PRODUCT FEATURES

Ronson Butane Fuel can highlighting Clean Burn, Anti-Clogging, and Universal Tip features.

Ronson Butane Fuel can with Key Benefits: Reliable flame, Protects lighter valves, Cleaner burn, Universal compatibility.

Ronson Butane Fuel can emphasizing Cleaner Fuel, Zero Clogging, Maximum Performance.

- **CLEAN BURN EVERY TIME:** Ronson Butane Fuel provides a high-quality, odorless flame that burns clean and consistent. It reduces soot and smoke, making it ideal for lighting candles, kitchen torches, or daily-use lighters without leaving residue.
- **UNIVERSAL REFILL TIP:** Equipped with a universal tip, this butane refill fits most refillable lighters and torches without the need for adapters. It's a convenient solution for keeping all your flame tools fueled and ready to go.
- **ANTI-CLOG FORMULA:** Specially refined to minimize impurities, this butane helps protect lighter valves from clogging or damage. Enjoy smoother ignitions, stronger flame performance, and longer-lasting lighters with less maintenance.
- **MULTI-PURPOSE FUEL:** Whether you're lighting a pocket lighter, utility torch, kitchen flame tool, or camping gear, this versatile refill has you covered. One 135ml can contains enough butane to refill multiple disposable lighters.
- **MADE IN THE USA:** Proudly bottled in Bradford, PA using the highest-quality materials, Ronson Butane Fuel is manufactured under strict quality standards for safety, reliable performance, and cleaner-burning results you can trust.

SETUP & REFILLING INSTRUCTIONS

Follow these steps for effortless and safe refilling of your butane lighters or torches:

EFFORTLESS LIGHTER REFILLING

135ml

BLEED

Press the lighter valve to release remaining gas

FILL

Push down for 2–3 seconds and let go, then repeat.

LIGHT

Wait 2 minutes before use.

Visual guide for the refilling process.

1. **Bleed:** Before refilling, ensure your lighter/torch is completely empty of old gas. Hold the lighter/torch upside down and use a small tool (like a pen tip or a small screwdriver) to press the lighter valve, releasing any remaining gas. This helps prevent air pockets and ensures a full refill.
2. **Fill:** Shake the Ronson Butane Fuel can well. Invert the butane can and firmly insert its universal nozzle into the refill valve of your lighter/torch. Press down for 2-3 seconds. Repeat this process 2-3 times until the lighter/torch is full. Do not overfill.
3. **Wait:** After refilling, wait at least 2 minutes before attempting to use your lighter/torch. This allows the fuel to stabilize and reach room temperature, ensuring optimal performance.

Ronson Butane Fuel is compatible with various lighters and torches.

OPERATING INSTRUCTIONS

Once your device is refilled and has rested for 2 minutes:

- Ensure the flame adjustment is set to your desired level (if your device has this feature).
- Activate your lighter or torch according to its specific operating instructions.
- For culinary torches, use a steady, even flame for tasks like caramelizing sugar or browning toppings.

PURE BURN FLAME

NO-CLOG VALVE

ZERO RESIDUE DROP

BUILT FOR EVERYDAY LIGHTERS & TORCHES

Ronson Butane Fuel provides a perfect flame for various applications, including culinary use.

MAINTENANCE

- The Ronson Butane Fuel's anti-clog formula helps maintain your lighter's valves. Regular use of high-quality fuel minimizes the need for extensive maintenance.
- Store the butane fuel can in a cool, dry place, away from direct sunlight and heat sources, to maintain its integrity and safety.
- Keep the nozzle clean and free from debris to ensure a proper seal during refilling.

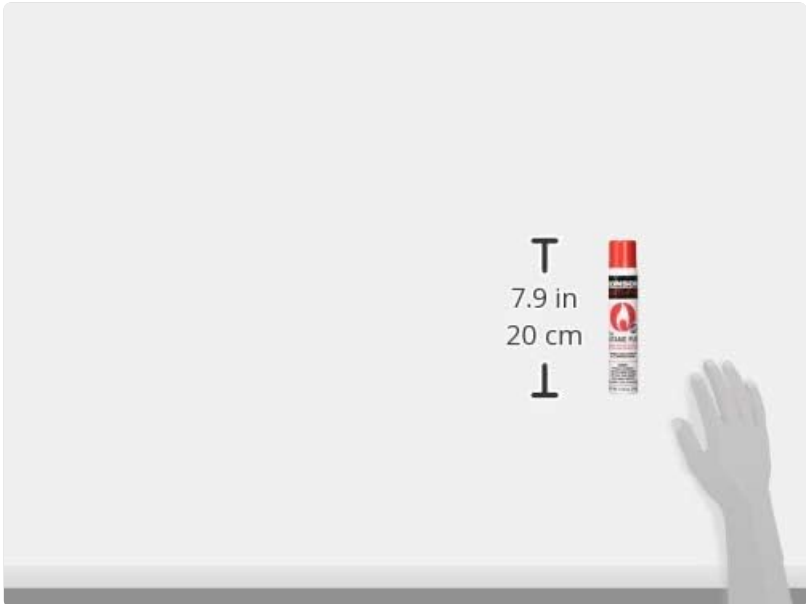

TROUBLESHOOTING

- **Lighter/Torch not lighting:** Ensure the device has sufficient fuel. If recently refilled, wait the recommended 2 minutes for the fuel to stabilize.
- **Weak or inconsistent flame:** This could indicate low fuel, air trapped in the fuel tank, or a clogged valve. Try

bleeding the lighter completely and refilling it.

- **Fuel leakage during refill:** Ensure the butane can's nozzle is firmly and straightly inserted into the lighter's refill valve. Some leakage is normal, but excessive leakage may indicate an improper connection or a damaged valve on your lighter.

SPECIFICATIONS

Physical dimensions of the Ronson Butane Fuel can.

Attribute	Value
Brand	Ronson
Model Number	387576
Item Weight	5.4 Ounces
Product Dimensions	5"L x 5"W x 5"Th
Fuel Type	Liquefied Petroleum Gas
UPC	037900991442
Manufacturer	Ronson
Date First Available	March 26, 2012
