

## Dyson DC39 Animal

# Dyson DC39 Animal Canister Vacuum Cleaner User Manual

## INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Dyson DC39 Animal Canister Vacuum Cleaner. Please read this manual thoroughly before operating the appliance and retain it for future reference. The Dyson DC39 Animal is engineered with Ball technology for enhanced maneuverability and Radial Root Cyclone technology for consistent suction power, designed to capture dirt and microscopic dust.

## IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic precautions should always be followed, including the following:

- Read all instructions before using this vacuum cleaner.
- Do not use outdoors or on wet surfaces.
- Do not allow to be used as a toy. Close attention is necessary when used by or near children.
- Use only as described in this manual. Use only Dyson recommended attachments.
- Do not use with a damaged cord or plug. If appliance is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to a service center.
- Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run appliance over cord. Keep cord away from heated surfaces.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- Do not handle plug or appliance with wet hands.
- Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce airflow.
- Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use to pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Do not use without dust bin and/or filters in place.
- Turn off all controls before unplugging.

- Use extra care when cleaning on stairs.
- Unplug before connecting or disconnecting hose.

## PACKAGE CONTENTS

---

Your Dyson DC39 Animal package includes the following items:

- 1 x DC39 Animal canister vacuum cleaner
- 1 x Operating manual (this document)
- 1 x Quick start guide
- 1 x Triggerhead tool
- 1 x Mini turbine head
- 1 x Combination tool
- 1 x Stair tool
- 1 x Product registration card
- 1 x 5 year warranty information

## SETUP

---

Before first use, ensure all components are securely connected.

1. **Unpacking:** Carefully remove all components from the packaging.
2. **Hose Connection:** Attach the main hose to the canister unit by pushing it firmly into the inlet until it clicks into place.
3. **Wand Assembly:** Connect the wand to the hose handle. Ensure it is securely locked.
4. **Cleaner Head Attachment:** Attach your desired cleaner head (e.g., Triggerhead tool) to the end of the wand.

Figure 1: The Dyson DC39 Animal Canister Vacuum Cleaner in a compact storage position, showing the wand and cleaner head attached to the main unit. This illustrates how the components fit together for storage or initial assembly.

## OPERATING INSTRUCTIONS

---

### Powering On and Off

Plug the power cord into a suitable electrical outlet. The power button is located on the canister unit. Press it once to turn the vacuum on, and again to turn it off.

### Ball Technology for Maneuverability

The DC39 Animal features Ball technology, allowing the vacuum to pivot and turn easily around furniture and obstacles. The central steering mechanism provides greater control, enabling tighter turning circles.

Figure 2: A close-up view of the Ball technology and the clear dust bin of the Dyson DC39 Animal, highlighting its design for maneuverability and efficient dirt collection.

## Radial Root Cyclone Technology

This vacuum utilizes Radial Root Cyclone technology with reconfigured air channels to maximize suction power. This system efficiently separates dust, dirt, and pet hair from the airflow, ensuring no loss of suction during cleaning.

## Using the Triggerhead Tool

The Triggerhead tool is an air-driven rotating brush bar controlled directly from the handle. This eliminates the need to bend down to adjust settings.

- **For Carpets:** Press the button on the handle to engage the brush bar for deep cleaning carpets.
- **For Hard Floors and Delicate Rugs:** Press the button again to turn off the brush bar, preventing scratches and protecting delicate surfaces.

Figure 3: The Dyson DC39 Animal's cleaner head transitioning from a carpeted surface to a hard floor, demonstrating its versatility and the ease of switching modes.

### Using Additional Tools

- **Mini Turbine Head:** Ideal for removing pet hair and dirt from confined spaces, upholstery, stairs, and car interiors.
- **Combination Tool:** This tool converts into a brush tool for dusting delicate surfaces.
- **Stair Tool:** Designed for effective cleaning of stairs.

Figure 4: A hand gripping the ergonomic handle of the Dyson DC39 Animal's wand, illustrating comfortable use and access to controls for attachments.

## MAINTENANCE

---

### Hygienic Bin Emptying

The transparent bin allows you to see when it needs emptying. To empty, simply press the release button to open the bottom of the bin, allowing dirt and debris to fall directly into a waste receptacle. This design ensures hygienic disposal without contact with the dirt.

Figure 5: A visual representation of the hygienic bin emptying mechanism, showing dust and debris being released from the clear bin into a waste bin.

## Filter Maintenance

The DC39 Animal includes a non-removable HEPA filter, which traps microscopic particles and allergens. This filter is designed to last the lifetime of the machine and does not require replacement. Regular cleaning of the pre-motor filter (if applicable, refer to quick start guide for location) is recommended to maintain optimal performance.

## General Cleaning

Wipe the exterior of the vacuum cleaner with a damp cloth. Do not use any detergents or polishes. Ensure all parts are dry before reassembling and using the vacuum.

## TROUBLESHOOTING

If you encounter issues with your Dyson DC39 Animal, please refer to the following common solutions:

- **No Power:** Check if the power cord is securely plugged into the outlet and the vacuum. Ensure the power outlet is functional.
- **Loss of Suction:** Empty the dust bin if it is full. Check for blockages in the hose, wand, or cleaner

head. Ensure filters are clean and properly seated.

- **Brush Bar Not Rotating:** For the Triggerhead tool, ensure the brush bar is switched on for carpets. Check for obstructions in the brush bar.
- **Unusual Noise:** Turn off and unplug the vacuum. Inspect for any foreign objects caught in the cleaner head or hose.

For further assistance, please contact Dyson customer support.

## SPECIFICATIONS

Brand	Dyson
Model Name	DC39 Animal
Special Feature	Radial Root Cyclone technology
Filter Type	Cartridge (Non-removable HEPA)
Included Components	Brush, HEPA Filter, Hose, Triggerhead tool, Mini turbine tool, Combination tool, Stair tool, Wand
Is Cordless?	No
Capacity	6 Cubic Centimeters
Wattage	240 watts
Recommended Uses	Carpet, Hard Floor
Form Factor	Canister
Color	Iron/Purple
Product Dimensions	14.2"L x 10.2"W x 19.5"H
Noise Level	80 dB
Item Weight	16.9 pounds
