

Lotus ATS-1000 Elongated

Lotus Smart Bidet ATS-1000 User Manual

Model: ATS-1000 (Elongated)

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before installation and use. Retain this manual for future reference.

- Ensure the bidet is connected to a 120V GFCI (Ground Fault Circuit Interrupter) outlet to prevent electrical shock.
- Do not immerse the unit, power cord, or plug in water or other liquids.
- Unplug the bidet from the electrical outlet before cleaning or performing any maintenance.
- Do not allow children or individuals with reduced physical, sensory, or mental capabilities to operate the bidet without supervision.
- Avoid using abrasive cleaners, solvents, or harsh chemicals on the bidet surface, as they may damage the material.
- Do not attempt to repair or disassemble the bidet yourself. Contact qualified service personnel for assistance.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Lotus Smart Bidet Seat (ATS-1000 Elongated)
- Wireless Remote Control
- Remote Control Wall Mount and Screws
- T-Valve Connector
- Water Supply Hose
- Mounting Plate and Bolts

SETUP AND INSTALLATION

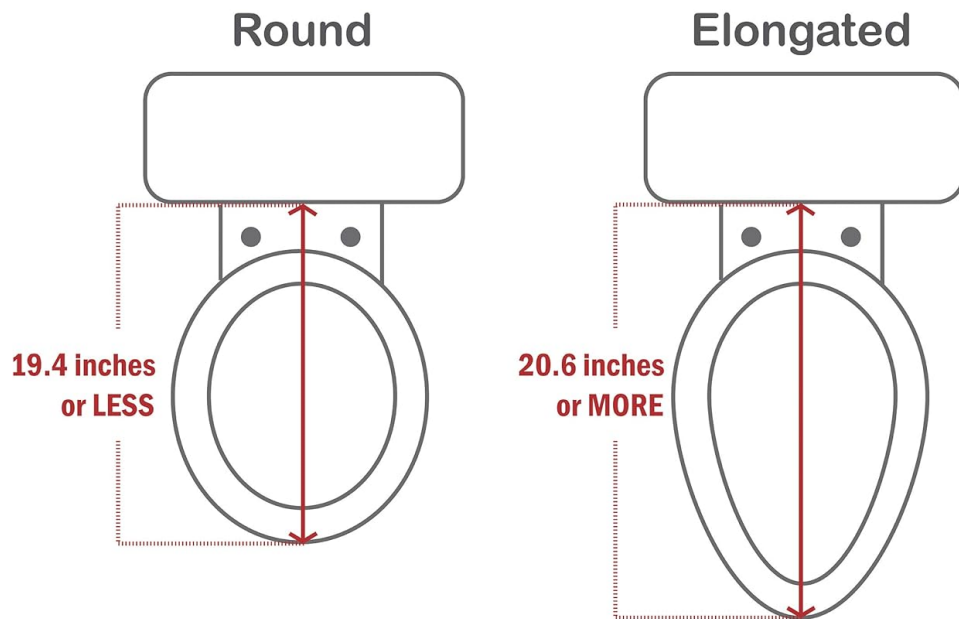

Before You Begin

- Ensure you have a standard 120V GFCI electrical outlet within reach of the bidet's power cord.
- Confirm your toilet is an elongated type. The ATS-1000 Elongated model is designed for elongated toilet bowls.
- Turn off the water supply to your toilet at the shut-off valve. Flush the toilet to drain the tank.

Installation Steps

1. Remove your existing toilet seat and lid.
2. Install the mounting plate onto the toilet bowl using the provided bolts. Adjust for proper alignment.
3. Attach the T-valve connector to the toilet's fill valve, then connect the water supply hose from the T-valve to the bidet unit.
4. Slide the Lotus Smart Bidet seat onto the mounting plate until it clicks securely into place.
5. Connect the bidet's power cord to the GFCI electrical outlet.
6. Slowly turn on the water supply to the toilet and check for any leaks.

EASY DIY INSTALLATION

All Installation Parts Included

This diagram illustrates the difference in dimensions between round and elongated toilet seats, ensuring proper fit for DIY installation. All necessary installation parts are included.

OPERATING INSTRUCTIONS

Overview of Controls

The Lotus Smart Bidet ATS-1000 is operated primarily via its wireless remote control, offering convenient access to all functions.

The Lotus Smart Bidet ATS-1000, shown with its intuitive wireless remote control for easy operation of all features.

Core Functions

- **PureStream Function:** Provides a therapeutic jet stream designed for deep cleansing and effective constipation relief.
- **Rear Wash:** Standard posterior cleansing with adjustable water pressure and temperature.
- **Feminine Wash:** Gentle anterior cleansing with adjustable water pressure and temperature.
- **Warm Air Dryer:** After washing, a warm air stream provides a comfortable drying experience. Air temperature is adjustable.
- **Heated Seat:** The seat temperature is adjustable to provide comfort, especially in colder environments.
- **Water Temperature Control:** Adjust the water temperature for washing to your preferred comfort level.
- **Water Pressure Adjustment:** Control the intensity of the water spray for both rear and feminine

washes.

- **Nozzle Position Adjustment:** Fine-tune the nozzle's position for optimal cleansing.
- **Energy Save Mode:** Activates a power-saving mode to reduce electricity consumption when not in use.

An overview of the Lotus Smart Bidet's key features, including Purestream, various wash modes, drying, and energy-saving capabilities, with their respective adjustable levels.

PATENTED PURESTREAM® AND SELF CLEANSING NOZZLE

PATENTED PURESTREAM® TECHNOLOGY

This image demonstrates the patented Purestream Technology, which delivers a therapeutic jet stream for deep cleansing and effective constipation relief.

MAINTENANCE

Cleaning the Nozzle

The bidet features a self-cleansing nozzle. For additional cleaning, gently pull the nozzle forward and wipe it with a soft cloth and mild, non-abrasive cleaner. Do not use harsh chemicals.

General Cleaning

Wipe the exterior of the bidet seat with a soft, damp cloth and a mild household cleaner. Avoid spraying water directly onto the control panel or electrical components. Ensure the bidet is unplugged before cleaning.

Filter Maintenance

Periodically check and clean the water inlet filter located at the connection point of the water supply hose. Turn off the water supply and unplug the unit before removing and cleaning the filter screen under running water. Reinstall securely.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power / Unit not turning on	Power cord unplugged, GFCI tripped, no power to outlet.	Ensure power cord is securely plugged into a 120V GFCI outlet. Reset the GFCI if tripped. Check the circuit breaker.
No water spray / Weak spray	Water supply valve closed, water inlet filter clogged, low water pressure.	Open the toilet's water supply valve fully. Clean the water inlet filter. Check household water pressure.
Water temperature not adjusting	Temperature setting incorrect, internal heating element issue.	Adjust water temperature settings using the remote control. If issue persists, contact customer support.
Heated seat not working	Seat heating function off, temperature setting too low.	Ensure the heated seat function is activated and set to a desired temperature via the remote control.
Remote control not responding	Batteries low or dead, remote out of range, interference.	Replace remote control batteries. Ensure remote is within operating range of the bidet. Remove any obstructions.

SPECIFICATIONS

Feature	Detail
