TRIXIE 55965

TRIXIE Natura Chicken Outdoor Run

Model: 55965

Brand: TRIXIE

PRODUCT OVERVIEW

The TRIXIE Natura Chicken Outdoor Run is designed as an extension for TRIXIE Natura Chicken Coops (models 55960, 55962, 55963, and 55964). It provides a safe and secure outdoor space for poultry, allowing them to roam and stretch their wings while being protected from predators. This run is suitable for up to 2 standard size chickens or 4 bantams.

Constructed with galvanized metal grid and solid wood, it features a weatherproof finish for durability and low maintenance. The mesh cover folds open on one side for easy access, and metal slide latches ensure the security of your flock.

IMPORTANT SAFETY INFORMATION

This product is intended for pet use only. Do not allow children to play on or inside the enclosure. Always ensure all latches and connections are secure to prevent escape or entry by predators. Regularly inspect the run for any damage that could compromise its structural integrity or the safety of your animals.

SETUP AND ASSEMBLY

The TRIXIE Natura Chicken Outdoor Run is designed for quick and easy assembly. All necessary components and instructions are included in the package. For detailed, step-by-step assembly instructions, please refer to the comprehensive user manual provided in PDF format, which can be accessed via the link on the product page.

Ensure you have adequate space for assembly and placement. The run is intended to attach to compatible TRIXIE Natura Chicken Coops. The passage opening and walk-through measures 17 x 17 inches, designed to align with the coop's access point.

OPERATING INSTRUCTIONS

Once assembled and securely attached to a compatible TRIxie Natura Chicken Coop, the outdoor run provides a safe environment for your chickens. The mesh cover on top folds open on one side, allowing for easy access to the interior for feeding, watering, or tending to your flock. The metal slide latches ensure the cover remains securely closed when not in use, protecting your animals from predators.

The run is designed to integrate seamlessly with TRIxie Natura Chicken Coops (models 55960, 55962, 55963, and 55964), creating an extended living space for your poultry. Ensure the connection between the run and the coop is firm and free of gaps.

Create a Larger Playground

MAINTENANCE

The TRIxie Natura Chicken Outdoor Run is constructed with durable materials designed for longevity and minimal maintenance. The solid wood frame features a weatherproof finish, and the mesh is galvanized metal, both contributing to its resilience against outdoor elements.

- **Cleaning:** Regularly clean the interior of the run to maintain hygiene for your chickens. Since it has an open bottom, it can be easily moved for cleaning the ground underneath.
- **Inspection:** Periodically inspect the wood for any signs of wear, cracking, or rot. Check the metal

mesh for any damage, rust, or loose sections that could create openings. Ensure all latches and hinges are functioning correctly and are free of debris.

- **Weather Protection:** While weatherproof, extreme weather conditions may necessitate additional protection or temporary relocation of the run to prolong its lifespan.

- Weather-Resistant Glazed Wood
- Strong Metal Mesh
- Open Bottom

TROUBLESHOOTING

Should you encounter any issues with your TRIXIE Natura Chicken Outdoor Run, consider the following common checks:

- **Stability Issues:** Ensure all screws and fasteners are tightened. Verify the ground beneath the run is level.
- **Access Door/Cover Malfunction:** Check hinges and latches for obstructions or damage. Lubricate if necessary.
- **Predator Access:** Inspect the entire mesh and wood frame for any gaps or holes that may have developed over time. Repair immediately to ensure the safety of your flock.

If problems persist or you require further assistance, please contact TRIXIE customer support.

SPECIFICATIONS

Feature	Detail
Model Number	55965
