SETUP

Follow these steps to set up your French Easel:

1. **Unfolding the Easel:** Carefully unlatch the clasps on the easel box. Gently unfold the legs outwards until they are fully extended.
2. **Adjusting Leg Height:** Each leg features adjustable sections. Loosen the wing nuts on each leg section, extend the leg to your desired height (between 48 to 69 inches), and then securely tighten the wing nuts to lock the legs in place. Ensure all three legs are adjusted evenly for stability.
3. **Setting the Canvas Holder:** The canvas holder can be adjusted for height and angle. Loosen the knobs on the vertical support to slide the canvas holder up or down. Securely tighten the knobs once the desired height is achieved. The top canvas clamp can also be adjusted to hold canvases of various sizes.
4. **Tabletop Use:** For tabletop use, fold the legs completely and place the easel on a flat, stable surface.

FULLY ADJUSTABLE

Each leg can adjust to suit your height while the easel holder can support canvases large and small

OPERATING INSTRUCTIONS

Once the easel is set up, you can begin using it for your artistic endeavors:

- **Placing a Canvas:** Position your canvas or art board on the lower canvas holder. Adjust the top canvas clamp to securely hold the canvas in place. Ensure the canvas is stable before beginning to paint.
- **Using the Storage Drawer:** The easel features an integrated storage drawer for your art supplies. Unlatch the front clasp and pull out the drawer to access compartments for paints, brushes, and other small tools. Close and latch the drawer when not in use to secure contents.
- **Adjusting Angle:** The angle of the easel can be adjusted by manipulating the rear support leg and the canvas holder's position. Experiment to find the most comfortable and effective angle for your painting style.

MAINTENANCE

Proper care will extend the life of your easel:

- **Cleaning:** Wipe down wooden surfaces with a dry or slightly damp cloth after each use to remove paint residue or dust. Avoid harsh chemicals that may damage the wood finish.
- **Hardware Care:** Periodically check all metal fittings and screws for tightness. Tighten any loose components to maintain stability.
- **Storage:** When not in use, fold the easel into its compact form and store it in a dry environment. Avoid prolonged exposure to extreme humidity or direct sunlight, which can affect the wood.

NATURAL MATERIALS

Built with a durable pine wood body for reliable support

Figure 5: Easel construction details.

TROUBLESHOOTING

If you encounter any issues, refer to the following common solutions:

- **Stiff Joints:** If the wooden joints or adjustable parts become stiff, apply a small amount of wood lubricant or wax to the moving components.
- **Loose Components:** Regularly inspect and tighten all wing nuts and screws to prevent wobbling or instability during use.
- **Difficulty Adjusting Legs:** Ensure that the wing nuts are sufficiently loosened before attempting to extend or retract the legs. Do not force the wooden parts.

SPECIFICATIONS

Feature	Detail
Color	Natural
Product Dimensions (Open)	34"(L) x 30.25"(W) x 48-69"(H)
