Conair Hot Rollers Instruction Manual

MODEL: CHV14JXRSAMR

Brand: Conair

1. Important Safety Information

Please read all instructions before using this appliance. Keep away from water. Do not use while bathing or in a shower. Do not place or store appliance where it can fall or be pulled into a tub or sink. Do not place in or drop into water or other liquid. If an appliance falls into water, unplug it immediately. Do not reach into the water. This product is not recommended for children; intended for individuals 16 years and older. Always unplug the appliance after use.

Legal Disclaimer: This product is designed for personal hair styling. Any misuse or modification of the product may result in damage or injury. The manufacturer is not responsible for any damage or injury caused by improper use.

2. Product Overview

The Conair Hot Rollers set provides an easy way to create voluminous, long-lasting curls and waves. This set features ceramic flocked rollers designed for quick and even heating, ensuring smooth, salon-worthy results with reduced heat damage.

What's in the Box:

- 12 Ceramic Flocked Rollers (8 jumbo 1½-inch, 4 super-jumbo 1¾-inch)
- 12 Super Clips
- Heated Roller Base with Lid Cover

3. Setup

- 1. Place the Unit:** Position the hot roller unit on a flat, heat-resistant surface. Ensure it is away from water and flammable materials.
- 2. Insert Rollers:** Place the ceramic flocked rollers into their designated slots in the heating unit.
- 3. Plug In:** Plug the unit into a standard electrical outlet. The red indicator light on the unit will illuminate, signaling that the rollers are heating.
- 4. Heat Up:** Allow approximately 85 seconds for the rollers to heat up. The heat indicator light will change color (or turn off, depending on the model) when the rollers are ready for use.

4. Operating Instructions

- 1. Prepare Hair:** Ensure your hair is dry and free of tangles. For best results, use 1-inch sections of hair.
- 2. Select Roller Size:** Use the larger 1½-inch rollers for super-jumbo curls and volume, and the 1½-inch rollers for jumbo curls and body.
- 3. Roll Hair:** Take a section of hair and place the end on the roller. Wind the hair towards the scalp, ensuring even tension.
- 4. Secure with Clip:** Use a super clip to firmly hold the roller in place. The clips are designed to prevent dents.
- 5. Set Time:** For voluminous waves and maximum body, leave rollers in for 20 minutes or more. For looser waves, 10 minutes or less may suffice. Allow rollers to cool completely before removing for optimal curl retention.
- 6. Remove Rollers:** Carefully unclip and unroll each roller from your hair. Gently separate curls with your fingers or a wide-tooth comb for a natural look.

5. Maintenance

- **Cleaning:** Ensure the unit is unplugged and completely cool before cleaning. Wipe the heating unit and rollers with a damp cloth. Do not use abrasive cleaners or immerse the unit in water.
- **Storage:** Store the unit and rollers in a cool, dry place. Ensure the lid is closed to protect the rollers from dust.

6. Troubleshooting

- **Rollers not heating:** Ensure the unit is properly plugged into a working electrical outlet and the power switch is in the 'ON' position. Check the heat indicator light.
- **Curls not holding:** Ensure rollers are fully heated before use. Leave rollers in for a longer duration, especially for thicker or longer hair. Allow curls to cool completely before styling or brushing. Consider using a light hairspray for added hold.
- **Rollers too hot to handle:** While rollers are designed to heat effectively, the ends may become warm. Handle by the cool-touch ends. If discomfort persists, allow a few seconds for them to cool slightly before handling.

7. Specifications

Item Model Number	CHV14JXRSAMR
Product Dimensions	11.5 x 4.75 x 4.75 inches
Item Weight	2.9 Pounds
Material	Ceramic
Hair Type	Curly (suitable for various hair types to create curls/waves)
Number of Items	1 (set includes 12 rollers and 12 clips)
Manufacturer Recommended Age	18 years and up
