Intex Kids Travel Air Mattress (Model 66810EP) Instruction Manual

Model: 66810EP | Brand: Intex

1. INTRODUCTION AND PRODUCT OVERVIEW

The Intex Kids Travel Air Mattress is designed to provide a comfortable and secure sleeping solution for children aged 3-6 years, with a weight capacity of up to 50 lbs. This portable inflatable bed features a soft, velvety surface and a double support structure, making it suitable for travel, sleepovers, and camping. It includes a removable inner mattress and a hand pump for convenient inflation.

KIDZ TRAVEL BED SET

Keep young sleepers comfortable with a versatile air mattress that's ideal for naps, camping trips, and sleepovers.

2. SAFETY INFORMATION

WARNING: Always use this product under adult supervision. Keep away from heat and open flames. Do not allow children to play on or near this product unsupervised. This product is not intended for children under 3 years of age. Do not use this product if it is damaged. Always follow the instructions for proper inflation and deflation to avoid damage or injury. This product has a weight limit of 50 pounds. Risk of Suffocation: Infants have suffocated on inflatable mattresses. Never place an infant 15 months and younger to sleep on an inflatable mattress. This is not a safe sleeping surface for infants. Provide at least a shoulder width space between mattress and walls, dressers or other vertical objects to avoid entrapment. Always keep mattress fully inflated when in use.

4. SETUP INSTRUCTIONS

1. **Unpack:** Remove the air mattress, inner mattress, hand pump, and repair patch from the carry bag.
2. **Prepare Surface:** Place the deflated air mattress on a clean, flat surface, free from sharp objects.
3. **Inflate Outer Frame:** Locate the inflation valve on the outer frame of the air mattress. Open the valve cap. Attach the hand pump nozzle to the valve and inflate the outer frame until it is firm to the touch but not overinflated. Close the valve cap securely.
4. **Inflate Inner Mattress:** Locate the inflation valve on the removable inner mattress. Open the valve cap. Attach the hand pump nozzle and inflate the inner mattress until it is firm. Close the valve cap securely.
5. **Assemble:** Place the inflated inner mattress inside the inflated outer frame. The raised sides of the outer frame will help keep the inner mattress in place and provide a secure sleeping area.

Video: This video demonstrates the setup process for the Intex Kids Travel Air Mattress, including inflating the outer frame and inner mattress using the hand pump.

2-PIECE REMOVABLE MATTRESS

Separate the air bed from the frame to easily tuck in sheets or create an extra sleeping surface, or keep them together for convenience.

Image: A person demonstrating how to place the removable inner mattress into the outer frame, highlighting the two-piece design for versatility.

5. OPERATING INSTRUCTIONS

Once fully inflated and assembled, the Intex Kids Travel Air Mattress is ready for use. The removable inner mattress allows for easy sheet tucking or can be used as an additional sleeping surface. The raised sides of the outer frame are designed to provide extra support and help keep restless sleepers securely in the bed.

Deflation and Storage:

1. **Deflate Inner Mattress:** Open the valve cap on the inner mattress and allow the air to escape. You can gently press on the mattress to speed up deflation.
2. **Deflate Outer Frame:** Open the valve cap on the outer frame and allow the air to escape.
3. **Fold and Store:** Once both parts are fully deflated, fold them neatly. Place the deflated air bed frame and inner mattress into the convenient carry bag for easy transport and storage.

6. MAINTENANCE

To clean the air mattress, wipe it with a damp cloth. Do not use harsh chemicals or abrasive cleaners, as these can damage the PVC material. Ensure the mattress is completely dry before folding and storing to prevent mold or mildew growth.

Repair Patch Use:

In case of a small puncture, use the included repair patch. Clean and dry the damaged area thoroughly. Peel off the backing from the patch and firmly press it over the puncture. Allow several hours for the adhesive to set before re-inflating.

7. TROUBLESHOOTING

Mattress Does Not Stay Inflated:

- **Check Valve Caps:** Ensure all inflation valve caps on both the outer frame and inner mattress are securely closed after inflation.
- **Inspect for Leaks:** Carefully inspect the entire surface of the mattress for any punctures or small holes. You can do this by applying soapy water to the surface; bubbles will form at the site of a leak.
- **Use Repair Patch:** If a small leak is found, use the provided repair patch as described in the Maintenance section.
- **Over-inflation:** Avoid over-inflating the mattress, as this can stress the seams and lead to leaks.

Discomfort During Use:

- **Adjust Firmness:** The firmness of the mattress can be adjusted by slightly releasing or adding air.
- **Ensure Proper Placement:** Make sure the inner mattress is correctly seated within the outer frame.

8. SPECIFICATIONS

Feature	Detail
Model Number	66810EP
Brand	Intex
Color	Mint Green
Product Dimensions (L x W x Th)	66"L x 42"W x 10"Th (1.68m x 1.07m x 25cm)
