Brillo 23330

Brillo Steel Wool Soap Pads Original Scent (Red), 30-Count Jumbo Pack User Manual

Brand: Brillo | Model: 23330

PRODUCT OVERVIEW

Brillo® Steel Wool Soap Pads Original Scent (Red), 30-Count Jumbo Pack are designed for powerful cleaning of tough messes on various surfaces. These pads combine fine steel wool with a long-lasting soap formula to effectively remove grime and burnt-on food.

Image: Brillo Steel Wool Soap Pads Original Scent (Red), 30-Count Jumbo Pack. The packaging is red with the Brillo logo, showing two pink soap pads and illustrations of pots and pans.

KEY FEATURES

- Wool material for effective scrubbing.
- Contains 30 Red Brillo Steel Wool Soap Pads, with Original Scent.
- Long-lasting soap pad with anti-rust formula.
- Features 29% more soap and 8% more steel wool than other standard soap pads (excluding Brillo Heavy Duty Soap Pads & S.O.S. Grill Mates).
- Iconic square shape allows the soap pad edges to easily reach tough messes in corners.
- Unique bonded edges maintain the shape of the pad and improve surface cleaning.

SETUP

Brillo Steel Wool Soap Pads are pre-soaped and ready for immediate use. No complex setup is required.

1. Remove one soap pad from the packaging.
2. Slightly moisten the pad with water to activate the soap. The pad will begin to lather as it is used.

OPERATING INSTRUCTIONS

Follow these steps for effective cleaning with Brillo Steel Wool Soap Pads:

1. **Prepare the Surface:** For best results, remove any loose food particles or debris from the item to be cleaned.
2. **Wet the Pad:** Hold a Brillo pad under running water for a few seconds to moisten it. The soap embedded in the steel wool will begin to lather.
3. **Scrub the Surface:** Apply the moistened pad directly to the soiled surface. Use firm, circular motions to scrub away burnt-on food, grease, rust, and other tough stains. The steel wool provides abrasive power while the soap cuts through grime.
4. **Focus on Corners:** Utilize the square shape and bonded edges of the pad to effectively clean corners and hard-to-reach areas of pots, pans, and other kitchenware.
5. **Rinse Thoroughly:** After scrubbing, rinse the cleaned item thoroughly with water to remove all soap residue and loosened grime.
6. **Repeat if Necessary:** For extremely stubborn stains, repeat the scrubbing process with a fresh pad if needed.

Note: No official product videos from the seller were available for embedding in this manual.

MAINTENANCE

To prolong the life of your Brillo Steel Wool Soap Pads and ensure optimal performance:

- **After Use:** After cleaning, rinse the pad briefly to remove excess food particles. Do not wring out excessively, as this can remove the soap.
- **Storage:** Store used pads in a dry area, away from moisture, to help prevent premature rusting. While they contain an anti-rust formula, prolonged exposure to moisture can still lead to rust.
- **Disposal:** Dispose of pads once they no longer produce sufficient lather or if they become heavily rusted or worn.

TROUBLESHOOTING

Problem	Possible Cause / Solution
Pad rusts quickly.	Ensure pads are stored in a dry environment after use. While an anti-rust formula is present, excessive moisture can still cause rusting. Consider drying the pad slightly or storing it in a well-ventilated area.
Pad runs out of soap too fast.	The amount of soap released depends on the pressure and amount of water used. For lighter cleaning, use less water and pressure. For heavy-duty tasks, more soap will be released. If the pad is no longer effective, replace it with a new one.

Problem	Possible Cause / Solution
Stains are not coming off.	Ensure the pad is adequately moistened to activate the soap. Apply more pressure and scrub in circular motions. For extremely tough, baked-on stains, allow the item to soak in hot soapy water before scrubbing.

SPECIFICATIONS

Attribute	Detail
Brand	Brillo
Model Number	23330
Material	Steel Wool
Grit Material	Steel Wool
Grit Type	Medium
Grit Number	150
Item Dimensions (L x W x H)	2.35 x 2.35 x 0.63 inches
