FEATURES AND CONVERSION MODES

The Dream On Me Aden Mini Crib is a versatile 4-in-1 convertible design, adapting to your child's growth

1. Mini Crib Mode

This is the primary mode for infants. The compact design is suitable for smaller spaces such as apartments, condos, or shared rooms.

Adjustable Mattress Heights

The crib features three adjustable mattress height positions to accommodate your child's developmental stages. The highest position is suitable for newborns, allowing easier access for parents. As your child grows and becomes more mobile (e.g., rolling over, pulling to stand), the mattress support should be lowered to prevent falls.
