## Next Level 6010

# Next Level 6010 Men's Tri-Blend Crew Tee Instruction Manual

Model: 6010 | Brand: Next Level

## INTRODUCTION

This manual provides essential information for the proper care and use of your Next Level 6010 Men's Tri-Blend Crew Tee. Please read these instructions carefully to ensure the longevity and optimal condition of your garment.

The Next Level 6010 Tri-Blend Crew Tee is crafted from a unique blend of Ringspun cotton, Jersey polyester, and rayon, offering a soft feel and comfortable fit. This garment is designed for everyday wear and maintains its quality with appropriate care.

## FIRST USE AND SETUP

Before wearing your new Next Level 6010 Tri-Blend Crew Tee for the first time, it is recommended to wash it according to the care instructions provided in the Maintenance section. This helps to remove any manufacturing residues and ensures the fabric is fresh and ready for wear.

No complex setup is required for this garment. Simply unpack, wash, and it's ready to be worn.

## OPERATING INSTRUCTIONS

The Next Level 6010 Tri-Blend Crew Tee is designed for comfortable wear in various casual settings. Its regular fit and round neck style provide a classic and versatile look.

To wear, simply put on the tee as you would any standard crew neck t-shirt. Ensure it fits comfortably according to your chosen size. Refer to the size guide if you have questions about fit.

## MAINTENANCE AND CARE

Proper care is crucial for preserving the quality and appearance of your Tri-Blend Crew Tee. Follow these instructions carefully:

- **Washing:** Machine wash cold with like colors. Use a gentle cycle.
- **Detergent:** Use a mild detergent. Avoid harsh chemicals or bleach, as these can damage the fabric and color.
- **Drying:** Tumble dry low or hang dry for best results. High heat can cause shrinking or damage to the fabric blend.

- **Ironing:** If necessary, iron on a low setting. Do not iron directly on any printed designs.
- **Storage:** Store in a cool, dry place.

Adhering to these care instructions will help maintain the softness, shape, and color of your tee over time.

## TROUBLESHOOTING

Most common issues with apparel can be resolved by following the recommended care instructions.

- **Shrinking:** If the garment appears to have shrunk, it may be due to washing or drying at high temperatures. Always use cold water and tumble dry low or air dry.
- **Fading:** Color fading can occur over time, especially with frequent washing or exposure to harsh detergents. Wash with like colors and avoid bleach.
- **Pilling:** Minor pilling can occur with wear and washing. This is a natural characteristic of some fabric blends and can often be removed with a fabric shaver.

If you experience persistent issues not covered here, please refer to the brand's official support channels.
