Tomme Tippee Sangenic Compatible Cassette (Pack of 6) Instruction Manual

Brand: Tomme Tippee | Model: 82037101

1. INTRODUCTION

This instruction manual provides essential information for the safe and effective use of your Tomme Tippee Sangenic Compatible Cassette refills. These cassettes are designed to provide a hygienic and odor-controlled solution for disposing of soiled diapers, ensuring a fresh environment for your baby's nursery. Please read this manual thoroughly before use and retain it for future reference.

2. SETUP AND INSTALLATION

Follow these steps to install a new refill cassette into your compatible diaper disposal system.

1. **Open the Diaper Pail:** Lift the lid of your Tommee Tippee Sangenic or compatible diaper disposal unit.
2. **Remove the Old Cassette (if applicable):** If there is an empty cassette, remove it from the unit.
3. **Prepare the New Cassette:** Locate the 'Start Here' tab on the new refill cassette. Gently pull the plastic film from the cassette.
4. **Tie a Knot:** Tie a knot at the end of the plastic film to create the bottom of the bag. Ensure the knot is secure to prevent leaks.
5. **Insert the Cassette:** Place the prepared cassette into the top section of the diaper pail. Ensure it sits securely.
6. **Close the Lid:** Close the lid of the diaper pail until it clicks into place.

3. OPERATING INSTRUCTIONS

Using the Tommee Tippee Sanguenic Compatible Cassette is straightforward:

1. **Prepare the Diaper:** After changing your baby's diaper, fold it into a compact shape.
2. **Open the Pail:** Open the lid of your diaper disposal unit.
3. **Insert Diaper:** Push the soiled diaper through the opening in the cassette. The system will twist the film around the diaper, individually sealing it to lock away odors and germs.
4. **Close the Lid:** Close the lid firmly after each use to maintain hygiene and odor control.

4. MAINTENANCE

Regular maintenance ensures optimal performance and hygiene of your diaper disposal system.

1. **Changing the Bag:** When the diaper pail is full, or when the black line on the refill film becomes visible

(indicating it's almost empty), open the lid and use the integrated cutter (if available on your pail model) to cut the film.

2. **Tie and Dispose:** Tie a knot at the top of the used bag to seal the contents, then remove it from the pail and dispose of it in your household waste.
3. **Cleaning the Pail:** Periodically clean the interior and exterior of your diaper pail with a mild disinfectant and a damp cloth. Ensure all parts are dry before reassembling.

5. TROUBLESHOOTING

- **Odor Leakage:** Ensure the lid is fully closed after each use. Check that the plastic film is properly sealed around each diaper and that the knot at the bottom of the bag is secure. Replace the cassette if the film is damaged.
- **Film Not Twisting:** Verify that the cassette is correctly seated in the diaper pail. If the mechanism is jammed, gently clear any obstructions.
- **Difficulty Pulling Film:** Ensure the film is not tangled inside the cassette. If the film is stuck, remove the cassette and carefully untangle it.

6. SPECIFICATIONS
