

Weber 60392

Weber Replacement Thermometer 60392 User Manual

Model: 60392 | Brand: Weber

PRODUCT OVERVIEW

The Weber Replacement Thermometer 60392 is designed as a direct replacement for the integrated lid thermometer on various Weber Spirit gas grill models. This center-mount thermometer provides accurate temperature readings within your grill, essential for consistent cooking results.

It is compatible with numerous Weber Spirit E-210, E-310, E-320, EP-210, EP-310, and SP-310 Gas Grills, and replaces original Weber Part Numbers 60540, 91384, and 60392.

KEY FEATURES

- **Direct Replacement:** Specifically designed for a seamless fit on compatible Weber Spirit gas grills.
- **Accurate Temperature Monitoring:** Provides reliable temperature readings for optimal grilling.
- **Durable Construction:** Made with stainless steel for outdoor use and longevity.
- **Wide Compatibility:** Fits many Weber Spirit E-210, E-310, E-320, EP-210, EP-310, SP-310 Gas Grills.

INSTALLATION INSTRUCTIONS

This thermometer is designed for straightforward replacement. For existing installations, simply remove the old thermometer and insert the new one. For new installations or custom applications, a hole may need to be drilled in the grill lid.

1. **Preparation:** Ensure the grill is cool and disconnected from its fuel source.
2. **Removal (if replacing):** Locate the existing thermometer on the grill lid. Unscrew the retaining nut from the underside of the lid and carefully remove the old thermometer.
3. **Installation:** Insert the stem of the new Weber Replacement Thermometer 60392 through the hole in the grill lid from the outside.
4. **Secure:** From the underside of the lid, thread the retaining nut onto the thermometer stem and tighten it securely by hand. Avoid over-tightening to prevent damage.
5. **Verification:** Ensure the thermometer is firmly in place and the dial is facing the desired direction.

Image: The Weber Replacement Thermometer 60392, displaying its circular dial with temperature markings in Fahrenheit and Celsius, and the threaded stem with a retaining nut for secure mounting.

OPERATING INSTRUCTIONS

The Weber Replacement Thermometer 60392 is a passive device that measures the ambient temperature inside your grill. No specific operation is required beyond installation.

- **Temperature Reading:** The needle on the dial will indicate the internal temperature of your grill. Allow sufficient time for the temperature to stabilize after closing the lid or adjusting heat.
 - **Optimal Range:** Refer to your grill's specific cooking guidelines for recommended temperature ranges for various foods. The thermometer displays temperatures up to 500 degrees Fahrenheit (approximately 260 degrees Celsius).
-

CARE AND MAINTENANCE

Proper care ensures the longevity and accuracy of your thermometer.

- **Cleaning:** Wipe the exterior of the thermometer with a damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the dial or housing.
 - **Storage:** When not in use for extended periods, ensure the grill is covered to protect the thermometer from extreme weather conditions.
 - **Inspection:** Periodically check the thermometer for any signs of damage or loose connections.
-

TROUBLESHOOTING

If you encounter issues with your thermometer, consider the following:

- **Inaccurate Readings:**
 - Ensure the thermometer is securely mounted and the stem is fully inserted into the grill's interior.
 - Verify that the grill lid is fully closed during temperature readings.
 - Allow sufficient time for the grill's internal temperature to stabilize before taking a reading.
 - **Fogging/Condensation:** This can occur due to temperature fluctuations. It typically dissipates as the grill heats up. Ensure the thermometer is properly sealed.
 - **Physical Damage:** If the dial is cracked, the needle is bent, or the housing is compromised, the thermometer may need replacement.
-

PRODUCT SPECIFICATIONS

Brand	Weber
Model Number	60392
Outer Material	Stainless Steel
Upper Temperature Rating	500°F (260°C)
Response Time	1000 Milliseconds
Indoor/Outdoor Usage	Outdoor
Product Dimensions	4.4 x 4.3 x 4.2 inches
Item Weight	2.4 ounces
UPC	077924603921

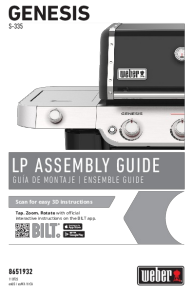

WARRANTY AND SUPPORT

For information regarding product warranty, returns, or technical support, please refer to the official Weber website or contact Weber customer service directly. Keep your purchase receipt as proof of purchase.
