# Orbis Green Polyethylene Storage Container NXO3215-7 User Manual

Instructions for Setup, Operation, and Maintenance

## 1. INTRODUCTION

---

This manual provides essential information for the proper use and maintenance of your Orbis Green Polyethylene Straight Wall Storage Container, model NXO3215-7. Please read these instructions carefully before using the product to ensure safe and efficient operation.

**Figure 1:** Orbis Green Polyethylene Straight Wall Storage Container. This image shows an overhead angled view of the green polyethylene container, highlighting its rectangular shape, solid walls, and reinforced edges designed for durability and stacking.

## 2. SETUP

---

1. **Unpacking:** Remove the container from its packaging. Inspect for any signs of damage during transit.
2. **Initial Cleaning:** Before first use, it is recommended to clean the container with a mild detergent and water, then rinse thoroughly and allow to air dry.
3. **Placement:** Place the container on a stable, level surface suitable for its intended load.

## 3. OPERATING INSTRUCTIONS

---

The Orbis storage container is designed for efficient material handling and storage. Follow these guidelines for optimal use:

- **Loading:** Distribute contents evenly within the container. Do not exceed the maximum load capacity of 40 lb (18.14 kg).
- **Stacking:** These containers feature straight walls and reinforced edges for secure stacking. Ensure

containers are properly aligned when stacking to prevent shifting and potential collapse. Do not stack beyond a safe height that could compromise stability.

- **Handling:** When moving loaded containers, use appropriate lifting techniques or equipment to prevent injury or damage to the container or its contents.
- **Environmental Conditions:** While polyethylene is durable, avoid prolonged exposure to extreme temperatures or direct sunlight if not designed for such conditions, as this may affect material integrity over time.

## 4. MAINTENANCE

---

Regular maintenance ensures the longevity and performance of your storage container:

- **Cleaning:** Clean the container periodically with mild soap and water. For stubborn dirt, a non-abrasive brush can be used. Rinse thoroughly and dry.
- **Inspection:** Regularly inspect the container for cracks, deep scratches, or other damage that could compromise its structural integrity. Discontinue use if significant damage is found.
- **Storage:** When not in use, store containers in a clean, dry area. They can be stacked to save space.

## 5. TROUBLESHOOTING

---

This section addresses common issues you might encounter:

- **Container Damage:** If the container shows signs of cracking or severe deformation, it may have been overloaded or subjected to excessive impact. Reduce load or replace the container.
- **Unstable Stacking:** Ensure containers are placed on a flat, stable surface and are perfectly aligned before stacking. Avoid stacking unevenly loaded containers.
- **Difficulty Cleaning:** For tough stains, a stronger, but still non-abrasive, cleaning solution designed for plastics may be used. Always test on an inconspicuous area first.

## 6. SPECIFICATIONS

---

Feature	Detail
Model Number	NXO3215-7
Brand	Orbis
Outside Length	32 inches (81.28 cm)
Outside Width	15 inches (38.1 cm)
Outside Height	7.5 inches (19.05 cm)
Inside Length	29-2/3 inches (75.3 cm)
Inside Width	13-1/4 inches (33.66 cm)
Inside Height	6-21/32 inches (16.9 cm)
Volume Capacity	1.50 cubic feet (42.48 liters)

Feature	Detail
Load Capacity	40 lb (18.14 kg)
Color	Green
Material	Polyethylene (PE)
Storage Container Style	Solid Walls, Solid Bottom
Country of Origin	United States

## 7. WARRANTY AND SUPPORT

---

For warranty information or technical support, please refer to the official Orbis website or contact their customer service directly. Specific warranty details are not provided in this manual.

You can typically find support information on the manufacturer's official website: [www.orbiscorporation.com](http://www.orbiscorporation.com)
