## AOR AOR Ortho Eyes 2x5ml

# AOR Ortho Eyes Instruction Manual

NAC N-Acetyl-Carnosine Eye Drops

### PRODUCT OVERVIEW

AOR Ortho Eyes are eye drops formulated with NAC N-Acetyl-Carnosine, designed to support clear vision, reduce light sensitivity, and provide hydration for dry eyes. This product aims to assist in maintaining overall eye health and comfort.

### Key Benefits:

- Supports clear vision and may help reduce cloudiness.
- Aids in reducing glare and light sensitivity, particularly in low-light conditions.
- Provides hydration and relief for dry, tired eyes.
- Offers proactive support for maintaining long-term eye health.
- Easy to use and integrate into daily routines.

# Ortho Eyes®

## Improves visual acuity against age related effects such as cataracts

- Eye drops backed by clinical research
- Helps improve flexibility of the eye lens to slow macular degeneration and other age-related conditions
- Alleviates eye tiredness
- Improves visual clarity, optimizes vision and improves night driving
- Speeds recovery from and reduces glare associated with laser eye surgery
- Reduces build-up of damaging proteins in the eyes

## SAFETY INFORMATION

To avoid contamination, do not touch tip of the container to your eyes or any other surface. Replace the cap immediately after using. Open only one container of solution at a time. Do not allow other people to use your container. Once open, discard container and any contents after 30 days. Do not heat beyond room temperature; keep the extra container in the box away from light, especially sunlight. Do not use if seal is broken or if solution changes colour or becomes cloudy. Not recommended for children under the age of 12. Application may cause temporary irritation of the eye. If the eye tissue becomes more inflamed, red, irritated or uncomfortable after using this product, or if the condition worsens or persists for more than 72 hours, discontinue use and consult a physician. Keep this and all drugs out of the reach of children. Use before expiration date marked on container.

## INGREDIENTS

**Medicinal Ingredients:** Serving Size: 2 drops per eye. N-Acetyl-carnosine (NAC) 1.0%.

**Non-medical Ingredients:** Sterile water (ophthalmic grade isotonic solution pH 6.3 to 6.4), glycerin (lubricant), citric acid, boric acid, hypromellose, potassium bicarbonate, benzyl alcohol (preservative).

# AOR<sup>TM</sup>

### DIRECTIONS FOR USE (OPERATING)

Instill 2 drops in each eye twice per day, or as directed by a qualified health care practitioner.

#### Application Steps:

1. Wash your hands thoroughly with soap and water before handling the eye drops.
2. Carefully remove the cap from the vial.
3. Tilt your head back slightly and pull down your lower eyelid to create a small pocket.
4. Hold the vial directly over your eye, ensuring the tip does not touch your eye or any other surface.
5. Gently squeeze the vial to release 2 drops into the pocket of your lower eyelid.
6. Close your eye gently for a few seconds to allow the drops to spread.
7. Repeat the process for the other eye.
8. Replace the cap immediately after use.

**Active Ingredients / Ingrédients actifs**

N-acetyl-carnosine (NAC)

1.0%

N-acétyl-carnosine (NA)

1.0%

**Inactive Ingredients / Ingrédients inactifs**

Sterile water (ophthalmic grade isotonic solution pH 6.3 to 6.4), glycerin (lubricant), citric acid, boric acid, hypromellose, potassium bicarbonate, benzyl alcohol (preservative).

Eau stérile (solution isotonique de qualité ophtalmique, pH 6.3 à 6.4), glycérine (lubrifiant), acide citrique, acide borique, hypromellose, bicarbonate de potassium, alcool benzylique (agent de conservation).

**Directions**

2 drops in each eye twice per day or as directed by a qualified health care practitioner. Not recommended for children under the age of 12. Application may cause temporary irritation of the eye. If the eye tissue becomes more inflamed, red, irritated or uncomfortable after using this product, or if the condition worsens or persists for more than 72 hours, discontinue the use of product and consult a physician. **Keep this and all drugs out of the reach of children.**

Appliquer 2 gouttes dans chaque œil deux fois par jour, ou selon les recommandations d'un professionnel de la santé. Ce produit n'est pas recommandé pour les enfants de moins de 12 ans. Peut causer une irritation temporaire de l'œil. Si l'inflammation, la rougeur, l'irritation ou l'inconfort du tissu oculaire s'intensifient après l'utilisation de ce produit, ou si l'état s'aggrave ou persiste au-delà de 72 heures, cessez l'utilisation et consultez un médecin. **Gardez ce produit et tout autre médicament hors de la portée des enfants.**

Please read enclosed product insert for important safety information and instructions on opening containers. Avant d'utiliser, veuillez lire attentivement les avertissements et consignes de sécurité à l'intérieur.

## SETUP AND STORAGE (MAINTENANCE)

### Initial Setup:

Upon receiving your AOR Ortho Eyes, ensure the packaging seal is intact. The product comes in two sterile vials. Only open one vial at a time for use.

### Storage Guidelines:

- Store unopened vials in the original box to protect them from light, especially direct sunlight.
- Do not heat the product beyond room temperature.
- Once a vial is opened, discard any remaining contents after 30 days to prevent contamination and ensure efficacy.
- Keep the product out of reach of children.
- Always check the expiration date marked on the container before use.

## TROUBLESHOOTING

Issue	Possible Cause / Solution
Temporary eye irritation after application.	This can be a normal, temporary side effect. If irritation persists or worsens, discontinue use and consult a physician.

Issue	Possible Cause / Solution
Eye tissue becomes inflamed, red, or uncomfortable.	If these symptoms occur or persist for more than 72 hours, discontinue use immediately and consult a physician.
Solution changes color or becomes cloudy.	Do not use the product. This indicates contamination or degradation. Discard the vial.
Product not lasting 25 days (for 2x5ml supply).	Ensure you are instilling only 2 drops per eye, twice daily. Over-application will deplete the supply faster. Also, ensure proper storage to prevent premature degradation.
Difficulty opening the vial or dispensing drops.	Ensure hands are clean and dry. Apply firm, steady pressure to open. If drops come out too quickly, try a gentler squeeze or consult the manufacturer for advice on dispensing.
