## BLANCO 518296

# BLANCO Yovis-S Kitchen Faucet 518296 User Manual

Model: 518296 | Brand: BLANCO

## 1. PRODUCT OVERVIEW

---

The BLANCO Yovis-S kitchen faucet, model 518296, is a modern, high-pressure single-lever mixer with an elegant, organic design. It features a high, 360° swivel spout and a high-quality metal pull-out spray, offering enhanced comfort and functionality for your kitchen. This faucet is designed for perfect combination with BLANCO Silgranit PuraDur sinks, featuring a two-tone Jasmin/Chrome finish.

**Figure 1.1:** BLANCO Yovis-S kitchen faucet with Jasmin/Chrome finish. This image illustrates the faucet's organic design and two-tone appearance, complementing a kitchen sink.

**Figure 1.2:** BLANCO Yovis-S kitchen faucet with its pull-out spray extended. This demonstrates the flexibility and extended reach provided by the integrated spray hose.

## 2. SAFETY INFORMATION

---

Please read all instructions carefully before installation and use. Keep this manual for future reference.

- Ensure all water supply lines are turned off before beginning installation.
- If you are unsure about any part of the installation process, consult a qualified plumber.
- Do not use abrasive cleaners or harsh chemicals on the faucet's finish, as this may cause damage.
- Check for leaks after installation and periodically thereafter.
- Ensure proper water pressure is maintained as per product specifications.

## 3. PACKAGE CONTENTS

---

Verify that all components are present before starting installation:

- 1 x BLANCO Yovis-S Kitchen Faucet
- 1 x Pull-out spray hose
- 1 x Stabilizing plate
- 2 x Flexible connection hoses (450 mm length)
- Gaskets with integrated dirt filter
- Mounting hardware

## 4. SETUP (INSTALLATION)

---

The BLANCO Yovis-S faucet is designed for single-hole, deck-mounted installation. Follow these general steps for installation. Refer to the technical drawing for specific dimensions and connections.

1. **Prepare the Mounting Hole:** Ensure the sink or countertop has a single mounting hole of the appropriate diameter (refer to specifications).
2. **Install the Faucet Body:** Insert the faucet body into the mounting hole. Secure it from underneath with the stabilizing plate and mounting hardware provided.
3. **Connect Water Supply Lines:** Attach the two flexible connection hoses (450 mm) to the faucet's inlets.

Connect the other ends to your hot and cold water supply lines, ensuring the integrated dirt filters are correctly positioned.

4. **Connect Pull-out Spray Hose:** Connect the pull-out spray hose to the designated outlet on the faucet body. Ensure a secure connection to prevent leaks.
5. **Test for Leaks:** Slowly turn on the main water supply and check all connections for leaks. Tighten any connections as necessary.

**Figure 4.1:** Technical drawing illustrating the dimensions and connection points for the BLANCO Yovis-S faucet. This diagram provides critical measurements for installation planning.

## 5. OPERATING INSTRUCTIONS

---

The BLANCO Yovis-S faucet is designed for intuitive and comfortable use.

- **Water Flow and Temperature:** The single-lever handle allows for easy regulation of both water quantity and temperature. Move the lever up to increase flow and down to decrease. Move it left for hot water and right for cold water.
- **Swivel Spout:** The high spout can swivel 360°, providing ample clearance for filling tall containers and making it convenient for use with double sinks.
- **Pull-out Spray:** To use the pull-out spray, simply grasp the spray head and pull it out from the spout. The flexible hose allows for extended reach for rinsing dishes or cleaning the sink area. Push the spray head back into the spout until it clicks securely into place.

## 6. MAINTENANCE

---

Regular maintenance will help preserve the appearance and functionality of your BLANCO Yovis-S faucet.

- **Cleaning the Faucet:** Clean the faucet regularly with a soft cloth and mild soap or a non-abrasive liquid cleaner specifically designed for chrome and composite surfaces. Rinse thoroughly with clean water and dry with a soft cloth to prevent water spots.
- **Limescale Reduction:** The patented jet regulator is designed to significantly reduce limescale buildup. Periodically remove and clean the aerator (jet regulator) to maintain optimal water flow.
- **Hose Inspection:** Periodically inspect the flexible connection hoses and the pull-out spray hose for any signs of wear, kinks, or damage.

## 7. TROUBLESHOOTING

---

If you encounter issues with your faucet, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Low water flow	Clogged aerator; partially closed shut-off valve; debris in water lines.	Clean or replace aerator; ensure shut-off valves are fully open; flush water lines.
Leaking at connections	Loose connections; worn gaskets.	Tighten connections; replace gaskets if damaged.
Water temperature issues	Incorrect water heater settings; issues with supply lines.	Check water heater settings; ensure hot and cold supply lines are correctly connected and fully open.
Pull-out spray not retracting	Hose obstruction; weight not properly attached or tangled.	Check for obstructions under the sink; ensure the counterweight is free to move and properly attached to the hose.

If these steps do not resolve the issue, please contact BLANCO customer support.

## 8. SPECIFICATIONS

---

Feature	Detail
Brand	BLANCO
Model Number	518296
Product Type	Single-lever kitchen mixer faucet with pull-out spray
Color	Jasmin/Chrome
Material	Metal
