Comfort 501231

Comfort Sunshiny Days Fabric Conditioner 750ml User Manual

Model: 501231

1. PRODUCT OVERVIEW

The Comfort Sunshiny Days Fabric Conditioner is designed to provide long-lasting freshness, fragrance, and softness to your laundry. This 750ml bottle is formulated for use in washing machines to enhance the feel and scent of your clothes.

Image 1.1: Front view of the Comfort Sunshiny Days Fabric Conditioner 750ml bottle. The bottle is yellow with sunflower graphics and features the Comfort logo, "Sunshiny Days" scent name, and indicates "21 washes" and "All-Day Odour Defence."

2. SETUP AND OPERATING INSTRUCTIONS

Follow these steps for optimal use of Comfort Sunshiny Days Fabric Conditioner in your washing machine.

- 1. Prepare Laundry:** Load your washing machine with clothes as usual.
- 2. Measure Conditioner:** Refer to your washing machine's dispenser markings or the product label for the recommended dosage. For a standard wash, typically a capful or specific measurement (e.g., 35-40ml) is used. The 750ml volume refers to the total content of this bottle, designed for approximately 21 washes.
- 3. Add to Dispenser:** Pour the measured fabric conditioner into the designated fabric softener compartment of your washing machine's detergent drawer. Do not pour directly onto clothes.
- 4. Start Wash Cycle:** Select your desired wash cycle and start the machine. The conditioner will be automatically dispensed during the rinse cycle.

Important Note: Do not mix fabric conditioner with detergent in the same compartment, as this can reduce effectiveness.

3. MAINTENANCE AND STORAGE

Proper storage ensures the longevity and effectiveness of your fabric conditioner.

- **Storage Location:** Store in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Cap Security:** Ensure the cap is tightly closed after each use to prevent spills and maintain product quality.
- **Freezing:** Do not allow the product to freeze. If it does, thaw completely and shake well before use.

4. SAFETY INFORMATION

Read and follow all safety precautions to prevent accidents and ensure safe use.

- **Keep Out of Reach of Children:** This product is not for consumption.
- **Eye Contact:** In case of contact with eyes, rinse immediately with plenty of water. If irritation persists, seek medical advice.
- **Skin Contact:** Prolonged skin contact may cause irritation. Wash hands thoroughly after handling.
- **Ingestion:** If swallowed, seek medical attention immediately and show this container or label.
- **Flammability:** Fabric softeners can increase the flammability of clothing. Do not use this product on children's sleepwear or other garments labeled as flame resistant as it may reduce flame resistance.

5. TROUBLESHOOTING

If you encounter issues with your fabric conditioner, consider the following:

- **Clothes Not Soft/Fragrant:**
 - Ensure the conditioner was added to the correct dispenser compartment.
 - Check if the dispenser is clogged and clean if necessary.
 - Verify that the correct dosage was used for the load size.
- **Residue on Clothes:**
 - Reduce the amount of conditioner used.
 - Ensure the dispenser is clean and free from blockages.

6. SPECIFICATIONS

| | |
|---------------------------|--------------------------------------|
| Brand | Comfort |
| Model Number | 501231 |
| Volume | 750 Milliliters (25.36 Fluid Ounces) |
