Progress Lighting P3931-09 Inspire Pendant Light User Manual

Model: P3931-09

INTRODUCTION

This manual provides detailed instructions for the safe installation, operation, and maintenance of your Progress Lighting P3931-09 Inspire Pendant Light. Please read all instructions carefully before beginning installation and retain this manual for future reference.

The Inspire Collection pendant light features a brushed nickel finish and an off-white linen shade, designed for indoor residential use.

SAFETY INFORMATION

- **WARNING:** This product may expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.
- Always disconnect power at the main circuit breaker before installation or servicing.
- Consult a qualified electrician if you are unsure about the installation process.
- Ensure all electrical connections comply with local codes and ordinances.
- Do not exceed the maximum wattage specified for the light bulbs.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Pendant Light Fixture (Model P3931-09)
- Installation Sheet
- Mounting Hardware (screws, wire nuts, etc.)
- Off-white Linen Shade
- Diffuser

SETUP AND INSTALLATION

Assembly of the P3931-09 Inspire Pendant Light is required. Refer to the included Installation Sheet for detailed, step-by-step instructions specific to your fixture. The following general steps are provided for informational purposes:

1. **Prepare for Installation:** Turn off power at the circuit breaker. Clear the work area.
2. **Mounting Bracket Installation:** Secure the mounting bracket to the junction box in the ceiling.
3. **Wiring:** Connect the fixture's electrical wires to the house wiring according to the provided wiring diagram in the Installation Sheet. Ensure all connections are secure with wire nuts.

4. **Fixture Assembly:** Attach the fixture body to the mounting bracket. Adjust the chain length as desired for the pendant height.
5. **Shade and Diffuser Attachment:** Carefully attach the off-white linen shade and the diffuser to the fixture. Ensure the diffuser is securely seated.
6. **Bulb Installation:** Install three (3) incandescent bulbs with an E26 base, not exceeding 75 watts each.
7. **Restore Power:** Once installation is complete and all components are secure, restore power at the circuit breaker.

