## Janet Collection Encore Lavie New Yaky Bulk Prime UniMix

# Instruction Manual

Janet Collection Encore Lavie New Yaky Bulk Prime UniMix Human Hair

### 1. PRODUCT OVERVIEW

---

The Janet Collection Encore Lavie New Yaky Bulk Prime UniMix is 100% human hair designed for various styling applications. This product features Prime UniMix Technology, providing a natural yaky texture that can be styled straight or curled.

It is heat resistant up to 350°F (176°C), allowing for versatile heat styling options.

### 2. KEY FEATURES

---

- **100% Human Hair:** Ensures a natural look and feel, and allows for realistic styling.
- **Prime UniMix Technology:** Advanced blending technology for consistent quality and texture.
- **Yaky Texture:** Mimics the texture of relaxed African American hair, providing a natural blend.
- **Heat Resistant:** Can withstand heat up to 350°F (176°C) for curling or straightening.
- **Versatile Styling:** Suitable for various hairstyles, including braiding, weaving, and custom wig creation.

### 3. PREPARATION AND APPLICATION

---

This bulk hair is intended for professional or experienced personal use in creating hair extensions, weaves, or custom wigs. Proper preparation of your natural hair is crucial before application.

#### 3.1. Hair Preparation

- Ensure your natural hair is clean, dry, and free of any product buildup.
- For weaving or braiding, prepare your natural hair by braiding it into cornrows or a suitable foundation.
- For custom wig making, ensure your wig cap or foundation is secure and ready for hair attachment.

#### 3.2. Application Methods

The bulk hair can be applied using various methods, including:

- **Braiding:** Integrate the bulk hair directly into braids for added length and volume.
- **Weaving:** Attach the hair to cornrows using a needle and thread.
- **Custom Wig Making:** Ventilate or sew the hair onto a wig cap to create a full wig.

*Consult a professional stylist for best results if you are unsure about application techniques.*

## 4. STYLING AND USAGE

---

This human hair product offers flexibility in styling. Always use heat protectant sprays when applying heat.

### 4.1. Straightening

Using a flat iron, straighten the hair in small sections. Maintain a temperature below 350°F (176°C) to prevent damage. Pass the iron smoothly and quickly over each section.

### 4.2. Curling

Use a curling iron or hot rollers. Ensure the temperature does not exceed 350°F (176°C). Hold the curl until it sets, then release gently. For longer-lasting curls, allow the hair to cool completely before disturbing.

### 4.3. General Styling Tips

- Use a wide-tooth comb or a paddle brush to detangle, starting from the ends and working your way up.
- Avoid excessive pulling or tugging on the hair.
- For best results, use products specifically designed for human hair extensions.

## 5. MAINTENANCE AND CARE

---

Proper care extends the life and maintains the quality of your human hair product.

### 5.1. Washing

- Gently detangle the hair before washing.
- Wash with a mild shampoo and conditioner in lukewarm water.
- Do not rub or twist the hair. Gently squeeze out excess water.
- Rinse thoroughly until no shampoo or conditioner remains.

### 5.2. Drying

- Pat dry with a clean towel.
- Allow the hair to air dry naturally whenever possible.
- If using a blow dryer, use a cool setting and a heat protectant.

### 5.3. Daily Care

- Brush or comb daily to prevent tangling.
- Apply a light leave-in conditioner or serum to keep the hair soft and moisturized.
- Protect the hair at night by wrapping it or wearing a silk/satin bonnet.

## 6. TROUBLESHOOTING

---

Issue	Possible Cause	Solution
Hair tangles easily	Lack of moisture, product buildup, improper brushing, friction.	Apply leave-in conditioner, wash regularly, detangle gently from ends up, wear a silk bonnet at night.
Hair feels dry or brittle	Insufficient conditioning, excessive heat, harsh products.	Use moisturizing shampoo/conditioner, deep condition regularly, reduce heat styling, use heat protectant.
Shedding	Over-processing, improper installation, excessive brushing.	Seal wefts (if applicable), brush gently, avoid excessive heat or chemical treatments.

## 7. PRODUCT SPECIFICATIONS

---
