

Kwikset 95530-019

Kwikset Montara Front Door Lock Handleset with SmartKey Security User Manual

Model: 95530-019 | Brand: Kwikset

1. INTRODUCTION AND OVERVIEW

The Kwikset Montara Front Door Lock Handleset with SmartKey Security is designed to provide enhanced security and a stylish appearance for your exterior doors. This handleset features a 2-point locking system, combining a deadbolt and a handle, for robust protection. The SmartKey Security technology offers advanced protection against common break-in techniques and allows for easy re-keying.

This manual provides comprehensive instructions for the proper installation, operation, and maintenance of your Kwikset Montara handleset. Please read all instructions carefully before beginning installation or use.

2. PACKAGE CONTENTS

Verify that all components listed below are included in your package:

- Exterior Handleset and Keyed Deadbolt
- Interior Door Knob
- Interior Deadbolt Turn Piece
- Adjustable Latch and Bolt
- 2 Keys
- Installation Hardware (screws, strike plates)
- Installation Guide

What's in the box

3. PRODUCT FEATURES

- **Handleset with Deadbolt:** Designed for exterior front doors with two bore holes, featuring an interior knob and a locking deadbolt turn piece. Key operated from the outside.
- **SmartKey Security:** Kwikset's patented SmartKey Security technology provides advanced protection against common break-in methods such as picking and bumping. It also allows you to re-key your lock in seconds.
- **Easy Installation:** Can be installed in minutes with a screwdriver. If the door lacks a bottom handleset support hole, drilling may be required, with directions provided.
- **Standard Door Fit:** Compatible with standard door thicknesses ranging from 1-3/8" to 1-3/4". Features an adjustable latch backset from 2-3/8" to 2-3/4" for flexible installation.
- **Certified Quality:** Security, durability, and finish are Grade 1 BHMA certified, ensuring high levels of security and resilience for frequent use.
- **Material:** Constructed from durable bronze with a Venetian Bronze finish.

4. SETUP AND INSTALLATION

Installation of the Kwikset Montara handleset is designed to be straightforward. A screwdriver is typically the only tool required for most installations. If your door does not have a pre-drilled bottom hole for the handleset support, a drill will be necessary. Refer to the included Installation Guide for detailed, step-by-step instructions and drilling templates if needed.

4.1 Door Preparation

- Ensure your door has two bore holes for the deadbolt and the handleset.
- Verify door thickness is between 1-3/8" and 1-3/4".
- Adjust the latch backset to either 2-3/8" or 2-3/4" by twisting the latch mechanism as indicated in the Installation Guide.

Fits standard doors

Figure 4.1: The handleset is designed to fit standard door thicknesses.

4.2 Handleset Assembly

Follow the visual instructions in the provided Installation Guide to assemble the exterior handleset, interior knob, and deadbolt components. Ensure all screws are tightened securely but do not overtighten.

Exterior Interior

Keyed on one side

Figure 4.2: The handleset is keyed for exterior access, with a turn piece on the interior.

