JVC HAFR6B

JVC HAFR6B Gummy Plus Headphones

INSTRUCTION MANUAL

1. Introduction

The JVC HAFR6B Gummy Plus Headphones are designed to provide clear audio with a comfortable in-ear fit. These wired headphones feature a built-in microphone for hands-free communication and sound isolation capabilities to enhance your listening experience. They are lightweight and compatible with various devices through a standard 3.5mm audio jack.

2. Setup

To begin using your JVC HAFR6B Gummy Plus Headphones, follow these simple steps:

1. **Unpack the Headphones:** Carefully remove the headphones from their packaging. Ensure all components are present.
2. **Identify Left and Right Earbuds:** The earbuds are marked with 'L' for left and 'R' for right. Insert them into the corresponding ears.
3. **Connect to Your Device:** Plug the 3.5mm audio jack into the headphone port of your smartphone, tablet, computer, or other compatible audio device.
4. **Adjust for Comfort:** The Gummy earbuds are designed for a comfortable and secure fit. Adjust their position in your ear until you achieve optimal comfort and sound isolation.

3. Operating Instructions

The JVC HAFR6B Gummy Plus Headphones offer straightforward operation for audio playback and hands-free communication.

3.1 Audio Playback

- **Start Playback:** Once connected to your device, begin playing audio from your preferred application.
- **Volume Control:** Use the volume controls on your connected device to adjust the audio level. The

inline remote may also offer volume adjustment depending on your device's compatibility.

3.2 Hands-Free Calling and Controls

The inline remote control allows for convenient management of calls and music playback without needing to access your device directly.

- **Answer/End Call:** Press the central button on the inline remote once to answer an incoming call or end an active call.
- **Play/Pause Music:** Press the central button once to play or pause music playback.
- **Skip Track:** Press the central button twice quickly to skip to the next track.
- **Previous Track:** Press the central button three times quickly to go back to the previous track.
- **Microphone:** The built-in microphone allows for clear voice transmission during calls. Ensure the microphone is not obstructed.
- **iOS Phone Control:** These headphones support specific iOS phone control functionalities via the inline remote. Refer to your iOS device's manual for detailed compatibility and functions.

4. Maintenance

Proper care and maintenance will extend the lifespan of your JVC HA-FR6B Gummy Plus Headphones.

- **Cleaning Earbuds:** Gently wipe the silicone ear tips with a soft, dry cloth. For deeper cleaning, remove the ear tips and wash them with mild soap and water, then ensure they are completely dry before reattaching.
- **Cleaning the Cable and Remote:** Use a soft, slightly damp cloth to wipe the cable and inline remote. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, store your headphones in a clean, dry place, away from direct sunlight and extreme temperatures. Avoid tangling the cable to prevent damage.
- **Avoid Moisture:** While the headphones may offer some water resistance, avoid prolonged exposure to water or high humidity.

5. Troubleshooting

If you encounter issues with your JVC HAFR6B Gummy Plus Headphones, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
No sound or low volume	Incorrect connection, device volume too low, damaged cable/jack	Ensure 3.5mm jack is fully inserted. Increase device volume. Test with another device. Inspect cable for damage.
Poor sound quality (muffled, distorted)	Dirty ear tips, improper fit, damaged audio source	Clean ear tips. Adjust earbud position for a secure fit. Test with another audio source.
Microphone not working	Microphone obstructed, device settings, incompatible device	Ensure microphone is clear. Check microphone settings on your device. Confirm device supports inline microphone.
Remote control buttons unresponsive	Incompatible device, software glitch	Ensure your device supports the remote functions. Restart your device.
