› Oasis Flat Silver Wire (32ft L x 3/16in W) Instruction Manual

## Oasis B006L439AW

# Oasis Flat Silver Wire (32ft L x 3/16in W) Instruction Manual

## 1. INTRODUCTION

---

This instruction manual provides essential information for the proper handling and application of the Oasis Flat Silver Wire. This product is designed for various creative and structural uses in crafts, floral design, and jewelry making. Understanding its properties and recommended uses will ensure optimal results and product longevity.

## 2. PRODUCT OVERVIEW

---

The Oasis Flat Silver Wire is a versatile and malleable material. It is characterized by its flat profile and silver finish, making it suitable for both functional and decorative purposes.

This image shows the Oasis Flat Silver Wire in its coiled form, highlighting its flat profile and silver color.

- **Material:** Silver-colored metal
- **Color:** Silver
- **Dimensions:** 32 feet (L) x 3/16 inch (W)
- **Form:** Coiled, flat rectangular bar
- **Properties:** Strong and malleable, polished finish

### 3. SETUP AND PREPARATION

---

Before using the wire, ensure you have the appropriate tools and a clean workspace.

1. **Uncoiling:** Carefully uncoil the desired length of wire from the spool. Avoid pulling too quickly to prevent kinking.
2. **Cutting:** Use sturdy wire cutters suitable for metal wire. Standard scissors are not recommended as they may damage the wire or the scissors.
3. **Straightening (Optional):** If a perfectly straight piece is required, gently pull the wire between two pieces of felt or a nylon jaw plier to remove minor bends. Avoid excessive force.

### 4. OPERATING AND USAGE INSTRUCTIONS

---

The Oasis Flat Silver Wire is highly adaptable for various applications due to its strength and malleability.

#### 4.1. Crafting and Jewelry Making

- **Bending and Shaping:** The wire can be easily bent and shaped by hand or with pliers to create

custom forms, loops, and curves. Its flat profile adds a unique aesthetic.

- **Forming Armatures:** Use the wire to create internal support structures for sculptures, mixed media art, or fabric forms.
- **Decorative Wrapping:** Wrap around other materials, beads, or components for decorative accents.

## 4.2. Floral Applications

- **Creating Grids:** Form grids within vases or containers to provide structural support for floral arrangements, helping to hold stems in place.
- **Body Flowers and Bows:** Utilize the wire to construct bases for corsages, boutonnieres, or decorative bows, offering both support and a polished look.
- **Branding on Containers:** The wire can be shaped to create custom branding or decorative elements directly on floral containers.

## 5. MAINTENANCE AND CARE

---

Proper care ensures the wire remains in good condition for future projects.

- **Storage:** Store the wire in its original coiled form or re-coil it neatly to prevent tangling and kinking. Keep it in a dry environment to avoid potential tarnishing.
- **Cleaning:** If the wire accumulates dust or fingerprints, gently wipe it with a soft, dry cloth. Avoid abrasive cleaners or harsh chemicals, which can damage the finish.
- **Handling:** While strong, repeated sharp bending at the same point can weaken the wire and lead to breakage. Handle with care.

## 6. TROUBLESHOOTING

---

Addressing common issues encountered during use.

- **Kinking:** If the wire kinks during uncoiling or handling, gently try to straighten it by hand or with nylon jaw pliers. Avoid forcing it, as this can create permanent creases or weaken the wire.
- **Difficulty Shaping:** If the wire feels too stiff for a particular intricate shape, ensure your hands are warm, or use appropriate jewelry pliers for better grip and control.

## 7. SPECIFICATIONS

---

<b>Brand</b>	Oasis
<b>Material</b>	Silver
<b>Color</b>	Silver
<b>Length</b>	32 feet
<b>Width / Thickness</b>	3/16 inch (0.19 inches)
