1. INTRODUCTION

Welcome to the Kiddieland Minnie Mouse My First Activity Ride-On. This sturdy ride-on toy is designed to provide engaging and interactive play for toddlers aged 1 to 3 years. It features a variety of lights, sounds, and interactive elements to stimulate your child's development and imagination. Please read this manual thoroughly before use to ensure safe and proper operation.

2. SAFETY INFORMATION

Important: This product is designed for children from **12 months to 36 months of age** and a maximum weight not exceeding **22.7 kg (50 lb)**. Exceeding these limits may compromise the toy's stability and safety.

- Always supervise children during play.
- Ensure the play area is clear of obstacles and hazards.
- Do not use near stairs, swimming pools, or on uneven surfaces.
- Regularly inspect the toy for any loose or damaged parts. Discontinue use if any damage is found.

- Keep small parts away from children under 3 years to prevent choking hazards.

3. SETUP

The Kiddieland Minnie Mouse My First Activity Ride-On comes mostly pre-assembled. Follow these steps to prepare it for play:

1. **Unboxing:** Carefully remove all components from the packaging. Ensure all parts listed in the "What's in the Box" section are present.
2. **Battery Installation:** The ride-on requires 2 AA batteries (included). Locate the battery compartment, usually under the seat or on the dashboard. Use a screwdriver to open the compartment, insert the batteries with correct polarity, and secure the cover.
3. **Handlebar Attachment (if separate):** If the rear push handle is not already attached, firmly insert it into the designated slots at the back of the ride-on until it clicks into place.
4. **Inspection:** Before first use, check all connections and ensure the steering wheel and wheels move freely.

4. OPERATING INSTRUCTIONS

The Minnie Mouse Activity Ride-On offers multiple ways to play and learn:

- **Kid-Powered Mobility:** Children can sit on the low seat and push off with their feet to scoot around. The wide

wheelbase provides stability for early riders.

- **Steering Wheel:** The easy-grip steering wheel allows children to control the direction of the ride-on. Press the center button on the steering wheel for a fun beeping horn sound.
- **Interactive Dashboard:**
 - **Flashing Signal Lights:** Activate the signal lights for realistic driving play.
 - **Engine Sounds:** Engage the ignition key or gear shift for revving engine sounds.
 - **Educational Clock:** Turn the clock hands to practice telling time.
 - **Peek-a-Boo Window:** Slide the peek-a-boo window to reveal different images, promoting visual recognition.
 - **Music and Sounds:** Press various buttons on the dashboard to activate different melodies and sound effects.
- **Push Handle:** For younger toddlers or assisted play, an adult can use the rear push handle to guide the ride-on.
- **Storage:** Lift the seat to access a convenient storage compartment, perfect for small toys or snacks.

5. MAINTENANCE

To ensure the longevity and safe operation of your Minnie Mouse Activity Ride-On, follow these maintenance guidelines:

- **Cleaning:** Wipe the toy with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners. For outdoor use, it can be hosed off and allowed to air dry.
- **Battery Care:** Replace batteries when sounds become faint or lights dim. Always use new AA batteries of the same type. Remove batteries if the toy will not be used for an extended period.
- **Storage:** Store the ride-on in a cool, dry place away from direct sunlight and extreme temperatures.
- **Regular Checks:** Periodically check all screws, bolts, and connections to ensure they are secure. Ensure wheels spin freely and the steering mechanism operates smoothly.

6. TROUBLESHOOTING

If you encounter any issues with your ride-on, refer to the following common solutions:

Problem	Possible Cause	Solution
No sound or lights	Dead or incorrectly installed batteries.	Check battery polarity and replace with new AA batteries.
Wheels not turning smoothly	Debris in wheels or loose axle.	Clean wheels and check for any obstructions. Ensure axle is secure.
Steering is stiff	Mechanism may be obstructed or require lubrication.	Check for obstructions. Apply a small amount of silicone lubricant if necessary.
