Monster MH INS OE SLV NC CUA

Monster Inspiration Active Noise-Canceling Over-Ear Headphones User Manual

Model: MH INS OE SLV NC CUA

PRODUCT OVERVIEW

The Monster Inspiration Active Noise-Canceling Over-Ear Headphones are designed to provide an immersive audio experience by significantly reducing ambient noise. Featuring comfortable earcups and a durable design, these headphones are suitable for extended listening sessions. They offer versatile connectivity with various devices through included cables and allow for personalization with interchangeable headbands.

Key Features:

- **Active Noise-Canceling:** Reduces external noise for focused listening.
- **Comfortable Design:** Super-comfortable earcups for all-day wear.
- **Interchangeable Headbands:** Personalize your headphones with different headband styles (additional headbands sold separately).
- **ControlTalk Cables:** Includes cables for controlling music and phone calls on Apple devices (iPad, iPhone, iPod) and a ControlTalk Universal cable for Androids, tablets, and other devices.
- **Wired Connectivity:** Standard 3.5mm jack for reliable audio connection.
- **Skype Compatibility:** Fully compatible with Skype for communication.

WHAT'S IN THE BOX

- Monster Inspiration High-Performance Over-Ear Headphones
- Three Monster Headphone Cables with In-Line Controls (for various smartphones and music devices)
- Two Inspiration Headbands (color and styles may vary)
- Protective Travel Case
- Anti-Microbial Cleaning Cloth
- Two AAA Batteries

SETUP

1. Inserting Batteries:

The active noise-canceling feature requires two AAA batteries. Locate the battery compartment, typically on one of the earcups. Insert the batteries according to the polarity indicators (+/-) inside the compartment. Close the compartment securely.

2. Attaching the Cable:

Select the appropriate cable for your device (ControlTalk for Apple, ControlTalk Universal for Android/other, or straight mini-to-mini). Insert the smaller end of the cable into the audio input jack on the headphone earcup. Connect the other end of the cable to your audio source (smartphone, tablet, MP3 player, etc.).

Image: Side view of the Monster Inspiration headphones, highlighting the audio input jack on the earcup where the cable connects.

3. Adjusting Fit:

Extend or retract the headband to ensure the earcups comfortably cover your ears. The earcups are designed to provide a snug fit for optimal sound isolation and comfort.

OPERATING INSTRUCTIONS

1. Powering On/Off Noise-Canceling:

Locate the power switch for the active noise-canceling feature, usually on one of the earcups. Slide the switch to the "On" position to activate noise-canceling. Slide it to "Off" when not needed to conserve battery life. A small indicator light may illuminate when noise-canceling is active.

2. Using ControlTalk Cables:

- **Music Playback:** Use the center button on the in-line remote to play/pause music. Double-press to skip forward, triple-press to skip backward.
- **Volume Control:** Use the '+' and '-' buttons on the in-line remote to adjust volume.
- **Call Management:** Press the center button to answer or end a call. Press and hold to decline an incoming call.
- **Microphone:** The integrated microphone allows for hands-free calls and voice commands.

Note: Functionality of ControlTalk features may vary depending on your specific device model and operating system.

3. Changing Headbands:

The Monster Inspiration headphones feature interchangeable headbands. To change a headband, gently slide the existing headband off the headphone frame. Align the new headband with the grooves on the frame and slide it into place until it clicks securely.

MAINTENANCE

Cleaning:

Use the provided anti-microbial cleaning cloth to wipe down the earcups and headband. For general cleaning, use a soft, dry, lint-free cloth. Avoid using harsh chemicals, solvents, or abrasive cleaners, as these can damage the headphone's finish and materials.

Storage:

When not in use, store the headphones in their protective travel case to prevent dust accumulation and physical damage. Avoid exposing the headphones to extreme temperatures, humidity, or direct sunlight for prolonged periods.

Battery Replacement:

Replace the AAA batteries when the noise-canceling performance diminishes or the indicator light no longer illuminates. Always use fresh, high-quality AAA batteries.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound or low volume	Cable not fully connected. Audio source volume too low. Incorrect cable selected.	Ensure cable is securely plugged into both headphones and audio source. Increase volume on your audio device. Verify you are using the correct ControlTalk cable for your device.
Noise-canceling not working	Batteries are dead or low. Noise-canceling switch is off.	Replace AAA batteries. Ensure the noise-canceling switch is in the "On" position.
ControlTalk functions not responding	Incompatibility with device. Cable not fully connected.	Check device compatibility (e.g., specific iPod/iPhone generations). Ensure the cable is securely connected.

SPECIFICATIONS

Feature	Detail
