## OPERATING AND CONVERSIONS

### Adjusting Mattress Height:

The crib features three adjustable mattress height positions. Adjust the mattress support to the appropriate height based on your child's developmental stage:

- **Highest Position:** For newborns and infants who cannot push up on their hands and knees.
- **Middle Position:** For babies who can push up on their hands and knees or sit unassisted.
- **Lowest Position:** For toddlers who can stand. Always ensure the mattress is at the lowest setting before your child can stand to prevent climbing out.

## MAINTENANCE

---

To ensure the longevity and safety of your Dream On Me Aden Mini Crib, follow these maintenance guidelines:

- **Cleaning:** Use a dry cloth to wipe down the crib. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Regular Checks:** Periodically check all screws, bolts, and fasteners to ensure they are tight and secure. Do not overtighten.
- **Storage:** If storing the crib, disassemble it carefully and store all components in a dry, temperate environment to prevent warping or damage.

## TROUBLESHOOTING

---

If you encounter any issues with your Dream On Me Aden Mini Crib, please refer to the following common troubleshooting tips:

- **Loose Parts:** If any parts feel loose, re-tighten all screws and bolts. Do not use the crib if any parts are missing or broken.
- **Squeaking:** Check all connections and ensure they are properly aligned and tightened. A small amount of lubricant on metal-to-metal connections may help.
- **Mattress Fit:** Ensure you are using a mini crib mattress that fits snugly without gaps larger than 1/2 inch (1.27 cm) between the mattress and the crib sides. The included mattress pad is 1-inch thick; for additional comfort, a compatible Dream On Me Greenguard Gold Certified mini crib mattress can be purchased.
- **Assembly Difficulties:** Double-check the assembly manual for correct orientation of parts. If issues persist, contact customer support.
