Norman Lamps 967 (CM8-3995)

Norman Lamps 967 (CM8-3995) Incandescent Bulb Instruction Manual

Model: 967 (CM8-3995)

Introduction

Welcome to your Norman Lamps 967 (CM8-3995) Incandescent Bulb. This manual provides essential information for the safe installation, operation, and maintenance of your new bulb. Please read these instructions carefully before use and retain them for future reference.

Safety Information

- Always disconnect power to the fixture before installing, removing, or replacing the bulb.
- Do not exceed the specified voltage (130V) or wattage (2.4W) for this bulb. Using incorrect voltage or wattage can damage the bulb or fixture and pose a safety risk.
- Handle bulbs carefully to avoid breakage. Broken glass can cause injury.
- Allow the bulb to cool completely before touching or replacing it. Incandescent bulbs can become very hot during operation.
- Dispose of used bulbs according to local environmental regulations.
- This bulb is designed for indoor use only.

Setup and Installation

Follow these steps to properly install your Norman Lamps 967 incandescent bulb:

1. **Turn off Power:** Ensure the electrical power supply to the light fixture is completely turned off at the circuit breaker or wall switch before beginning installation.
2. **Remove Old Bulb (if applicable):** If replacing an existing bulb, carefully twist and pull the old bulb from the socket. Allow it to cool if it was recently in use.
3. **Insert New Bulb:** Align the BA9S (Miniature Bayonet Base) of the Norman Lamps 967 bulb with the socket. Gently push the bulb into the socket and twist clockwise until it locks securely into place. Do not overtighten.
4. **Restore Power:** Once the bulb is securely installed, restore power to the fixture at the circuit breaker or wall switch.
5. **Test:** Turn on the light switch to confirm the bulb is functioning correctly.

This image displays the Norman Lamps 967 incandescent bulb, highlighting its dimensions: 1.18 inches in length and 0.41 inches in diameter. The bulb features a clear glass envelope and a metallic BA9S miniature bayonet base, ready for installation.

Operating Instructions

The Norman Lamps 967 incandescent bulb is designed for straightforward operation. Once correctly installed in a compatible fixture and power is supplied, the bulb will illuminate.

- This bulb is intended for use in fixtures requiring a BA9S miniature bayonet base.
- It operates on a 130V electrical system.
- The bulb provides a multicolor light, characteristic of incandescent filaments.

Maintenance

Proper maintenance ensures the longevity and performance of your bulb.

- **Cleaning:** To clean the bulb, ensure the power is off and the bulb is completely cool. Gently wipe the glass with a dry, soft, lint-free cloth. Do not use liquid cleaners or abrasive materials, as these can damage the bulb or leave residues.
- **Replacement:** When the bulb reaches the end of its operational life (approximately 7,000 hours) or if it burns out, turn off the power, allow it to cool, and replace it following the steps outlined in the "Setup and Installation" section.

Troubleshooting

If you encounter issues with your Norman Lamps 967 bulb, refer to the following troubleshooting guide:

Problem	Possible Cause	Solution
Bulb does not light up	No power to the fixture	Check the circuit breaker and wall switch to ensure power is on.
Bulb does not light up	Bulb not properly seated in socket	Turn off power, then carefully re-seat the bulb in the socket, ensuring it is twisted securely.
Bulb does not light up	Bulb is burnt out	Turn off power, allow bulb to cool, and replace with a new Norman Lamps 967 bulb.
Bulb flickers	Loose connection	Turn off power, ensure the bulb is securely seated in the socket.
Bulb flickers	Incompatible dimmer switch	Ensure any dimmer switch used is compatible with incandescent bulbs.

If the problem persists after attempting these solutions, it is recommended to consult a qualified electrician.
