## SE CM433

# SE Double-Sided Outdoor Mirror - CM433 User Manual

Model: CM433 | Brand: SE

## INTRODUCTION

The SE Double-Sided Outdoor Mirror is designed for versatility and durability in various outdoor and emergency situations. It serves as a practical tool for signaling, personal grooming, and general utility during activities such as camping, hiking, boating, fishing, and hunting. Constructed from stainless steel, this mirror is built to withstand rugged conditions while maintaining its functionality.

## FEATURES

- **Double-Sided Mirror:** Provides reflective surfaces on both sides for enhanced convenience and utility.
- **Compact Dimensions:** Measures approximately 3 inches by 4 inches, making it easy to carry and store.
- **Thin Profile:** With a thickness of 0.3 mm, it is lightweight and minimizes bulk.
- **Durable Material:** Constructed from stainless steel for long-lasting use and resistance to corrosion.
- **Lanyard Hole:** Includes a pre-drilled hole for attaching a lanyard, allowing for secure carrying or hanging.

## SETUP

The SE Double-Sided Outdoor Mirror requires minimal setup. Upon unboxing, inspect the mirror for any manufacturing defects or damage. The mirror is ready for immediate use. For secure carrying, a lanyard (not included) can be threaded through the pre-drilled hole. Ensure the lanyard is securely fastened to prevent loss.

## OPERATING INSTRUCTIONS

### Signaling

To use the mirror for signaling, hold it in one hand and extend your other arm with your thumb and forefinger forming a "V" shape. Aim the "V" at your target (e.g., a rescue aircraft or distant person). Reflect sunlight onto your thumb, then slowly tilt the mirror to flash the light through the "V" towards your target. Repeat flashes in groups of three (three short, three long, three short) for an SOS signal.

### Personal Use

The mirror can be used for personal grooming, such as shaving or checking appearance, especially in outdoor environments where traditional mirrors are unavailable. Its compact size makes it suitable for use in tents, campsites, or during travel.

