Wrebbit 3D W3D-2005

Wrebbit3D Neuschwanstein Castle 3D Puzzle Instruction Manual

Model: W3D-2005 | Brand: Wrebbit 3D

INTRODUCTION

This manual provides comprehensive instructions for the assembly, care, and maintenance of your Wrebbit3D Neuschwanstein Castle 3D Puzzle. Designed for puzzlers aged 14 and up, this intricate 3D jigsaw puzzle allows you to construct a detailed replica of King Ludwig II's iconic Bavarian castle using 890 foam-backed pieces. No glue or additional tools are required for assembly.

SAFETY INFORMATION

This product is recommended for ages 14 years and up. Keep small pieces away from younger children to prevent choking hazards.

WHAT'S IN THE BOX

Your Wrebbit3D Neuschwanstein Castle 3D Puzzle package contains the following items:

- 890 foam-backed puzzle pieces
- Instruction leaflet (black-and-white printed)

SETUP

Before beginning assembly, ensure you have a clean, spacious work area. It is highly recommended to sort the puzzle pieces. Separate all "scrap" pieces (often marked with red dots or lines) from the actual puzzle pieces. You may need to go through the scrap pieces again to ensure no actual puzzle pieces were accidentally mixed in. Sorting pieces by color, texture, or section (e.g., greenery, towers, walls) can significantly aid the assembly process.

Refer to the included instruction leaflet for initial guidance. Full-color visual instructions are also available online for a more detailed assembly experience.

Online Colour Instructions

ASSEMBLY (OPERATING)

The Wrebbit3D Neuschwanstein Castle puzzle is assembled by interlocking the foam-backed pieces. No glue is required, as the pieces are designed to fit snugly and create a sturdy 3D structure. Follow the step-by-step instructions provided in the leaflet and online. The online instructions often include diagrams and visual aids to guide you through each section of the castle's construction.

Begin by assembling the base sections, then gradually build upwards, connecting walls, towers, and roofs as indicated in the instructions. Patience and careful attention to detail will ensure a rewarding building experience.

MAINTENANCE

Once assembled, your Wrebbit3D puzzle is a durable display piece. To maintain its appearance:

- **Cleaning:** Gently dust the assembled puzzle with a soft, dry cloth or a soft-bristled brush. Avoid using water or cleaning solutions, as they may damage the foam material or printed surfaces.
- **Storage:** If you need to disassemble and store the puzzle, do so carefully to avoid bending or tearing pieces. Store pieces in their original box or a similar sturdy container in a dry environment away from direct sunlight.

TROUBLESHOOTING

If you encounter any issues during assembly or with your puzzle, consider the following:

- **Missing Pieces:** Double-check your work area and the box for any overlooked pieces, especially those initially mistaken for "scrap." If a piece is genuinely missing, contact Wrebbit3D customer service with your product information (model number, piece count, and a description of the missing piece).
- **Difficulty Assembling:** Ensure you have thoroughly sorted your pieces. Refer to the online color instructions for clearer visual guidance. Sometimes, taking a break and returning to the puzzle with fresh eyes can help.
- **Loose Connections:** While Wrebbit3D puzzles are designed for sturdy assembly without glue, ensure pieces are fully pushed into place. The foam material allows for a snug fit.

SPECIFICATIONS

Feature	Detail
Product Dimensions (Assembled)	22 x 11.5 x 0.04 inches
Item Weight	0.011 ounces
Model Number	W3D-2005
ASIN	B008M704LI
Recommended Age	14 years and up
Manufacturer	WREBBIT 3D
Number of Pieces	890
Material	100% Foam

Note: The provided product dimensions (22 x 11.5 x 0.04 inches) likely refer to the flat sheet size or packaging, not the assembled 3D model's overall dimensions. The assembled model will have significant height.

WARRANTY AND SUPPORT

For any inquiries regarding missing pieces, product defects, or general support, please contact Wrebbit3D customer service. Information for contacting the company is typically found on the product packaging or the instruction leaflet. Wrebbit3D is committed to providing a quality puzzling experience.
