Lavazza 8000070104600

Lavazza Espresso Point Crema E Aroma Espresso Capsules Instruction Manual

Model: 8000070104600

1. Product Overview

The Lavazza Espresso Point Crema E Aroma Espresso Capsules provide a convenient way to enjoy authentic Italian espresso. Each capsule contains a blend of Arabica varieties from Central and South America and African Robusta coffee, delivering an intense medium roast with a strong body and long-lasting flavor. These capsules are specifically designed for use with Lavazza Espresso Point machines.
Key features include:

- Pack of 100 single-serve cartridges.
- Intense medium roast with a strong body and long-lasting flavor.
- Optimized grinding degree for preparing a long espresso.
- Blended and roasted in Italy.
- Exclusively compatible with Lavazza Espresso Point machines.

2. Setup

Before using your Lavazza Espresso Point Crema E Aroma Espresso Capsules, ensure your Lavazza Espresso Point machine is correctly prepared and ready for operation. Refer to your machine's specific instruction manual for initial setup procedures, including filling the water reservoir and powering on the device.

2.1. Preparing the Machine

1. Ensure your Lavazza Espresso Point machine is clean and properly set up according to its manual.
2. Verify that the water tank is filled with fresh, clean water.
3. Place an empty cup or container under the coffee dispenser.

3. Operating Instructions

Follow these steps to brew a perfect espresso using your Lavazza Espresso Point Crema E Aroma capsules:

1. **Insert Capsule:** Open the capsule compartment of your Lavazza Espresso Point machine. Carefully insert one Lavazza Crema E Aroma capsule into the designated slot. Ensure it is seated correctly.
2. **Close Compartment:** Close the capsule compartment or lever firmly until it clicks into place. This action punctures the capsule and prepares it for brewing.
3. **Place Cup:** Position your espresso cup directly under the coffee dispenser.
4. **Select Brew:** Select your desired cup size or brewing option on your machine. The machine will begin the brewing process, dispensing fresh espresso into your cup.
5. **Enjoy:** Once brewing is complete, remove your cup and enjoy your Lavazza espresso.
6. **Eject Capsule:** After brewing, open the capsule compartment to eject the used capsule into the internal waste bin.

4. Maintenance

While the capsules themselves require minimal maintenance, proper storage and machine care are essential for optimal performance and taste.

4.1. Capsule Storage

- Store Lavazza Espresso Point capsules in a cool, dry place away from direct sunlight and strong odors.
- Keep capsules in their original sealed packaging until ready for use to maintain freshness and flavor.
- Do not refrigerate or freeze capsules.

4.2. Machine Cleaning

Regular cleaning of your Lavazza Espresso Point machine is crucial. Follow your machine's specific cleaning instructions, which typically include:

- Emptying and cleaning the used capsule container daily.
- Washing the drip tray and grid regularly.
- Wiping down the exterior of the machine with a damp cloth.
- Performing descaling cycles as recommended by the machine manufacturer to prevent mineral buildup.

5. Troubleshooting

This section addresses common issues you might encounter when using Lavazza Espresso Point Crema E Aroma capsules.

Problem	Possible Cause	Solution
Capsule does not fit or machine struggles to close.	Incorrect capsule type.	Ensure you are using **Lavazza Espresso Point** capsules. These capsules are not compatible with Nespresso, Keurig, or other non-Lavazza Espresso Point systems.
Weak or watery espresso.	Machine not at optimal temperature; capsule not properly punctured.	Allow the machine to fully heat up. Ensure the capsule is inserted correctly and the lever is firmly closed. If brewing immediately after steaming milk, the water may be too hot. Run a short flush cycle without a capsule to cool the thermoblock, then brew.
No coffee dispenses.	Water tank empty; machine clogged; capsule not inserted.	Check water tank level. Perform a descaling cycle if necessary. Ensure a capsule is properly inserted.
Espresso tastes bitter or burnt.	Machine too hot; old capsule.	Allow machine to cool slightly between brews. Check the best-before date on the capsule packaging.

6. Specifications

Detailed specifications for Lavazza Espresso Point Crema E Aroma Espresso Capsules:

Attribute	Detail
Product Dimensions	10.63 x 11.81 x 4.33 inches
Item Model Number	8000070104600
UPC	640206399883, 885434144397, 798527475462, 885353335098, 000070104608, 778889046449, 885140914697
Manufacturer	Lavazza
Units	100 Count
Brand	Lavazza
Item Form	Capsule