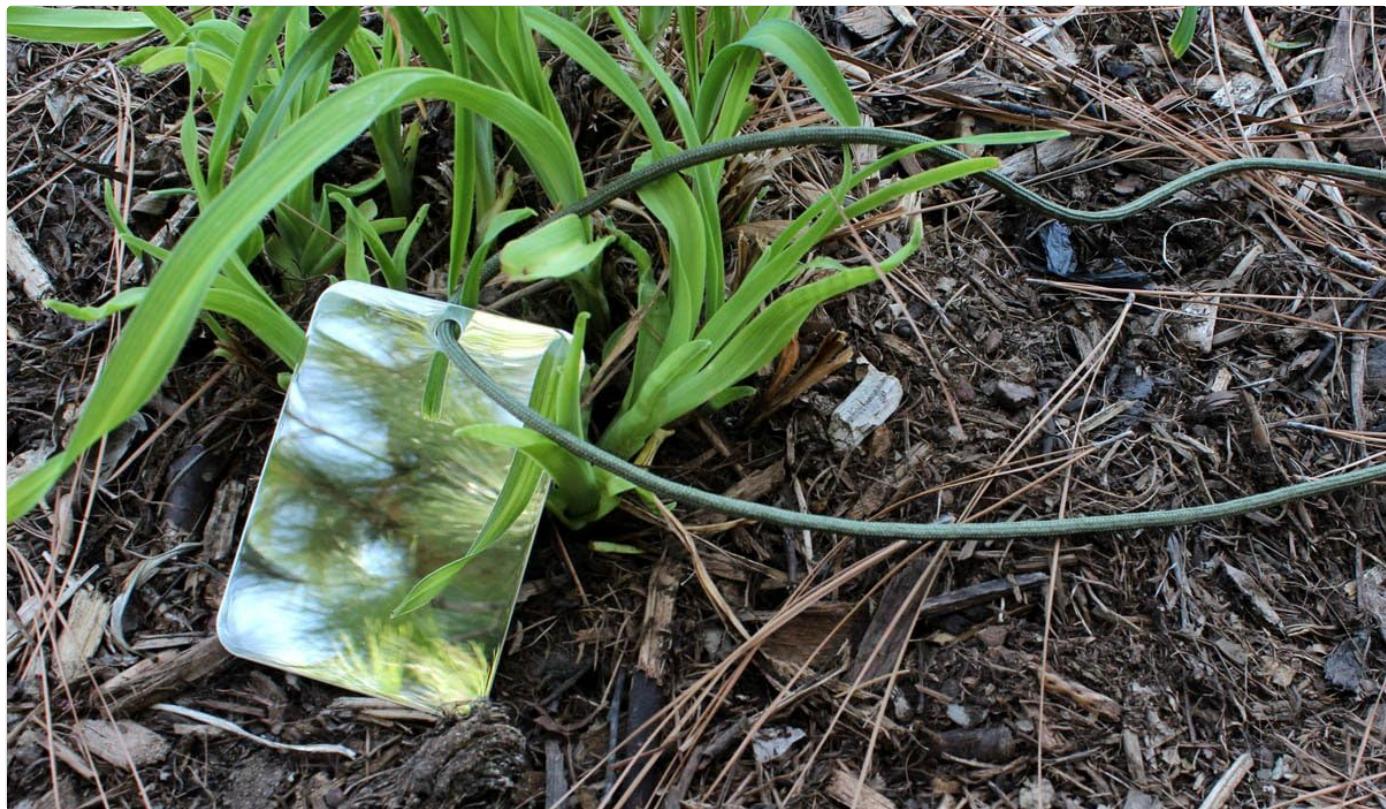

Image: The mirror resting on the ground amidst green foliage and pine needles, illustrating its use in an outdoor setting.

## Maintenance

To ensure the longevity and clarity of your SE Double-Sided Outdoor Mirror, follow these maintenance guidelines:

- Cleaning:** Wipe the mirror surfaces with a soft, lint-free cloth. For stubborn smudges or dirt, use a small amount of mild soap and water, then dry thoroughly. Avoid abrasive cleaners or materials that could scratch the surface.
- Storage:** Store the mirror in a protective pouch or wrap it in a soft cloth to prevent scratches when not in use, especially when stored with other items in a pack.
- Handling:** While durable, avoid bending or applying excessive force to the mirror, as this can distort the reflective surface.

## Troubleshooting

Problem	Possible Cause	Solution
Distorted Reflection	Mirror surface is bent or warped.	Ensure the mirror is stored flat and not subjected to bending forces. If severely warped, replacement may be necessary.
Scratches on Surface	Improper storage or abrasive cleaning.	Store in a protective pouch. Clean with soft, non-abrasive materials only. Deep scratches may permanently affect reflection.
Sharp Edges	Manufacturing process.	Carefully file or sand down sharp edges with fine-grit sandpaper or a sharpening stone if necessary. Handle with care.

## SPECIFICATIONS

**Brand:** SE

**Model Number:** CM433

**Material:** Stainless Steel

**Dimensions:** 4 inches (Length) x 3 inches (Width)

**Thickness:** 0.3 mm

**Weight:** Approximately 1.6 ounces

**Features:** Double-sided, Lanyard Hole

**Color:** Stainless Steel

## SAFETY INFORMATION

**Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, visit [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

**Sharp Edges:** Due to the manufacturing process, the edges of the mirror may be sharp. Handle with care to avoid cuts. It is recommended to smooth the edges if they are noticeably sharp before extensive use.

**Eye Safety:** When using the mirror for signaling, avoid directing reflected sunlight directly into your own eyes or the eyes of others at close range, as this can cause temporary vision impairment or discomfort.

## WARRANTY AND SUPPORT

SE products are designed for quality and reliability. While specific warranty details are not provided in this manual, for any product inquiries, technical support, or concerns, please contact the manufacturer or the retailer from whom the product was purchased.

Retain your proof of purchase for any potential claims.
