PRODUCT OVERVIEW

The Jabra Tour is engineered for superior audio performance in a vehicle environment. Key features include:

- **Powerful 3-Watt Speaker:** Delivers clear audio for calls and multimedia.
- **HD Voice Microphone with Noise Cancellation:** Ensures your voice is heard clearly, even in noisy environments.
- **Voice Control:** Activate your phone's voice assistant (Android or Siri) and control the speakerphone with voice commands like "Answer/Ignore" for calls, "Pair New Device," "Battery," and "Phone Command."
- **Motion Sensor:** Automatically turns the device on and off when you enter or leave your car, conserving battery life.
- **Multi-use:** Connects to two Bluetooth devices simultaneously.
- **Long Battery Life:** Up to 20 hours of talk time and 45 days of standby time.

SETUP

1. Charging the Device

Before first use, fully charge your Jabra Tour using the provided USB charger cable and a car charger or any standard USB power source. The device can be used while charging.

2. Mounting the Speakerphone

Attach the Jabra Tour to your car's sun visor using the integrated clip. Ensure it is positioned where the microphone can pick up your voice clearly and the speaker is audible.

3. First-Time Pairing with Your Mobile Phone

The first time the Jabra Tour is turned on, voice guidance will assist you through the pairing process:

1. Turn on the Jabra Tour.
2. Follow the voice-guided instructions to pair the Jabra Tour with your mobile phone.
3. Ensure Bluetooth is activated on your mobile phone.
4. If prompted for a passkey or PIN during pairing, enter **0000**.

OPERATING THE JABRA TOUR

Power On/Off and Motion Sensor

The Jabra Tour features a built-in motion sensor. When you enter your car, the device will automatically turn on and attempt to connect to your paired phone. When you leave your car and there is no motion detected for a period, it will automatically turn off to save battery.

Voice Control for Calls

When an incoming call is received, the Jabra Tour will announce the caller's name (if supported by your device and network). You can simply say "Answer" to accept the call or "Ignore" to reject it, keeping your hands on the wheel.

Accessing Phone Voice Assistant

Press the dedicated voice button on the Jabra Tour to activate your phone's voice assistant (e.g., Siri, Google Assistant). This allows you to make calls, send messages, or get directions using voice commands directly through the speakerphone.

Streaming Multimedia

The Jabra Tour can stream audio from your Bluetooth-enabled device, including music, GPS directions, and internet radio. This allows you to enjoy your media through the powerful 3-watt speaker.

Multi-use Connectivity

The speakerphone supports connecting to two active Bluetooth devices simultaneously. This feature is useful if you carry both a personal and a work phone, allowing you to manage calls from either device.

Volume Control

Adjust the call and media volume using the dedicated volume buttons on the Jabra Tour. Note that announcement volume may be

independent of call volume on some devices.

MAINTENANCE

To ensure the longevity and optimal performance of your Jabra Tour:

- Keep the device clean by wiping it with a soft, dry cloth.
- Avoid exposing the device to extreme temperatures, moisture, or direct sunlight for extended periods.
- Do not attempt to disassemble the device, as this will void the warranty.

TROUBLESHOOTING

If you encounter issues with your Jabra Tour, try the following common solutions:

- **No Power:** Ensure the device is charged. Connect it to a power source and check the charging indicator.

- **Cannot Pair:** Make sure Bluetooth is enabled on your phone and the Jabra Tour is in pairing mode. Try restarting both devices.
- **Poor Audio Quality:** Check the volume levels on both the speakerphone and your mobile device. Ensure there are no obstructions between the speakerphone and your phone.
- **Voice Control Not Responding:** Verify that your phone's voice assistant is enabled and configured correctly.

For more detailed troubleshooting, refer to the official Jabra support resources.
