Wrebbit 3D Puzzle W3D-2001

Wrebbit3D Taj Mahal 3D Puzzle Instruction Manual

Model: W3D-2001

INTRODUCTION

The Wrebbit3D Taj Mahal 3D Puzzle allows you to construct a detailed replica of the iconic Indian landmark. This 950-piece jigsaw puzzle provides an engaging experience, recreating the architectural masterpiece in three dimensions. It is designed for adult puzzlers to enjoy the process of building this historical monument.

SAFETY INFORMATION

- **Choking Hazard:** This product contains small parts and is not suitable for children under 3 years of age. Keep all puzzle pieces away from young children.
- Ensure a clean and organized workspace to prevent loss of small pieces.

WHAT'S IN THE BOX

Your Wrebbit3D Taj Mahal 3D Puzzle package includes:

- 950 premium quality foam-backed puzzle pieces.
- One comprehensive instruction guide.

SETUP

1. **Prepare Your Workspace:** Choose a large, flat, and stable surface for assembly. Ensure adequate lighting.
2. **Unpack Components:** Carefully open the box and remove all puzzle sheets and the instruction guide.
3. **Separate Pieces:** Before beginning assembly, it is crucial to separate all the actual puzzle pieces from the "scrap" foam pieces. Some pieces may have red dots or be part of the cutting waste. Carefully punch out and discard these scrap pieces. Be meticulous to avoid accidentally discarding actual puzzle pieces.
4. **Sort Pieces:** Organize the pieces by color, pattern, or structural section (e.g., base, walls, dome, towers). This will significantly aid in the assembly process.

OPERATING INSTRUCTIONS (ASSEMBLY)

Follow the detailed steps in the included instruction guide for optimal assembly. The guide provides a printed plan showing each individual puzzle piece's position and how the model pieces fit together.

1. **Consult the Instruction Guide:** Refer to the provided manual for step-by-step assembly instructions and diagrams.
2. **Assemble Flat Sections First:** Typically, the puzzle is assembled in two main stages. Begin by constructing the flat sections of the model (e.g., base, wall panels) as indicated in the instructions. Borders are often delineated by square-wave notches for dovetailing edges or straight lines.
3. **Form 3D Structures:** Once flat sections are complete, connect them to create the three-dimensional structure. Wrebbit3D puzzles are engineered for precise fits; if a piece seems difficult to fit, verify its orientation and placement against the plan. Do not force pieces, as this can damage them.
4. **Dome Assembly:** The dome pieces are designed to curve. They will lock cleanly when the surface curves appropriately. Gently shape these pieces as you connect them.
5. **Tower Assembly:** The four corner towers require careful attention to detail. Use the printed plan as a reference to

ensure correct piece placement and orientation.

MAINTENANCE

- **Cleaning:** Dust the assembled puzzle gently with a soft, dry cloth. Avoid using liquids or abrasive cleaners.
- **Storage:** If disassembling for storage, do so carefully to avoid damaging the foam pieces. Store pieces in the original box or a secure container to prevent loss. Keep away from extreme temperatures and humidity.
- **Handling:** Handle the assembled model with care, especially delicate parts like the turrets and minarets, to prevent breakage.

TROUBLESHOOTING

- **Missing Pieces:** If you discover a missing piece, first re-check your workspace and the discarded scrap pieces. Sometimes, actual pieces can be mistaken for scrap. If a piece is genuinely missing, contact Wrebbit3D customer support for assistance.
- **Pieces Not Fitting:** If pieces do not fit smoothly, do not force them. Re-examine the instruction guide and diagrams to ensure the correct pieces are being used and are oriented properly. Wrebbit3D puzzles are designed for a unique fit.
- **Damaged Pieces:** In rare cases, pieces may arrive damaged. If a piece is bent or torn, contact customer support for a replacement.

SPECIFICATIONS

Brand	Wrebbit 3D Puzzle
Model Number	W3D-2001 (Manufacturer Part Number: TAJ)
Number of Pieces	950
Assembled Dimensions (L x W x H)	16.75 x 17 x 12.75 inches
Item Weight	1.7 Pounds
Material Type	Polyethylene (PE)
Recommended Age	Adult (14 years and up)
Educational Objective	Spatial Awareness
Skill Level	All
