WeatherTech W256

WeatherTech All-Weather Floor Mats User Manual

Model: W256 | Brand: WeatherTech

1. Product Overview

The WeatherTech All-Weather Floor Mats are designed to provide comprehensive protection for your vehicle's interior. These mats feature deeply sculpted channels engineered to effectively trap water, road salt, mud, and sand, preventing them from reaching your vehicle's carpet.

Constructed from an advanced rubber-like Thermoplastic Elastomer (TPE) compound, these mats are an OEM-approved, virtually odorless, and latex-free material. They contain no harmful PVCs, cadmium, or lead, and are 100% recyclable. This product is proudly made in the USA.

2. Setup and Installation

These floor mats are designed for the 2nd row of specific vehicle models. Before installation, ensure your vehicle's original floor mats are removed to prevent interference with pedal operation or mat fitment. Proper fitment is crucial for safety and effectiveness.

1. **Verify Fitment:** Confirm that the mats are the correct size and shape for your vehicle's 2nd-row floorboard. Refer to the product specifications for compatible models.
2. **Clear Area:** Remove any debris, dirt, or existing floor mats from the vehicle's floor where the new mats will be placed.
3. **Position Mats:** Carefully place each mat into its designated position in the 2nd row. Ensure the mat lies flat and does not obstruct any moving parts or vehicle controls.
4. **Secure Mats:** If your vehicle is equipped with floor mat retention hooks or posts, align the mat's grommets with these features and secure them firmly. This prevents the mats from shifting during use.

3. Operating and Usage

Once installed, the WeatherTech All-Weather Floor Mats provide continuous protection against various elements. The unique design with raised ridges and channels is engineered to contain spills, dirt, and debris, keeping your vehicle's carpet clean and dry.

- **All-Weather Protection:** These mats are designed to perform in all seasons, protecting against rain, snow, mud, and everyday spills.
- **Secure Fit:** The mats are engineered to stay in place, reducing the risk of shifting underfoot.
- **Easy Removal:** For cleaning, the mats can be easily removed from the vehicle.

Image 3.2: Detail of the mat's sculpted channels effectively trapping leaves and water.

Image 3.3: The mat's surface with snow and water, demonstrating its all-weather protective capabilities.

4. Maintenance and Care

To maintain the appearance and effectiveness of your WeatherTech All-Weather Floor Mats, regular cleaning is recommended.

1. **Remove Mats:** Carefully remove the mats from your vehicle.
2. **Shake Out Debris:** Shake off any loose dirt, dust, or debris.
3. **Wash:** Clean the mats using soap and water, or a specialized floor mat cleaner such as WeatherTech TechCare FloorLiner and FloorMat Cleaner. A soft brush can be used for stubborn dirt in the channels.
4. **Rinse:** Rinse thoroughly with clean water.
5. **Dry:** Allow the mats to air dry completely before reinstalling them in your vehicle. Do not use harsh chemicals or abrasive cleaners, as these may damage the mat material.

Image 4.2: WeatherTech TechCare FloorLiner and FloorMat Protector, for maintaining the mat's finish.

5. Troubleshooting

Most issues with WeatherTech All-Weather Floor Mats relate to fitment or cleaning.

- **Mat Does Not Fit Properly:**
  Ensure you have the correct model (W256) for your specific vehicle year, make, and model. Verify that all original floor mats have been removed prior to installation. If the mat is new and slightly stiff, allow it to warm up in the sun or a warm environment to become more pliable for easier installation.
- **Mat Slides or Shifts:**
  Confirm that the mat is properly secured to any factory retention hooks or posts in your vehicle. Ensure the underside of the mat and the vehicle's carpet are clean and dry, as moisture or debris can reduce friction.
- **Stains or Discoloration:**
  For best results, clean spills promptly. Use WeatherTech TechCare cleaning products or a mild soap and water solution. Avoid harsh chemicals that may damage the TPE material.

6. Specifications

Feature	Detail
Brand	WeatherTech
Model Number	W256
Coverage Area	2nd Row
Color	Black
Material	Thermoplastic Elastomer (TPE)
Item Weight	1 pound
Manufacturer	WeatherTech
Compatible Vehicles	2013-2018 Toyota Avalon, 2014-2019 Toyota Corolla, 2006 Lincoln Zephyr, 2006-2011 Mercury Milan, 2006-2012 Ford Fusion, 2007-2012 Lincoln MKZ
Features	Deeply sculpted channels, virtually odorless, latex-free, no harmful PVCs/cadmium/lead, 100% recyclable

7. Warranty and Support

WeatherTech products are known for their quality and durability.
