## Superlux HD572

# Superlux HD572 Dynamic Stereo Headphones User Manual

Model: HD572

### INTRODUCTION

Thank you for choosing the Superlux HD572 Dynamic Stereo Headphones. These headphones are designed to provide clear and balanced audio for both monitoring and general entertainment purposes. Featuring a closed-back design, they offer effective sound isolation, and their lightweight construction ensures comfort during extended use. This manual provides essential information for the proper setup, operation, and maintenance of your HD572 headphones.

### PACKAGE CONTENTS

Please check that all items listed below are included in your package:

- Superlux HD572 Dynamic Stereo Headphones
- User Manual (this document)

## SETUP

1. **Connect the Audio Cable:** Insert the 3.5mm stereo jack of the headphone cable firmly into the audio output port of your device (e.g., computer, smartphone, tablet, or car audio system).

Image: A detailed view of the 3.5mm audio jack for connecting the headphones.

2. **Adjust the Headband:** Place the headphones on your head. Adjust the sliding mechanism on both sides of the headband until the earcups comfortably cover your ears without excessive pressure.

## OPERATING INSTRUCTIONS

Once connected and adjusted, your Superlux HD572 headphones are ready for use.

- **Volume Control:** Adjust the audio volume directly from your connected source device (e.g., computer, smartphone, audio mixer). The HD572 headphones do not feature inline volume controls.
- **Comfort:** For optimal listening experience and comfort, ensure the earcups fully enclose your ears. The soft leatherette ear cushions are designed for extended wear.

## CARE AND MAINTENANCE

Proper care will extend the lifespan of your headphones.

- **Cleaning:** Gently wipe the earcups, headband, and cable with a soft, dry, lint-free cloth. Do not use liquid cleaners, solvents, or abrasive materials.
- **Storage:** When not in use, store the headphones in a clean, dry place, away from direct sunlight, extreme temperatures, and high humidity. Avoid tangling the cable.
- **Handling:** Avoid dropping the headphones or subjecting them to strong impacts. Do not pull on the cable to disconnect it; always grasp the plug.

---

## TROUBLESHOOTING

If you encounter issues with your headphones, please refer to the following common problems and solutions:

Problem	Solution
No sound from headphones	<p>Ensure the 3.5mm jack is fully inserted into both the headphones and the audio source.</p> <p>Check the volume level on your audio device and ensure it is not muted.</p> <p>Test the headphones with another audio source to rule out device issues.</p> <p>Inspect the cable for any visible damage.</p>
Poor sound quality (e.g., distorted, crackling)	<p>Ensure the audio cable connection is secure.</p> <p>Try a different audio source or audio file to determine if the issue is with the source material.</p> <p>Check for any interference from other electronic devices.</p> <p>Reduce the volume on your audio device if distortion occurs at high levels.</p>
Headphones are uncomfortable	<p>Adjust the headband length to ensure a proper fit.</p> <p>Ensure the earcups are positioned correctly over your ears.</p>