5. OPERATION

5.1 Locking and Unlocking

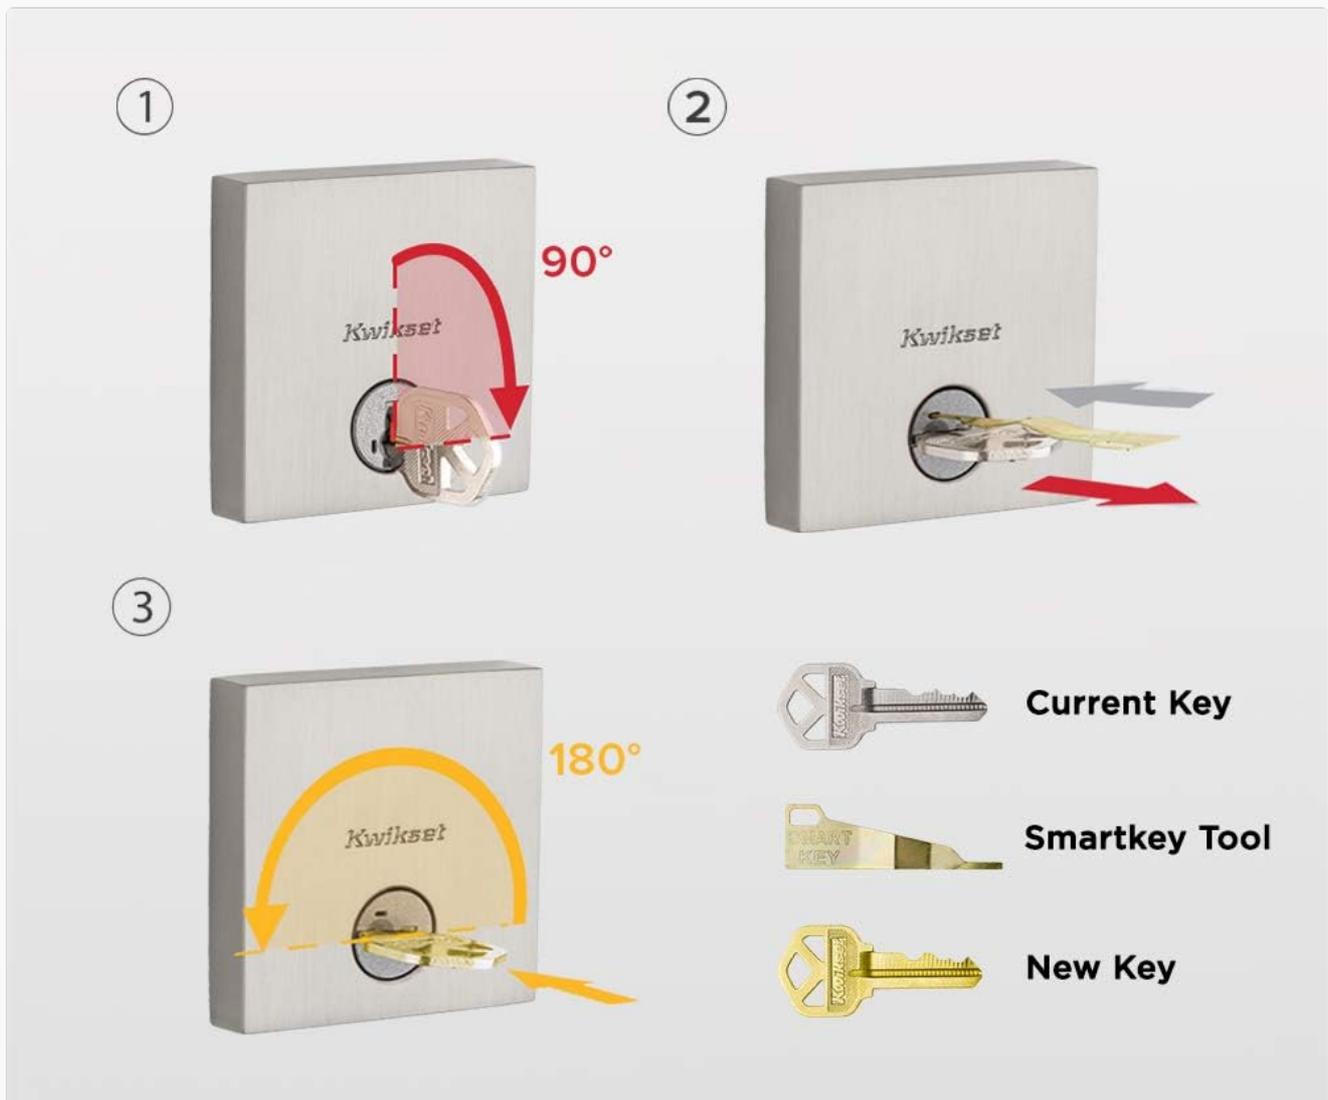

- **From the Exterior:** Insert the key into the deadbolt cylinder and turn to lock or unlock. The handleset latch is operated by the thumb press.
- **From the Interior:** Use the turn piece on the deadbolt to lock or unlock. The interior knob operates the handleset latch.

5.2 SmartKey Re-keying

The SmartKey Re-key Technology allows you to re-key your lock to a new key in three simple steps, providing control over who has access to your home. This is useful if you move, lose a key, or wish to use a single key for multiple Kwikset SmartKey locks.

1. Insert your **current key** and turn it 90 degrees clockwise.
2. Insert the **SmartKey tool** fully and firmly into the SmartKey hole. Remove the SmartKey tool.

3. Remove the current key. Insert your **new key** and turn it 180 degrees counter-clockwise. Your lock is now re-keyed.

Re-key in 3 easy steps

Figure 5.1: Follow these three steps to re-key your SmartKey lock.

6. MAINTENANCE

To ensure the longevity and smooth operation of your Kwikset Montara handleset, follow these maintenance guidelines:

- **Cleaning:** Clean the handleset regularly with a soft, damp cloth. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- **Lubrication:** Periodically apply a silicone-based lubricant to the internal mechanisms of the lock and deadbolt to maintain smooth operation. Do not use oil-based lubricants.
- **Inspection:** Routinely check all screws and components for tightness. Re-tighten any loose screws to prevent wear and ensure security.

7. TROUBLESHOOTING

If you encounter issues with your Kwikset Montara handleset, refer to the following common troubleshooting tips:

- **Difficulty Turning Key:** Ensure the key is fully inserted. Apply a silicone-based lubricant to the keyway. Check for any obstructions in the deadbolt or latch mechanism.
- **Latch Not Retracting:** Verify that the latch is correctly aligned with the strike plate on the door frame. Check for any debris obstructing the latch mechanism.
- **Handleset Feels Loose:** Tighten all mounting screws. Ensure the adjustable through bolt at the bottom of the handleset is secure.
- **SmartKey Re-keying Failure:** Ensure the current key is fully inserted and turned exactly 90 degrees. The SmartKey tool must be inserted firmly and completely. If issues persist, consult the detailed re-keying instructions or Kwikset customer support.

8. SPECIFICATIONS

Specification	Detail
Model Number	95530-019
Material	Bronze
Color	Venetian Bronze
Product Dimensions	8"L x 5.5"W
Item Weight	5.15 pounds
Door Thickness Compatibility	1-3/8" to 1-3/4"
Latch Backset	Adjustable 2-3/8" or 2-3/4"
