Duravit D-Code 07053600092 Handrise Basin Instruction Manual

Brand: Duravit | Model: 07053600092

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Duravit D-Code 07053600092 Handrise Basin. Please read all instructions carefully before beginning installation and retain this manual for future reference.

SAFETY INFORMATION

Observe the following safety precautions during installation and use:

- Ensure all water supply lines are turned off before beginning installation.
- Wear appropriate personal protective equipment, such as gloves and eye protection.
- Handle ceramic products with care to prevent chipping or breakage.
- If you are unsure about any part of the installation process, consult a qualified plumber.
- Do not use abrasive cleaners or harsh chemicals on the basin surface.

PACKAGE CONTENTS

Verify that all components are present before starting installation:

- Duravit D-Code Handrise Basin (Model: 07053600092)
- Fixings (Included)
- Hardware (Included)
- Installation Template (if applicable, check packaging)

SETUP AND INSTALLATION

This section outlines the steps for properly installing your handrise basin. Ensure you have all necessary tools and materials before proceeding.

Pre-Installation Checks

1. Inspect the basin for any damage prior to installation. Do not install damaged products.
2. Confirm that the wall structure is adequate to support the weight of the basin and any associated plumbing.
3. Ensure water supply and drainage connections are correctly positioned according to local plumbing codes.

Mounting the Basin

1. Determine the desired mounting height for the basin. The typical height for the top rim of a basin is 80-85 cm (31.5-33.5 inches) from the finished floor.
2. Mark the positions for the mounting bolts on the wall using the provided template or by carefully measuring the basin's fixing points.
3. Drill holes at the marked positions, ensuring they are appropriate for the supplied fixings.
4. Insert the wall plugs (if provided) and secure the mounting bolts into the wall. Ensure they are firmly anchored.
5. Carefully lift the basin and align the mounting holes on the basin with the bolts protruding from the wall.
6. Slide the basin onto the bolts. Install washers and nuts, then tighten them securely but do not overtighten, as this can crack the ceramic.
7. Connect the water supply lines to the faucet (not included) and the drain assembly to the basin. Ensure all connections are watertight.
8. Apply a bead of silicone sealant around the back edge of the basin where it meets the wall to prevent water ingress.

Figure 1: Top-down view with key dimensions for the Duravit D-Code Handrise Basin. Dimensions include 345mm width, 360mm total width, 270mm depth, and 130mm from the back edge to the center of the tap hole.

Figure 2: Side view with key dimensions for the Duravit D-Code Handrise Basin. Dimensions include 160mm tap platform width, 45mm from back edge to basin rim, 130mm basin depth, 850mm recommended total height from floor, and specific measurements for mounting points (655mm, 605mm) and drain center (120mm).

OPERATING INSTRUCTIONS

The Duravit D-Code Handrise Basin is designed for standard bathroom use. Operate the faucet (not included) as per its manufacturer's instructions to control water flow and temperature. The basin features a tap platform and a left hole tapping for faucet installation.

MAINTENANCE

Proper care will ensure the longevity and appearance of your Duravit basin.

- **Cleaning:** Wipe with a dry cloth after each use to prevent water spots and mineral buildup. For deeper cleaning, use a mild, non-abrasive cleaner and a soft cloth. Rinse thoroughly with water and dry.
- **Avoid:** Do not use abrasive powders, scouring pads, strong acids, or alkaline cleaners, as these can damage the ceramic surface.
- **Drain:** Regularly clean the drain area to prevent blockages.

TROUBLESHOOTING

If you encounter issues, refer to the following common solutions:

- **Leaking around connections:** Check all plumbing connections for tightness. Ensure thread sealant or plumber's tape was used correctly.
- **Slow drainage:** The drain may be partially clogged. Remove the drain stopper and clear any debris. If the issue persists, a plumber may be required.
- **Water spots/stains:** Refer to the cleaning instructions in the Maintenance section. Persistent hard water stains may require specialized ceramic cleaner.

SPECIFICATIONS

Feature	Detail
Brand	Duravit
Model Number	07053600092
Color	Alpine White
Material	Ceramic
Size	Medium
Product Dimensions (D x W x H)	5.13"D x 14.13"W x 5.13"H
Installation Type	Wall-Mount
Shape	Rectangular
Drain Type	Pop-Up
Item Weight	12.12 Pounds
Hole Count	1 (Left Hole Tapping)
Included Components	Basin, Hardware, Fixings
Features	With tap platform

WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the official Duravit website or contact their customer service directly. Keep your purchase receipt as proof of purchase.
