OPERATING INSTRUCTIONS

- **Child Placement:** Carefully place the child into the seat. Ensure they are seated comfortably and correctly.
- **Fasten Seat Belt:** Always fasten the adjustable seat belt securely around the child. Check that it is snug but not too tight.
- **Pushing the Car:** Use the rear push handle to guide the car. The "whisper ride" wheels are designed for smooth and quiet movement on various surfaces.
- **Turning:** To make turns, apply gentle downward pressure on the push handle to slightly lift the front wheels. This allows for easier steering and maneuvering.
- **Interactive Features:** The steering wheel is functional, and the car includes a working horn for interactive play.

- **Folding Handle:** For transport or compact storage, the push handle can be folded down underneath the car body.

MAINTENANCE AND CARE

- **Cleaning:** To clean the car, simply wipe surfaces with a disinfectant wipe or a mild household cleaner and a damp cloth. Avoid abrasive cleaners.
- **Inspection:** Regularly inspect all parts for wear, damage, or loose fasteners. Pay close attention to the wheels, axles, seat belt, and handle connections.
- **Storage:** Store the car in a cool, dry place away from direct sunlight when not in use to prolong its lifespan and maintain color integrity. The handle can be folded for more compact storage.
- **Durability:** The car is constructed from durable, double-walled plastic designed to resist chipping, fading, cracking, and peeling, ensuring years of use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Wheels are wobbly or come off.	Wheel caps not fully seated or damaged.	Ensure wheel caps are securely pushed onto the axles. Use a rubber mallet if necessary. If damaged, contact customer support for replacement parts.
Difficulty turning the car.	Wheels are fixed and not designed to pivot like a stroller.	Apply gentle downward pressure on the push handle to slightly lift the front wheels, then pivot the car in the desired direction.
Push handle feels loose.	Mounting hardware for the handle is not tightened.	Check and tighten all bolts and nuts securing the push handle to the car body.
Horn not working.	Possible internal mechanism issue or obstruction.	Ensure no debris is obstructing the horn mechanism. If the issue persists, contact customer support.