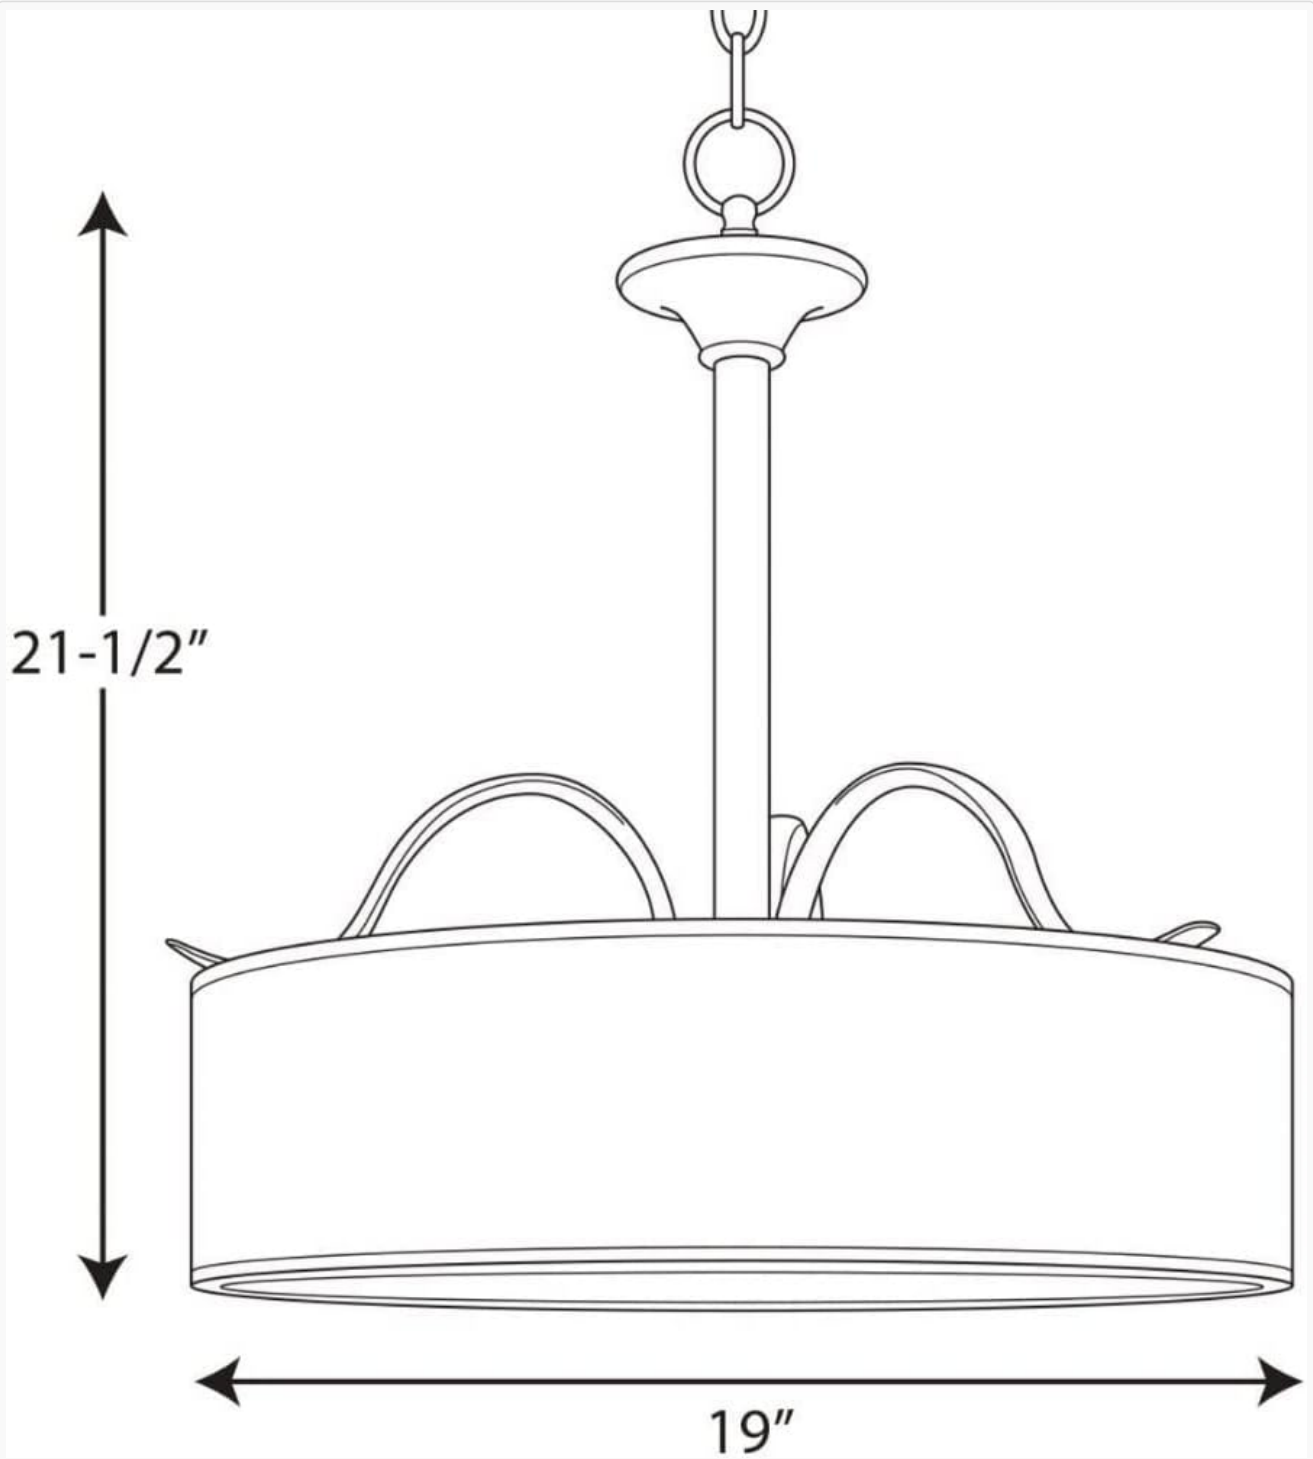

Image: A technical drawing illustrating the dimensions of the pendant light, showing a diameter of 19 inches and a height of 21-1/2 inches.

Note: While the fixture is designed for straightforward installation, some users have noted that detailed attention to the provided instructions is crucial. If you encounter difficulties, professional assistance is recommended.

OPERATING INSTRUCTIONS

The Progress Lighting P3931-09 Inspire Pendant Light operates on a standard 120-volt AC power source. It is designed to accommodate three (3) incandescent bulbs with an E26 base, each up to 75 watts, providing a warm white light with a brightness of approximately 3300 lumens.

- **Power On/Off:** Control the light using a standard wall switch or a compatible remote control system (if installed separately). The fixture supports remote control functionality.
- **Bulb Replacement:** To replace bulbs, ensure power is off at the circuit breaker. Allow bulbs to cool completely before removal. Install new E26 base incandescent bulbs, not exceeding 75 watts per bulb.

MAINTENANCE

Regular maintenance ensures the longevity and appearance of your pendant light.

- **Cleaning the Fixture:** Dust the metal components with a soft, dry cloth. For more thorough cleaning, use a slightly damp cloth with a mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the finish.
- **Cleaning the Shade:** The off-white linen shade can be gently dusted with a soft brush or vacuumed with a brush attachment. For spot cleaning, use a clean, damp cloth with a small amount of mild detergent, dabbing gently. Test on an inconspicuous area first.
- **Diffuser Care:** The diffuser can be wiped clean with a soft, damp cloth.
- **Inspection:** Periodically inspect all electrical connections and mounting hardware to ensure they remain secure.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture, loose wiring, faulty bulb, tripped circuit breaker.	Check circuit breaker. Ensure all wiring connections are secure. Replace bulb.
Shade appears yellow when lit.	Bulb color temperature, shade material interaction.	Consider using bulbs with a cooler color temperature (e.g., 2700K-3000K for warm white, or higher for neutral white) if a less yellow appearance is desired.
Diffuser becomes dislodged.	Improper seating, vibration.	Ensure the diffuser is correctly seated on its tabs. If necessary, apply a small amount of adhesive (e.g., hot glue or double-sided tape) to the tabs to secure it, ensuring it can still be removed for bulb changes.
Fixture is unstable or wobbles.	Loose mounting hardware.	Ensure the mounting bracket and fixture body are securely fastened to the junction box and each other.

SPECIFICATIONS

Feature	Detail
Brand	Progress Lighting
Model Number	P3931-09
Model Name	Inspire
Color	Nickel (Brushed)
Shade Color	Off-white
