## **simplehuman 45 Liter Butterfly Lid Kitchen Step Trash Can Instruction Manual**

### **INTRODUCTION**

Thank you for choosing the simplehuman 45 Liter / 11.9 Gallon Butterfly Lid Kitchen Step Trash Can. This manual provides essential information for setting up, operating, and maintaining your new trash can to ensure years of efficient use. Its innovative design is crafted to maximize space and provide a seamless experience in your home.

## KEY FEATURES

- **Butterfly Lid:** Split doors open from the center for maximum clearance under low countertops.
- **Strong Steel Pedal:** Engineered to last over 150,000 steps, ensuring durability and reliable operation.
- **Silent Close Lid:** Patented lid shox technology controls the motion of the lid for a slow, silent close.
- **Internal Hinge:** Allows the can to be placed flush against a wall without interference.
- **Stay-Open Lid:** The lid stays open for extended periods, ideal for longer tasks.
- **Removable Inner Bucket:** Durable inner bucket catches drips and lifts out for easy cleaning.
- **Fingerprint-Proof:** Finish resists smudges to maintain a clean, shiny stainless steel appearance.
- **Custom Fit Liners:** Code K liners are designed for a perfect fit, preventing slipping and unsightly overhang.

- **Bucket Park:** Position to hold the inner bucket slightly raised for convenient bag changes.
- **Non-Skid Base:** Rubber pads on the base protect floors and keep the can stable.

## SETUP

### Unpacking and Placement

1. Carefully remove the trash can from its packaging.
2. Place the trash can in your desired location. Its slim, D-shaped design allows it to fit snugly against walls or cabinets.

Image: A diagram illustrating the dimensions of the simplehuman 45 Liter Butterfly Lid Kitchen Step Trash Can: 23.3 inches in length, 10.4 inches in width, and 26 inches in height.

### Inserting a Trash Liner

1. Lift the stainless steel liner rim to access the inner bucket.
2. Place a simplehuman code K custom fit liner (or a standard 11.9 gallon / 45 liter trash bag) into the inner bucket. Ensure the bag's top edge is neatly tucked under the liner rim.
3. Lower the stainless steel liner rim back into place. This secures the bag and hides any unsightly overhang.

Image: A hand inserting a custom fit trash liner into the simplehuman trash can, demonstrating how the liner is secured and hidden by the rim.

## OPERATION

---

### Using the Foot Pedal

- Gently press the strong steel foot pedal to open the butterfly lid.
- Release the pedal to allow the lid to close slowly and silently, thanks to the lid shox technology.

## strong steel pedal

Engineered to last over 150,000 steps — that's more than 20 steps a day for 20 years.

Image: A close-up view of the simplehuman trash can's durable steel foot pedal, designed for long-lasting use.

### Stay-Open Lid Feature

- For longer tasks, manually lift the lid to its fully open position. It will stay open until you gently push it down to close.

### COMPLETE THE TRASH SYSTEM

We use solid materials, meticulous engineering, and innovative design — all in the pursuit of making your trash can one of the most efficient tools in your home.

Image: The simplehuman trash can with its butterfly lid fully open and locked in the stay-open position, providing convenient access for longer tasks.

## MAINTENANCE

### Cleaning the Trash Can

- Wipe the exterior of the stainless steel can with a soft, damp cloth and a mild cleaner. The fingerprint-proof finish helps resist smudges.
- The removable inner bucket can be washed with soap and water for thorough cleaning. Ensure it is completely dry before reinserting.

### COMPLETE THE TRASH SYSTEM

#### Odorsorb Pod

Fits discreetly under the lid of your trash can. Natural plant oil-based formula targets and neutralizes trash odors effectively for 45 days.

Image: A close-up shot highlighting the fingerprint-proof finish of the simplehuman trash can, designed to keep the stainless steel surface clean and shiny.

### Changing the Trash Liner

1. Lift the stainless steel liner rim.
2. Utilize the 'bucket park' position by lifting the inner bucket a few inches and tilting it towards you, allowing it to rest in place. This makes removing the full bag easier.
3. Remove the full trash bag and dispose of it properly.
4. Insert a new simplehuman code K liner or compatible 11.9 gallon / 45 liter bag.
5. Return the inner bucket to its normal position and lower the liner rim to secure the new bag.

# custom fit liner

Designed to fit this can perfectly with no slipping, leaking or ripping.

Image: The simplehuman trash can with a custom fit liner installed, clearly showing the 'K' code indicating the specific liner size designed for this model.

## TROUBLESHOOTING

- Lid not closing silently:** Check for any obstructions around the lid mechanism or hinges. Ensure the lid shox technology is functioning correctly.
- Trash bag slipping:** Ensure you are using simplehuman code K custom fit liners or a compatible 11.9 gallon / 45 liter bag that is properly tucked under the liner rim.
- Can unstable:** Verify that the non-skid base is clean and free of debris, allowing the rubber pads to grip the floor effectively.

## SPECIFICATIONS
