## Noxon 12 oz Liquid

# Noxon Multi-Purpose Metal Polish Liquid (12 oz) - Instruction Manual

Brand: Noxon | Model: 12 oz Liquid

## 1. PRODUCT OVERVIEW

---

Noxon Multi-Purpose Metal Polish Liquid is an easy-to-use, thick formula designed to clean and shine a variety of metal surfaces. It effectively removes tarnish and restores luster, providing a brilliant finish to your metal items.

## 2. SAFETY INFORMATION

**WARNING: Keep out of reach of children. Harmful or fatal if swallowed. Causes eye and skin irritation. Avoid contact with eyes and skin. Do not breathe fumes. Use in well-ventilated area. Wear protective gloves during use.**

- Do not use on: silver, lacquered, painted, or antiqued-finished surfaces.
- In case of eye contact, flush thoroughly with water for several minutes. If irritation persists, seek medical attention.
- In case of skin contact, wash thoroughly with soap and water.
- If swallowed, do not induce vomiting. Immediately call a poison control center or doctor.

## 3. PREPARATION AND MATERIALS

Before you begin polishing, ensure you have the following materials ready:

- Noxon Multi-Purpose Metal Polish Liquid
- Soft, clean cloth(es) for application and buffing
- Protective gloves
- Optional: A soft-bristled brush (e.g., an old toothbrush) for intricate areas

Ensure the area is well-ventilated. Shake the Noxon bottle well before each use to ensure the formula is properly mixed.

## 4. OPERATING INSTRUCTIONS

---

1. **Apply Polish:** Apply a small amount of Noxon Multi-Purpose Metal Polish Liquid onto a clean, soft cloth. For intricate designs or hard-to-reach areas, a soft-bristled brush can be used to apply the polish.
2. **Rub onto Surface:** Gently rub the polish onto the metal surface using circular motions. Continue rubbing until tarnish and oxidation are removed and a dark residue appears on the cloth.
3. **Buff to Shine:** Using a separate clean, dry soft cloth, buff the treated surface to a brilliant shine.
4. **Repeat if Necessary:** For heavily tarnished items, repeat steps 1-3 until the desired shine is achieved.

### Demonstration Video: Polishing Aluminum

Your browser does not support the video tag.

*Video: A demonstration on how to polish aluminum using a metal polish. The video shows the application and buffing process, highlighting the transformation from dull to shiny. This process is applicable to Noxon Multi-Purpose Metal Polish Liquid.*

## 5. MAINTENANCE AND STORAGE

---

To maintain the effectiveness of your Noxon Multi-Purpose Metal Polish Liquid and ensure its longevity:

- Store the bottle in a cool, dry place away from direct sunlight and extreme temperatures.
- Ensure the cap is tightly closed after each use to prevent the product from drying out.

## 6. TROUBLESHOOTING

---

If you do not achieve the desired shine or tarnish removal after the first application, it may indicate heavy oxidation. Simply repeat the operating instructions (Section 4) with fresh polish and a clean cloth. For stubborn spots, allow the polish to sit on the surface for a few moments before rubbing.

## 7. SPECIFICATIONS

---

Feature	Detail
Brand	Noxon
Product Name	Multi-Purpose Metal Polish Liquid

Volume	12 oz
Item Weight	14.72 ounces
Item Dimensions (L x W x H)	1.7 x 3.7 x 7 inches
Grit Material	Wax
Grit Type	Fine
UPC	062338001173
Manufacturer	Noxon
Date First Available	January 3, 2011

## 8. WARRANTY AND SUPPORT

---

For specific warranty information or product support, please refer to the manufacturer's official website or contact their customer service directly. Contact details are typically found on the product packaging or the brand's website.
