto-Shut Off Timer:** Provides peace of mind and energy savings by automatically turning off after 10 hours of continuous use.
- **Pre-Heat Feature:** A 1-hour pre-heat function can jump-start the warming process for quicker comfort.
- **Dual Controllers (Queen, King, Cal King):** Larger sizes include two controllers, enabling independent temperature adjustment for each side of the bed.
- **Deep Pocket Design:** The fitted skirt accommodates mattresses up to 18 inches thick, ensuring a snug and secure fit.

- **Soft, Flexible Wires:** Integrated soft wires and a quilted top provide exceptional comfort without noticeable wires.
- **Machine Washable:** Made from a cotton polyester blend, the mattress pad is machine washable for easy care.
- **UL Certified:** Independently tested to meet the highest safety standards.

Digital Controller

- 
- The image shows two grey, oval-shaped digital controllers for a Beautyrest mattress pad, resting on a white quilted mattress pad. Each controller has a black face with five green LED indicators numbered 1 to 5. Below the indicators are two orange triangular buttons labeled 'UP' and 'DOWN'. At the bottom of each controller are two orange circular buttons labeled 'PREHEAT' and a power button. The controllers are connected to the mattress pad by thin grey wires.
- ⑤ **5 Heat Settings**
 - 🔥 **Preheat Function**
 - ⌛ **10 Hour Auto Shut Off**

SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove the heated mattress pad from its packaging.
2. **Placement:** Lay the mattress pad flat on your mattress with the quilted side facing up. Ensure it is spread evenly without any bunches or folds.
3. **Secure Fit:** Pull the deep pocket skirt over the corners of your mattress. The elasticized skirt is designed to fit mattresses up to 18 inches thick, providing a secure and snug fit.
4. **Connect Controllers:** Locate the connection ports on the mattress pad. For Queen, King, and California King sizes, there will be two ports, one for each side. Connect the controller(s) firmly into the designated ports. Ensure the connection is secure.
5. **Position Controllers:** Place the controller(s) on a nightstand or a stable surface within easy reach from your bed. Ensure the controller is not covered by blankets or pillows to prevent overheating.
6. **Plug In:** Plug the power cord(s) from the controller(s) into a standard 110V-120V AC electrical outlet.

Skin-Friendly Comfort

Soft, breathable, and gentle on skin.

OPERATING INSTRUCTIONS

Turning On/Off

Press the power button () on the controller to turn the mattress pad on or off. The indicator lights will illuminate when the pad is active.

Adjusting Heat Settings

Use the UP (▲) and DOWN (▼) arrow buttons to cycle through the 5 available heat settings. The corresponding indicator light will show the selected heat level.

Pre-Heat Function

To quickly warm your bed, press the PREHEAT button. This function will activate a higher heat setting for approximately one hour to rapidly warm the pad before settling into your chosen heat level.

Auto-Shut Off

The mattress pad is equipped with a 10-hour auto-shut off feature for safety and energy conservation. The pad will automatically turn off after 10 hours of continuous operation. To restart, simply press the power button again.

Dual Control (Queen, King, Cal King)

For Queen, King, and California King sizes, each side of the bed has its own independent controller. This allows you and your partner to set individual heat preferences without affecting the other side.

CARE AND MAINTENANCE

Proper care will extend the life of your Beautyrest Heated Mattress Pad. Always follow these instructions:

1. **Disconnect Controllers:** Before washing, always ensure the power cord is unplugged from the wall outlet and the controller(s) are detached from the mattress pad.
2. **Machine Wash:** Machine wash the mattress pad in cold water on a gentle cycle, and separately from other laundry items.
3. **Do Not Bleach:** Do not use bleach or any harsh cleaning agents.
4. **Tumble Dry:** Tumble dry on a low heat setting. Remove promptly once dry to prevent wrinkles.
5. **Do Not Iron:** Do not iron the mattress pad.
6. **Commercial Washer/Dryer:** If your home washer or dryer does not allow for free movement of the mattress pad, use a large capacity commercial washer/dryer.

Gift For You Beloved Ones

Ultimate warmth therapy

TROUBLESHOOTING

Q: Why is my light blinking?

A: If an ERROR is detected, the controller display will show an 'E' followed by a number, and the power to the heating element will not be turned on. If you encounter this "ERROR" condition, refer to the detailed troubleshooting section in your full user manual or contact customer service.

Q: Only parts of my heated mattress pad are getting warm.

A: This is typically caused by an area of the heating element being bunched or pinched. First, ensure that the heated mattress pad is laid flat and not tucked in, bunched, and does not have anything heavy on it. Lay the heated mattress pad flat and run your fingers along the wire, paying special attention to the top and bottom of the heated mattress pad where the wire bends. If any portion of the wire is twisted on itself, manually twist it back to straighten it.

Q: My controller feels warm to the touch: Is this a problem?

A: No. The control will feel warm (not hot) to the touch when functioning properly. Small amounts of electricity will cycle through it, which may cause the controller to warm slightly. If the controller becomes hot to the touch, please discontinue use and contact customer service immediately.

PRODUCT SPECIFICATIONS

Attribute	Detail
Brand	Beautyrest
Model Name	Cotton Blend Heated Mattress Pad
Model Number	BR55-0202
Size (California King)	72"W x 84"L + 15"D (fits up to 18" thick mattress)
