NESTLÉ MILO Chocolate Malt Beverage Mix Instruction Manual

Model: 9K-KUYK-BVR1-CA

1. INTRODUCTION

NESTLÉ MILO is a globally recognized chocolate malt beverage. This product is a 3.3-pound (1.5kg) can of fortified powder energy drink. It is designed to provide essential vitamins and minerals, including calcium for strong bones and B vitamins for energy release, making it a suitable part of a balanced breakfast. MILO is rich in carbohydrates and contains Activ-Go, a unique malt extract that supports energy release, muscle function, and bone maintenance for physical activity.

2. SETUP AND PREPARATION

Preparing your MILO beverage is simple and can be done with either hot or cold milk, depending on your preference.

2.1 Recommended Preparation

- Add 3 teaspoons of MILO powder to a glass of hot or cold skim milk.
- Stir well until the powder is fully dissolved.
- Enjoy your delicious energy drink as part of a balanced breakfast.

Chocolate Malt Beverage Mix

8 Essential Vitamins and Minerals

Image: A hot cup of MILO and a cold glass of MILO, illustrating both preparation methods.

3. OPERATING INSTRUCTIONS

MILO can be enjoyed in various ways beyond the standard preparation. Its versatility allows for different consumption experiences.

3.1 Consumption Methods

1. **Mixed Beverage:** As described in the Setup section, mix 3 teaspoons of MILO with 4-8 oz of hot or cold milk. Stir thoroughly until dissolved. This is the most common way to enjoy MILO.
2. **Thicker Consistency:** For a richer, more chocolatey experience, add more MILO powder to less milk. Stir vigorously to achieve a thicker, more concentrated beverage. Some prefer to eat the undissolved bits floating on top.
3. **Dry Consumption:** MILO powder can also be consumed directly from the can using a spoon for a quick, intense chocolate malt flavor. This method provides a crunchy texture.

Part of a Balanced Breakfast

4. INGREDIENTS AND NUTRITIONAL INFORMATION

MILO is formulated with a blend of ingredients to provide both taste and nutritional benefits.

4.1 Ingredients List

Barley Malt Extract, Non Fat Milk, Sugar, Cocoa Processed With Alkali, Palm Oil, Calcium Phosphate, Sodium Phosphate, Ascorbic Acid, Ferric Pyrophosphate (Iron), Artificial Flavor, Pyridoxine Hydrochloride (Vitamin B6), Riboflavin, Niacinamide, Vitamin D3 and Vitamin B12.

4.2 Nutritional Benefits

MILO is a good source of essential vitamins and minerals:

- Iron
- Vitamin D
- Vitamin C
- Vitamins B2, B3, and B6

- Calcium (one glass made with skim milk provides 50% of daily calcium)

A Good Source for:

✓ Calcium

✓ Iron

✓ Vitamin D

✓ Vitamins B2
and B3

✓ Vitamin C

5. STORAGE AND MAINTENANCE

To maintain the freshness and quality of your NESTLÉ MILO Chocolate Malt Beverage Mix, proper storage is essential.

- Store the can in a cool, dry place away from direct sunlight and moisture.
- Ensure the lid is tightly sealed after each use to prevent air and moisture from entering, which can cause the powder to clump or lose flavor.
- Avoid storing near strong-smelling foods, as the powder can absorb odors.
- Consume by the "Best By" date printed on the packaging for optimal taste and quality.

6. TROUBLESHOOTING

If you encounter any issues while preparing or consuming your MILO, consider the following common solutions:

- **Powder Not Dissolving:** Ensure you are using milk that is at least lukewarm if you prefer a hot drink, or stir more

vigorously if using cold milk. Using a whisk or a fork can help break up clumps more effectively than a spoon.

- **Taste is Too Weak/Strong:** Adjust the amount of MILO powder to your personal preference. For a stronger flavor, add more powder; for a milder taste, use less.
- **Clumping in Can:** This usually indicates moisture has entered the can. Always ensure the lid is sealed tightly after use and store in a dry environment. If clumping occurs, the product is still safe to consume, but you may need to break up the clumps before mixing.

7. SPECIFICATIONS

Attribute	Detail
Brand	Milo
Item Form	Powder
Item Weight	3.3 Pounds (1.5 kg)
Units	52.8 Ounce
Package Information	Can
Package Dimensions	6.77 x 6.22 x 6.18 inches
Model Number	9K-KUYK-BVR1-CA
UPC	028000180737, 028000370800
Manufacturer	Nestle
Country of Origin	Singapore
Allergen Information	Milk, Barley

7.1 in
18 cm

Up to 53 Servings
