## DURACELL M2PW1

# Duracell Powermat2x PowerMat for 2 Devices Instruction Manual

Model: M2PW1

## PRODUCT OVERVIEW

---

The Duracell Powermat2x PowerMat is a wireless charging solution designed to power two PMA-compatible devices simultaneously. This mat provides a convenient way to charge your Duracell Powermat-enabled smartphones or Portable Backup Batteries without the need for cables. It features intelligent charging technology that prevents overcharging by detecting when a device is fully charged.

Image: Duracell Powermat2x PowerMat. This image displays the white charging mat, designed to wirelessly charge two devices simultaneously.

#### Key Features:

- Wirelessly charges two Duracell Powermat-enabled smartphones or Portable Backup Batteries.
- Intelligent charging system prevents overcharging.
- PMA (Power Matters Alliance) compatible. *Note: Not compatible with Qi wireless charging standard.*

## SETUP INSTRUCTIONS

1. **Unpack the PowerMat:** Carefully remove the Duracell Powermat2x PowerMat from its packaging.
2. **Connect to Power:** Plug the provided power adapter into the PowerMat's power input port, then connect the adapter to a standard electrical outlet.
3. **Prepare Your Device:** Ensure your device (e.g., iPhone 4/4S) is equipped with a Duracell Powermat Wireless Case (sold separately) or that you are using a Duracell Powermat Portable Backup Battery (sold separately). These accessories enable wireless charging compatibility with the PowerMat.
4. **Placement:** Place your PMA-enabled device or Portable Backup Battery onto the surface of the PowerMat.

5. **Confirmation:** A distinct audible 'bleep' sound will indicate that your device is correctly connected and has begun charging.

## OPERATING INSTRUCTIONS

---

Using the Duracell Powermat2x PowerMat is straightforward once setup is complete.

- **Initiating Charge:** Simply place your PMA-enabled device or Portable Backup Battery onto the PowerMat. The mat will automatically detect the device and begin charging. Listen for the 'bleep' sound to confirm charging has started.
- **Optimal Placement:** For best charging performance, ensure your device is centered on one of the charging zones of the PowerMat. Slight adjustments may be necessary to find the optimal connection point, often referred to as the 'sweet spot'.
- **Charging Indication:** The PowerMat will provide an audible signal when charging begins and when a device is fully charged.
- **Full Charge Detection:** The PowerMat is designed to stop charging once your device's battery reaches full capacity, preventing overcharging and prolonging battery life.
- **Multiple Devices:** The PowerMat can charge two compatible devices simultaneously. Place each device on a separate charging zone.

## MAINTENANCE

---

To ensure the longevity and optimal performance of your Duracell Powermat2x PowerMat, follow these simple maintenance guidelines:

- **Cleaning:** Disconnect the PowerMat from the power source before cleaning. Use a soft, dry, or slightly damp cloth to wipe the surface. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the device.
- **Storage:** When not in use for extended periods, store the PowerMat in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the PowerMat with care. Avoid dropping it or subjecting it to strong impacts, which could damage internal components.

## TROUBLESHOOTING

---

If you encounter issues with your Duracell Powermat2x PowerMat, please refer to the following common troubleshooting steps:

- **Device Not Charging:**
  - Ensure the PowerMat is properly connected to a working power outlet.
  - Verify that your device is PMA-compatible and has the necessary Duracell Powermat accessory (e.g., Wireless Case).
  - Adjust the placement of your device on the PowerMat. Try repositioning it slightly to find the optimal charging area. Listen for the 'bleep' sound.
- **Slow Charging:**
  - Wireless charging can inherently be slower than wired charging. This is normal operation for many wireless charging systems.

- Ensure no foreign objects are between the device and the PowerMat, which could interfere with charging efficiency.
- **No Audible 'Bleep' Sound:**
  - Check the PowerMat's power connection.
  - Re-position the device on the PowerMat.
  - Ensure your device's volume is not muted if you expect an audible confirmation from the device itself.

## SPECIFICATIONS

Feature	Detail
Model Number	M2PW1
Product Dimensions	7.19 x 3.13 x 5.63 inches
Item Weight	14.4 ounces
Connectivity Technology	Wireless (PMA compatible)
Color	White
Output Voltage	5 Volts
Compatible Devices	Smartphones (with PMA-enabled accessories)
Compatible Phone Models	Apple iPhone 4, Apple iPhone 4S (with Wireless Case)
Included Components	Powermat for 2 Devices
Manufacturer	Duracell Powermat
Date First Available	June 1, 2012

## WARRANTY AND SUPPORT

Specific warranty information for the Duracell Powermat2x PowerMat is not provided within this manual. For details regarding warranty coverage, terms, and conditions, please refer to the original product packaging or visit the official Duracell Powermat website.

For further assistance, technical support, or to inquire about compatible accessories, please visit the official Duracell website or contact their customer service department through the channels provided on their website.
