Wenko 4478010100 Right Angle Hooks User Manual

Model: 4478010100

1. INTRODUCTION

Thank you for choosing the Wenko 4478010100 Right Angle Hooks. This set of four rust-free stainless steel adhesive hooks is designed for versatile use in various areas of your home, including bathrooms and kitchens. Their self-adhesive backing allows for easy installation without the need for drilling.

2. SAFETY INFORMATION

- Ensure the installation surface is clean, dry, and smooth for optimal adhesion.
- Do not exceed the maximum weight recommendation of 37 pounds (approximately 16.7 kg) per hook.
- Avoid installing hooks on delicate or easily damaged surfaces, as removal may cause damage.
- Keep out of reach of children to prevent accidental ingestion of small parts or injury.

3. SETUP AND INSTALLATION

Follow these steps for proper installation of your Wenko Right Angle Hooks:

1. **Prepare the Surface:** Select a smooth, clean, and dry surface for installation. Thoroughly clean the area with a suitable cleaner and ensure it is completely dry before proceeding.
2. **Remove Protective Film:** Carefully peel off the protective film from the adhesive backing of the hook.
3. **Position and Press:** Position the hook firmly against the desired surface. Apply strong, even pressure for at least 30 seconds to ensure a secure bond.
4. **Allow Adhesion Time:** For best results, allow the adhesive to cure for 24 hours before hanging any items on the hook. This ensures maximum holding strength.

4. OPERATING INSTRUCTIONS

Once installed and the adhesive has cured, the Wenko Right Angle Hooks are ready for use. Simply hang items such as towels, robes, kitchen utensils, or other lightweight objects on the hook. Ensure the weight of the item does not exceed the maximum recommended load.

5. MAINTENANCE

To maintain the appearance and functionality of your stainless steel hooks:

- Clean regularly with a soft, damp cloth.
- For stubborn marks, use a mild stainless steel cleaner and wipe dry immediately.
- Avoid abrasive cleaners or scouring pads, as these can scratch the matt finish.

6. TROUBLESHOOTING

Hook is not adhering properly:

- Ensure the surface was thoroughly cleaned and dried before application. Grease, dust, or moisture will prevent proper adhesion.
- Verify the surface is smooth and non-porous. Adhesive hooks may not work effectively on textured or porous surfaces.
- Confirm sufficient pressure was applied during installation and the recommended curing time (24 hours) was observed before use.
- If the adhesive is compromised, the hook may need to be replaced.

Hook falls off after some time:

- Check if the weight of the hung item exceeds the maximum weight recommendation of 37 pounds.
- Environmental factors like high humidity or extreme temperature changes can affect adhesive performance over time.

7. SPECIFICATIONS

Model Number:	4478010100
Brand:	WENKO
Material:	Stainless Steel
Finish Type:	Stainless Steel (Matt)
Mounting Type:	Wall Mount (Self-Adhesive)
Special Feature:	Rust Resistant
Number of Hooks:	4 per set
Maximum Weight Recommendation:	37 Pounds (approx. 16.7 kg)
Item Dimensions (L x W x H):	0.59 x 0.75 x 1.34 inches (1.5 x 1.9 x 3.4 cm)
Item Weight:	0.705 ounces (20 grams)
