## Jamara 404316

# Jamara Lamborghini Aventador LP 700 RC Car 1:14 Scale Instruction Manual

Model: 404316

## 1. Introduction

Thank you for purchasing the Jamara Lamborghini Aventador LP 700 remote control car. This 1:14 scale model offers a detailed replica with full function control. Please read this manual carefully before operating the vehicle to ensure safe and optimal performance. Keep this manual for future reference.

## 2. Package Contents

Ensure all items listed below are present in the package:

- 1 x Jamara Lamborghini Aventador LP 700 RC Car (Model 404316)
- 1 x Remote Control Transmitter
- 1 x Instruction Manual (this document)

Image 2.1: The product packaging box, showing the RC car and remote control inside.

## 3. Safety Information

- **Age Recommendation:** This product is suitable for ages 6 years and older.
- **Battery Safety:**
  - Do not mix old and new batteries.
  - Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
  - Insert batteries with correct polarity (+ and -).
  - Remove exhausted batteries promptly.
  - Remove batteries if the product is not used for an extended period.
  - Non-rechargeable batteries are not to be recharged.
  - Rechargeable batteries are only to be charged under adult supervision.
  - Do not short-circuit the supply terminals.
- **Operating Environment:**
  - Operate the RC car in open areas, away from people, pets, and obstacles.
  - Avoid operating near water, sand, or excessive dirt to prevent damage.
  - Do not operate in public streets or near traffic.
- **General Precautions:**
  - Do not touch the moving wheels or parts during operation.
  - Adult supervision is recommended for younger users.
  - Do not modify the product.

# 4. Setup

## 4.1 Battery Installation (RC Car)

1. Locate the battery compartment on the underside of the RC car.
2. Use a screwdriver to open the battery compartment cover.
3. Insert 5 x AA 1.5V batteries (not included) into the compartment, ensuring correct polarity (+/-).
4. Replace the battery compartment cover and secure it with the screw.

## 4.2 Battery Installation (Remote Control)

1. Locate the battery compartment on the back of the remote control.
2. Use a screwdriver to open the battery compartment cover.
3. Insert 2 x AA 1.5V batteries (not included) into the compartment, ensuring correct polarity (+/-).
4. Replace the battery compartment cover and secure it with the screw.

## 4.3 Pairing the Remote Control

The RC car and remote control are typically pre-paired. If they do not connect automatically:

1. Ensure both the car and remote control have fresh batteries installed.
2. Turn on the RC car using the ON/OFF switch (usually on the underside).
3. Turn on the remote control (if it has an ON/OFF switch).
4. The indicator light on the remote control should illuminate, and the car should respond to commands, indicating a successful connection.

## 5. Operating Instructions

Familiarize yourself with the remote control functions before operating the vehicle.

### 5.1 Remote Control Functions

- **Forward Button:** Press to move the car forward. The front headlights will illuminate.
- **Backward Button:** Press to move the car backward. The rear taillights will illuminate.
- **Left Turn Button:** Press to turn the car left while moving forward or backward.
- **Right Turn Button:** Press to turn the car right while moving forward or backward.
- **Stop:** Release all buttons to stop the car.

Image 5.1: Front view of the RC car with its headlights illuminated, indicating forward movement.

### 5.2 Driving Tips

- Start by practicing in an open, flat area to get accustomed to the controls.
- Avoid sudden stops or turns at high speeds to prevent loss of control or damage.
- The car operates on a 40 MHz frequency (for white model 404316). Avoid operating multiple RC vehicles on the same frequency simultaneously to prevent interference.

## 6. Maintenance

- **Cleaning:** Wipe the car and remote control with a soft, dry cloth. Do not use water or chemical cleaners.
- **Storage:** Store the RC car and remote control in a cool, dry place away from direct sunlight when not in use.
- **Battery Removal:** Always remove batteries from both the car and remote control if storing for extended periods to prevent leakage and damage.
- **Inspection:** Periodically check for loose screws or damaged parts. Do not operate if damaged.

## 7. Troubleshooting

| Problem | Possible Cause | Solution |
| --- | --- | --- |

| Problem | Possible Cause | Solution |
|---|---|---|
| Car does not move or respond. | Batteries are low or incorrectly installed.<br>Car or remote is not switched ON.<br>Out of range.<br>Interference. | Replace batteries in both car and remote, ensuring correct polarity.<br>Ensure both devices are switched ON.<br>Move closer to the car.<br>Move to a different location away from other electronic devices. |
| Car moves slowly. | Low batteries.<br>Operating on an uneven surface. | Replace batteries.<br>Operate on a smooth, flat surface. |
| Car does not drive straight. | Steering alignment needs adjustment. | Check for a steering trim adjustment knob or lever on the underside of the car or on the remote control and adjust as needed. |
